**Statement from Secretary Dudek regarding FPA voluntarily dismissing suit
against AHCA**

TALLAHASSEE—“The Agency is pleased that the Florida Pharmacy Association has voluntarily dismissed their lawsuit that incorrectly alleged AHCA was violating state and federal law by excluding individual pharmacies from providing pharmacy services for Medicaid recipients, and violating the rights of Medicaid recipients by restricting their provider choice. The Agency believes these claims were without merit and that AHCA has at all times been in compliance with the law. AHCA’s policies provide Medicaid recipients with flexibility in their choice of programs and access to an extensive network of providers.”
