RE: Response to AHCA's Invitation to Negotiate (ITN) for the Florida Statewide Medicaid Managed Care Program Specialty Plan

Dear Ms. Barrett:

Simply Healthcare Plans, Inc. D/B/A Clear Health Alliance (Clear Health) is pleased to submit a proposal in response to the ITN for **Florida's Statewide Medicaid Managed Care Program** issued by the Agency for Health Care Administration (Agency) on July 14, 2017.

Clear Health is bidding in all 11 Florida regions as a Specialty plan for individuals with HIV/AIDS. This response is for a **Specialty Plan for individuals with HIV/AIDS in Region 1**. We authorize the Agency's release of the redacted version of the response in the event the Agency receives a public records request.

Clear Health currently offers a specialty plan for Medicaid recipients living with HIV/AIDS in nearly all regions of the state. We provide managed care services to the eligible TANF, SSI and Dual Eligible populations with a diagnosis of HIV/AIDS. We are one of the few of our kind in the country, and one of the two Florida HIV/AIDS specialty designated plans. We have maintained the largest enrollment of the two HIV/AIDS plans in Florida since the inception of the statewide Medicaid Managed Care program – ten times greater than the other Florida HIV/AIDS specialty plan.

Clear Health is backed by the knowledge and track record of Simply Healthcare Plans, Inc. (Simply). Simply continues to do business as Clear Health, and brings together the best practices and innovative solutions of three Florida health plans that recently merged to become one entity. The merged entities are the original Simply, Better Health, Inc. (Better Health), and AMERIGROUP Florida, Inc. (Amerigroup). Each of our legacy plans were formed to bring local health care solutions to Florida's Medicaid recipients, and have diversified to meet the varying needs of the Florida population. While each plan was strong on its own, the combined resources, capabilities, network, and community ties of our unified Simply create a far stronger whole. The unified Simply draws on the strength of each legacy organization's experience to elevate the performance of every area of our operations. We bring together the leadership, resources, and capabilities of our proven health plans already in Florida. Our unified plan combines the data analytics, responsiveness, member and provider engagement, and deep local roots from Clear Health, Better Health, Amerigroup, and the original Simply with the national presence, best practices, innovations, and depth of experience from Anthem, Inc., our ultimate parent company. Together with our affiliates, Anthem is in 20 Medicaid markets

including Florida. We currently serve more than 9,300 members across Florida, and we are the largest HIV/AIDS specialty plan in the state and the nation.

We greatly appreciate the opportunity to participate in this process to continue to partner with the State to administer vitally important health care services that provide specialized care and appropriate avenues to access that care for Florida Medicaid's HIV/AIDS population. As a proud partner serving Florida Medicaid's HIV/AIDS population since 2012, we understand the needs of Floridians and the requirements and objectives of the public agencies administering programs.

We are honored and humbled to be partners with the Agency and we look forward to bringing new innovative solutions as we enter the next chapter of Florida's Medicaid program.

Sincerely,

Lourdes Rivas
President and Chief Executive Officer

RESPONDENT NAME: SIMPLY HEALTHCARE PLANS, INC. D/B/A CLEAR HEALTH ALLIANCE

1. ACCEPTANCE OF SOLICITATION REQUIREMENTS

I hereby certify that I understand and agree that my organization has read all requirements and Agency specifications provided in this solicitation, accepts said requirements, and that this response is made in accordance with the provisions of such requirements and specifications. By my written signature below, I guarantee and certify that all items included in this response shall meet or exceed any and all such requirements and Agency specifications. I further agree, if awarded a Contract resulting from this solicitation, to deliver services that meet or exceed the requirements and specifications provided in this solicitation.

AND

2. ACCEPTANCE OF CONTRACT TERMS AND CONDITIONS

I hereby certify that should my organization be awarded a Contract resulting from this solicitation, it will comply with all terms and conditions as specified in this solicitation and in the Agency Standard Contract (**Exhibit A-8, including Attachments II - V**).

AND

3. STATEMENT OF NO-INVOLVEMENT

I hereby certify that neither my organization nor any person with an interest in the organization had any prior involvement in performing a feasibility study of the implementation of the subject Contract, in drafting of this solicitation or in developing the subject program.

AND

4. PROHIBITION OF GRATUITIES

I hereby certify that no elected official or employee of the State of Florida has or shall benefit financially or materially from such my organization's response or subsequent Contract in violation of the provisions of Chapter 112, Florida Statutes. I understand that any Contract issued as a result of this solicitation may be terminated if it is determined that gratuities of any kind were either offered or received by any of the aforementioned parties.

7. ORGANIZATIONAL CONFLICT OF INTEREST CERTIFICATION

The standards on organizational conflicts of interest in Title 48, Code of Federal Regulations, Subpart 9.5 – Organizational and Consultant Conflicts of Interest and Section 287.057(17), Florida Statutes, apply to this solicitation. A respondent with an actual or potential organizational conflict of interest shall disclose the conflict. If the respondent believes the conflict of interest can be mitigated, neutralized or avoided, the respondent shall submit a Conflict of Interest Mitigation Plan with its response, that shall, at a minimum:

- a) Identify any relationship, financial interest or other activity which may create an actual or potential organizational conflict of interest.
- b) Describe the actions the respondent intends to take to mitigate, neutralize, or avoid the identified organizational conflicts of interest.
- c) Identify the official within the respondent's organization responsible for making conflict of interest determinations.

The Conflict of Interest Mitigation Plan will be evaluated as acceptable or not acceptable. The Agency reserves the right to request additional information from the respondent or other sources, as deemed necessary, to determine whether or not the plan adequately neutralizes, mitigates, or avoids the identified conflicts.

EXHIBIT A-2-c
ADDITIONAL REQUIRED CERTIFICATIONS AND STATEMENTS

EXHIBIT A-3-a
MILLIMAN ORGANIZATIONAL
CONFLICT OF INTEREST MITIGATION PLAN

RESPONDENT NAME: SIMPLY HEALTHCARE PLANS, INC. D/B/A CLEAR HEALTH ALLIANCE

The Agency for Health Care Administration ("Agency" or "AHCA") "must avoid, neutralize, or mitigate significant potential organizational conflicts of interest (OCI) before a Contract is awarded. If the Agency elects to mitigate the significant potential organizational conflict or conflicts of interest, an adequate mitigation plan, including organizational, physical, and electronic barriers, shall be developed. [Section 287.057(17)(a)(1), Florida Statutes]

The Agency has determined that in order to evaluate proposals and negotiate a Contract that is in the best interests of the State, it is necessary to use the services of Milliman, Inc. ("Milliman") to act as an actuary and advisor throughout all stages of the "Statewide Medicaid Managed Care Program" competitive solicitation. The Agency reasonably anticipates one or more prospective respondents may also use Milliman. The Agency has determined that all reasonably anticipated OCIs relating to Milliman may be mitigated by the following mitigation plan, which has been agreed to by Milliman:

I. Milliman

- a.** All Milliman personnel who will perform services under the "Statewide Medicaid Managed Care Program" competitive solicitation shall be part of a separate internal Milliman working group (the "Milliman AHCA Group") with its own internal electronic and hard folders.
- b.** All documents or communications received or generated by the Milliman AHCA Group that relate in any way to this solicitation shall be placed only in this Group's separate files.
- c.** Each member of the Milliman AHCA Group shall submit **Exhibit A-3-b**, Milliman Employee Organizational Conflict of Interest Affidavit indicating they will provide actuarial services to the Agency.
- d.** No Milliman personnel, other than the Milliman AHCA Group personnel shall have access to the Milliman AHCA's Groups files.
- e.** The above-listed personnel shall not discuss any information relating to the SMMC ITN Services with any other Milliman personnel.

II. Respondents

- a. Any actual or prospective respondent who is using Milliman for this procurement must disclose this fact in its initial reply to the solicitation. Specifically, a respondent wishing to use Milliman must:
 - i. Identify itself and its intent to use Milliman;
 - ii. Identify the specific Milliman personnel that will be assisting the respondent in the procurement;
 - iii. Submit **Exhibit A-3-b, Milliman Employee Organizational Conflict of Interest Affidavit** forms, completed by each identified Milliman personnel.
- b. All replies submitted in response to this solicitation must include the completed declaration in **Section IV.** of this Exhibit, signed by the authorized official who signed the reply on behalf of the respondent.
- c. Any actual or prospective respondent who learns there is a reasonable basis to believe there has or may have been a violation of the Milliman OCI Mitigation Plan shall, within seventy-two (72) hours, notify the Agency of the facts and circumstances of the possible violation.

III. Protests

- a. **Actual or prospective respondents are advised they have a burden to diligently investigate and challenge potential OCIs relating to Milliman.**
- b. All challenges to the Milliman OCI Mitigation Plan must be timely filed as a challenge to the specifications of this solicitation. Similarly, challenges to amendments to the Milliman OCI Mitigation Plan must be timely filed as specifications challenges.
- c. All challenges to Milliman-related information provided by actual or prospective respondents and posted by the Agency must be timely filed as specifications challenges.
- d. **All protests filed after a Notice of Intent to Award has been posted which allege a Milliman-related OCI shall be limited to alleged violations of the Milliman OCI Mitigation Plan.**

Report of Independent Auditors

Board of Directors
Simply Healthcare Plans, Inc.

We have audited the accompanying statutory-basis financial statements of Simply Healthcare Plans, Inc., which comprise the balance sheets as of December 31, 2016 and 2015, and the related statements of income, changes in capital and surplus and cash flow for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

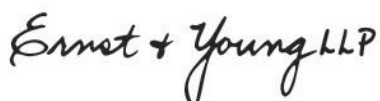

As described in Note 1, to meet the requirements of Florida, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory-basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of Simply Healthcare Plans, Inc. at December 31, 2016 and 2015, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of Simply Healthcare Plans, Inc. at December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

1. Nature of Operations and Significant Accounting Policies

Simply Healthcare Plans, Inc. (the “Company”) is a Florida domiciled stock health maintenance organization (“HMO”) which is licensed in Florida. The Company is a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid and Medicare programs. The Company’s current service areas include all counties of Florida. It provides Medicaid and Medicare Services in Miami-Dade, Osceola, Seminole, Orange and Polk counties and Medicaid only services in the rest of Florida counties, except for Volusia, Flagler, St. John’s, Duval and Nassau. As of December 31, 2016, the Company served 133,053 members. The Company manages healthcare services for Medicare members as a Medicare Advantage Plan, under a contract with the Centers for Medicare and Medicaid Services (“CMS”). The Company manages healthcare services for Medicaid members under a contract with the Florida Agency for Healthcare Administration (“AHCA”). The loss of these contracts would have a material effect on the Company’s operations. The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc. (“Simply Holdings”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. On December 19, 2014, Simply Holdings entered into an Agreement and Plan Merger with a subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court’s ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna’s allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem’s motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. Specifically, all parent and affiliate intercompany receivable balances are considered nonadmitted assets. In addition, pursuant to Section 641.35(3)(a), Florida Statutes, if an HMO, through a health risk contract, transfers to any entity the obligation to pay providers for subscriber claims, the liability for any such payment remains with the HMO until the payment is received by the provider and should be reflected in claim

reserves. The Company employed no permitted practices in preparing the accompanying statutory basis financial statements.

A reconciliation of the Company's statutory capital and surplus as of December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of Statement of Statutory Accounting Principles ("SSAP") are shown below:

	<u>SSAP No.</u>	<u>2016</u>	<u>2015</u>
Statutory capital and surplus, Florida OIR basis		\$ 113,395	\$ 46,117
State prescribed practices:			
Nonadmittance of amounts due from affiliates pursuant to 641.35 (2)(i) of the Florida Revised Statutes	25	714	–
State prescribed practices:			
Claim reserve pursuant to 641.35 (3)(a) of the Florida Revised Statutes	55	211	204
Statutory capital and surplus, NAIC SAP basis		<u>\$ 114,320</u>	<u>\$ 46,321</u>

A reconciliation of the Company's statutory net income for the years ended December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of SSAP is shown below:

	<u>SSAP No.</u>	<u>2016</u>	<u>2015</u>
Statutory net income, Florida OIR basis		\$ 55,585	\$ 21,811
State prescribed practices:			
Claim reserve pursuant to 641.35 (3)(a) of the Florida Revised Statutes	55	7	204
Statutory net income, NAIC SAP basis		<u>\$ 55,592</u>	<u>\$ 22,015</u>

Such practices vary from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Investments: Investments in bonds, preferred stocks and unaffiliated common stocks are reported at amortized cost or fair value based on their NAIC rating. For GAAP, such fixed maturity investments are designated at purchase as available-for-sale and are reported at fair value with unrealized holding gains and losses, net of tax, reported as a separate component of capital and surplus.

For statutory purposes, all single class and multi-class mortgage-backed/asset-backed securities, such as collateralized mortgage obligations ("CMOs"), where it is determined that a decline in fair value is other-than-temporary because the Company intends to sell the security or has assessed that it does not have the intent and ability to retain the investments in the security for a period of time sufficient to recover the amortized cost basis, the amortized cost basis is written down to fair value as a realized loss in the statements of income. If deemed other-than-temporarily impaired as the Company does not expect to recover the amortized cost basis even if it

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

did not intend to sell the security and the Company has the intent and ability to hold the security, the amortized cost basis is written down to the present value of future cash flows as a realized loss in the statements of income. For impaired bonds not backed by other assets, an other-than-temporary impairment (“OTTI”) is considered to have occurred if it is probable that the Company will be unable to collect all amounts due according to the instrument’s contractual terms in effect at the date of acquisition. A decline in fair value that is other-than-temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. If it is determined that a decline in the fair value of a bond is other-than-temporary, an impairment loss is recognized as a realized loss in the statements of income equal to the entire difference between the bond’s carrying value and its fair value.

For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets, such as CMOs, mortgage-backed securities, bonds and asset-backed securities, other than high credit quality securities, whose decline in fair value is determined to be other-than-temporary, the cost basis of the security is written down to the fair value if the Company intends to sell the security or it is more likely than not that the Company will have to sell the security prior to recovery. For impaired fixed maturity securities that the Company does not intend to sell or it is more likely than not that the Company will not have to sell such securities, but the Company expects that it will not fully recover the amortized cost basis, the credit component of the OTTI is recognized in other-than-temporary losses in the income statements, and the non-credit component of the OTTI is recognized in other comprehensive income. Furthermore, unrealized losses entirely caused by non-credit factors related to fixed maturity securities for which the Company expects to fully recover the amortized cost basis continue to be recognized in accumulated other comprehensive income.

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally amounts aged ninety days and older are nonadmitted assets, with the exception of government receivables. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management’s judgment on the collectability of these accounts.

Nonadmitted assets: Certain assets designated as nonadmitted, including deferred federal income taxes in excess of certain statutory limits, investments in unaudited subsidiaries, furniture and equipment, non-operating software, leasehold improvements, prepaid expenses, intangible assets other than goodwill, certain health care and other receivable balances, and certain premium receivable balances are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$10,111 and \$25,468 at December 31, 2016 and 2015, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Surplus notes: Surplus notes are reported as capital and surplus, surplus note interest expense is not recorded until approved by the Florida OIR and related accrued interest is reported as borrowed money. For GAAP, surplus notes are reported as long-term debt, and surplus note interest expense is accrued as incurred.

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital (“RBC”) thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing (“EDP”) equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of income.

Statements of cash flow: Cash, cash equivalents and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash and cash equivalents include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities and short term investments.

Uninsured accident and health plans: The Company provides administrative services to AHCA on an uninsured basis. Under this arrangement, the customer retains the risk of funding payments for health benefits provided, and the Company may be subject to credit risk of the customer from the time of the Company's claim payment until the Company receives the claim reimbursement. In accordance with SSAP No. 47, Uninsured Plans, these claim payments and subsequent reimbursements are excluded from the Company's statutory basis statements of income, and administrative fees earned are deducted from general insurance expenses. For GAAP, these administrative fees are reported as revenue in the statements of income.

Reinsurance: Any reinsurance balance amounts deemed to be uncollectible have been written off through a charge to operations. In addition, a liability for reinsurance balances has been provided for unsecured policy reserves ceded to reinsurers not authorized to assume such business. Changes to the liability are credited or charged directly to unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

The effects of the foregoing variances from GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

Other significant accounting policies are as follows:

Use of Estimates

Preparation of statutory basis financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Bonds not backed by loans are stated at amortized cost, with amortization of premium or discount calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions for loan-backed securities and structured securities are obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade bonds are stated at the lower of cost or fair value as determined by the NAIC's Securities Valuation Office ("SVO"). Common stocks of unaffiliated companies are stated at fair value as determined by various third-party pricing sources.

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Unrealized gains and losses on stocks and non-investment grade bonds are reflected directly in unassigned surplus net of federal income taxes unless there is deemed to be an other-than-temporary decline in value, in which case the loss is charged to income. Realized gains and losses on investments sold are determined using the specific identification method and are included in net realized capital gains (loss), net of tax. Investment income is not accrued on bonds with interest payments in default.

Short-term investments include investments with maturities of less than one year and more than three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Cash equivalent investments include investments with maturities of less than or equal to three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term and cash equivalent investments are stated at the lower of amortized cost or fair value.

Electronic Data Processing Equipment and Software

EDP equipment and software are recorded at cost less accumulated depreciation. Depreciation on EDP equipment and operating software is computed principally by the straight-line method over the lesser of the estimated useful lives of the assets or three years. Non-operating software is depreciated using the straight-line method over the lesser of its useful life or five years. Accumulated depreciation at December 31, 2016 and 2015 was \$3,728 and \$2,564, respectively. Depreciation expense in 2016 and 2015 was \$1,164 and \$995, respectively.

Furniture and Equipment

Furniture and equipment is capitalized and depreciated on a straight-line basis over its useful life. The net book value is charged in full to unassigned surplus as a nonadmitted asset. Depreciation expense in 2016 and 2015 was \$549 and \$1,023, respectively.

Health Care Receivables

Health care receivables represent amounts related to pharmacy rebate receivables and other health care related receivables other than premiums. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claims adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

Risk Share and Other Reserves

The Company contracts with physicians or providers groups to provide medical services to the Company's members. The Company pays capitation or negotiated fees for defined services provided by the physicians. Under the terms of these agreements, certain providers are eligible to receive provider incentives based on qualitative and quantitative factors. Estimated risk sharing settlements are continually reviewed, and necessary adjustments are included in current operations. Claim and claim adjustment expenses include all amounts incurred by the Company under these arrangements.

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

The State of Florida, AHCA, informed the Company on June 7, 2016 of a pricing error related to the State Fiscal Year 2015-2016 contract. AHCA indicated it underpaid the Company due to a mismatch of rates. Related to this, the Company received and recognized cash and premiums of \$6,039 from AHCA during 2016 related to 2015.

Medicare Advantage Part D Premiums and Expenses

The Company serves as a plan sponsor, offering Medicare Advantage Part D prescription drug insurance coverage under a contract with the CMS. The CMS premium, the member premium, and the low-income premium subsidy represent payments for the Company's insurance risk coverage under the Medicare Advantage Part D program and therefore are recorded as premium revenues in operations. Premium revenues are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. Pharmacy benefit costs and administrative costs under the contract are expensed as incurred.

Subsidies from CMS representing cost reimbursements under the Medicare Part D program are not reflected as premium revenues, but rather are accounted for as deposits in amounts receivable for uninsured plans on the accompanying balance sheets. The related liabilities are reported in the accompanying balance sheets in liability for amounts held under uninsured plans.

Reinsurance

Reinsurance premiums, claims and claims adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Retrospectively Rated Contracts

The Company's contracts with CMS and AHCA include a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results.

Simply Healthcare Plans, Inc.

Federal Income Taxes

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income taxes is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is non-deductible for income tax purposes. The health insurer fee is reported in operating expenses in the same year it is paid. The health insurer fee to be paid in the following year is segregated in special surplus funds until the beginning of the year in which it is to be paid. Payment of the health insurer fee has been suspended for 2017 and will resume for 2018 and beyond.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. Investments

A summary of the Company's investments in bonds is as follows:

Proceeds from sales of bonds during 2016 and 2015 were \$1,768 and \$19,780, respectively, resulting in gross gains of \$7 and \$59, respectively, and realized gross losses of \$5 and \$51, respectively.

Cash of \$310 and \$310 was on deposit with the Florida OIR at December 31, 2016 and 2015, respectively. Bonds with a statement value of \$15,563 and \$15,555 were on deposit with AHCA at December 31, 2016 and 2015, respectively.

A significant judgment in the valuation of investments is the determination of when an other-than-temporary decline in value has occurred. The Company follows a consistent and systematic process for impairing securities that sustain other-than-temporary declines in value. The Company has established a committee responsible for the impairment review process. The decision to impair a security incorporates both quantitative criteria and qualitative information. The impairment review process considers a number of factors, including but not limited to (a) the length of time and the extent to which a security's fair value has been less than statement value; (b) the financial condition and near term prospects of the issuer; (c) the intent to sell and, for loan-backed and structured securities, the intent and ability of the Company to retain its investment for a period of time to allow for any anticipated recovery in value; (d) whether the debtor is current on interest and principal payments; and (e) general market conditions and industry or sector specific factors. For securities that are deemed to be other-than-temporarily impaired, the security is adjusted to its fair value (or its discounted cash flows for loan-backed and structured securities), and the resulting losses are recognized in net realized gains or losses in the statutory basis statements of income. The new cost basis of the impaired securities is not increased for future recoveries in fair value. The Company recorded no charges for OTTI of securities for the years ended December 31, 2016 and 2015.

A summary of unaffiliated investments with unrealized losses along with the related fair value, aggregated by the length of time that investments have been in a continuous unrealized loss position, is as follows:

	December 31, 2016			December 31, 2015		
	Number of Securities	Fair Value	Gross Unrealized Loss	Number of Securities	Fair Value	Gross Unrealized Loss
Bonds:						
Less than 12 months	34	\$ 28,984	\$ (329)	11	\$ 8,061	\$ (29)
12 months or greater	—	—	—	—	—	—
Total bonds	<u>34</u>	<u>\$ 28,984</u>	<u>(329)</u>	<u>11</u>	<u>\$ 8,061</u>	<u>(29)</u>

The Company's bond portfolio is sensitive to interest rate fluctuations, which impact the fair value of individual securities. Unrealized losses on bonds reported above were primarily caused by the effects of the interest rate environment and the widening of credit spreads on certain securities. Unrealized losses on stocks result from normal market fluctuations and are considered temporary. The Company currently has the ability and intent to hold these securities until their full cost can be recovered. Therefore, the Company does not believe the unrealized losses represent an OTTI as of December 31, 2016 or 2015.

3. Fair Value

Assets and liabilities recorded at fair value in the statutory basis balance sheets would be categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

<u>Level Input</u>	<u>Input Definition</u>
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

The following table summarizes the assets and liabilities measured at fair value and held as of December 31, 2016 and 2015, respectively:

	<u>Level I</u>	<u>Level II</u>	<u>Level III</u>	<u>Total</u>
December 31, 2016				
US special revenue bonds	\$ -	\$ 251	\$ -	\$ 251
Total bonds	-	251	-	251
Total assets at fair value	<u>\$ -</u>	<u>\$ 251</u>	<u>\$ -</u>	<u>\$ 251</u>
December 31, 2015				
Industrial and miscellaneous bonds	\$ -	\$ -	\$ -	\$ -
Total bonds	-	-	-	-
Total assets at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level I or Level II inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level I securities, while Level II securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, the Company performs monthly analyses on the prices received from third parties to determine whether the prices are reasonable estimates of fair value. The Company's analyses include a review of month-to-month price fluctuations and, as needed, a comparison of pricing services' valuations for the identical security.

Balances at December 31	\$ 130,960	\$ 103,333

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

5. Retrospectively Rated Contracts and Contracts Subject to Redetermination

The amount of net premiums written by the Company in 2016 and 2015 that was subject to retrospective rating features, including MLR rebate regulations, was \$1,230,056 and \$987,385, which represented 100% and 100%, respectively, of the total net premiums written.

6. Reinsurance

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements limit the Company's exposure to losses within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

The effects of reinsurance on net premium considerations are as follows:

	Year ended December 31	
	2016	2015
Direct premiums	\$ 1,214,275	\$ 987,385
Ceded premiums - non-affiliates	(415)	(1,180)
Net premiums	<u>\$ 1,213,860</u>	<u>\$ 986,205</u>

The Company's ceded reinsurance arrangements reduced certain other items in the accompanying financial statements as follows:

At December 31, 2016, the Company has no operating loss carryforwards or tax credit carryforwards.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses:

	Ordinary	Capital	Total
2016	\$ 39,905	\$ 1	\$ 39,906
2015	18,713	20	18,733
2014	—	—	—

The Company is included in the consolidated federal income tax return of their parent Anthem, Inc., along with other affiliates, as of December 31, 2016. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

The Company is a member of the IRS Compliance Assurance Program ("CAP"). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2016, the examination of the 2016 tax year continues to be in process.

8. Health Insurer Fee

The Company had \$908,205 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015 and no premiums written subject to assessment under ACA Section 9010 as of December 31, 2016 due to the 2017 suspension of this assessment. Because no health insurer fee is to be paid in 2017, no funds have been segregated in special surplus funds for the health insurer fee at December 31, 2016. The Company's portion of the annual health insurance industry fee paid during 2016 was \$20,112 and is included in operating expenses.

9. Capital and Surplus

The Florida OIR requires the Company to maintain a minimum statutory capital and surplus as set forth in the state statutes. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. The Florida OIR has not adopted the Risk-Based Capital (RBC) requirement of the NAIC. At December 31, 2016 and 2015, the Company's capital and surplus exceeded all regulatory requirements.

Per the *Florida Statue 641.365*, certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company's accumulated surplus as of December 31st of the preceding year or 2) the Company's net income from the immediately preceding calendar year. Within the limitation above, the Company may pay dividends of \$55,585 during 2017 without prior approval.

The portion of unassigned surplus representing cumulative unrealized gains (losses) was (\$229) and \$0 as of December 31, 2016 and 2015, respectively.

10. Leases

The Company leases office space and EDP equipment and other miscellaneous items under various non-cancelable operating leases. Related lease expense for 2016 and 2015 was \$806 and \$6,133, respectively.

At December 31, 2016, future lease payments for operating leases with initial or remaining noncancelable terms of one year or more consisted of the following: 2017, \$487; 2018, \$3; 2019, \$3; 2020, \$3; and thereafter, \$225.

11. Commitments and Contingencies

Commitments:

During March 2012, the Company entered into a service agreement with a related party through common ownership, whereby a celebrity will provide certain marketing and communications services with respect to the Company's managed care services. As part of the agreement, the celebrity will be required to make public appearances on behalf of the Company. The agreement is for a term of five years, expiring in March 2017, and requires escalating monthly installments throughout the term. The Company is also required to reimburse the celebrity's reasonable out of pocket expenses including travel and meal expenses. The Company is entitled to terminate the agreement, with a thirty day written notice, under certain conditions defined in the agreement.

At December 31, 2016, future minimum payments under the service agreement consisted of \$802 for 2017.

Other Contingencies:

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has continued to implement security enhancements since this incident. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. Federal and state agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. The NAIC's multistate targeted market conduct and financial exam was concluded in December 2016. As part of the resolution, the NAIC asked and Anthem has agreed to provide a customized credit protection program functionally equivalent to a credit freeze for minors who were under the age of 18 on January 27, 2015. No fines or penalties were issued. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and on its results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its case management order in September 2015. Anthem filed a motion to dismiss ten of the counts that are before the U.S. District Court. In February 2016, the court issued an order granting in part and denying in part our motion, dismissing three counts with prejudice, four counts without prejudice and allowing three counts to proceed. Plaintiffs filed a second amended complaint in March 2016, and Anthem subsequently filed a second motion to dismiss. In May 2016, the court issued an order granting in part and denying in part our motion, dismissing one count with prejudice, dismissing certain counts asserted by specific named plaintiffs with or without prejudice depending on their individualized facts, and allowing the remaining counts to proceed. In July 2016, plaintiffs filed a third amended complaint, which Anthem answered in August 2016. Fact discovery was completed in December 2016. There remain two state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits and reviews and administrative proceedings include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on The Company's business operations. The Company believes that any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$19,749 and \$17,835 respectively in premium receivables due from policyholders and agents and receivables due from uninsured plans. Based upon Company experience, any uncollectible receivables are not expected to exceed zero that was nonadmitted at

Simply Healthcare Plans, Inc.

(Dollars In Thousands)

December 31, 2015; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

12. Retirement Benefits

During 2015, the Company participated in a defined contribution plan created prior to the February 17, 2015 acquisition of Simply Healthcare by Anthem. No Company-matched amounts were contributed to the plan. Beginning on January 1, 2016, that defined contribution plan merged into the Anthem 401(k) Retirement Savings Plan, a defined contribution plan sponsored by ATH Holding Company, LLC ("ATH Holding") and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. The Company has no legal obligation for benefits under this plan. During 2016, the Company was allocated \$1,246 for the defined contribution plan.

13. Uninsured Accident and Health Plans

The net loss from operations and total claim payment volume from administrative services only ("ASO") plans was:

	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
For the year ended December 31, 2016

14. Health Care Receivable

Pharmaceutical rebate receivables of \$1,678 and \$1,266 were admitted at December 31, 2016 and 2015, respectively.

Pharmaceutical rebate receivables consist of reasonably estimated and billed amounts. Amounts not collected within 90 days of the invoice or confirmation date are nonadmitted. Pharmaceutical rebate receivables of \$1,585 and \$1,174 were nonadmitted as of December 31, 2016 and 2015, respectively.

The following table summarizes information about the Company's pharmaceutical rebate receivables:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received Within 90 Days of Billing	Actual Rebates Received Within 91 to 180 Days of Billing	Actual Rebates Received More Than 180 Days After Billing

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$954 and \$2,213 were nonadmitted as of December 31, 2016 and 2015, respectively.

Provider receivables of \$1,026 and \$988 at December 31, 2016 and 2015, respectively, were also nonadmitted.

15. Related Party Transactions

Effective January 1, 2016, the Company has entered into an administrative services agreement with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, benefits, communications, advertising, consulting services, rent, utilities, accounting, underwriting, and product development, which support the operations of the Company. These costs are allocated based on various utilization statistics. Net payments to affiliated companies pursuant to the 2016 administrative service agreements were \$100,869, and are included in operating expenses and claims adjustment expenses in the statutory basis statements of income.

Prior to 2016, the Company entered into a Management Service Agreement with Better Health, Inc. (“Better Health”), a related party through common ownership, in which the Company provides services to administer a significant portion of Better Health’s benefits and business support services. In addition, the Company is entitled to receive reimbursements for reasonable expenses incurred in furtherance of operating Better Health in so much as these expenses exceed the amount of the management fee. For the year ended December 31, 2015, \$26,160 was received in relation to this agreement and has been recorded as an offset to general administrative expenses on the Company’s accompanying statutory statements of income.

At December 31, 2016 and 2015, the Company reported \$714 and \$0 due from affiliates, which were nonadmitted per Florida OIR prescribed accounting practices. At December 31, 2016 and 2015, the Company reported \$3,219 and \$2,974 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

16. Surplus Notes and Letter of Credit

The Company entered into various promissory surplus notes in 2013 with Simply Holdings totaling \$20,560. The surplus notes bear interest at annual rates of 8%. Management determines what portion of principal of each note shall be repaid within ninety days after the end of each calendar year. The repayment of principal and any interest accrued is subordinated to the prior payment in full of all other liabilities of the Company. The repayment must also be approved by the Florida OIR and not cause the Company to fall below the minimum surplus requirements. Management does not anticipate any repayments during 2017.

During 2016 and 2015, the Company did not seek nor did the Florida OIR approve any interest payments. As of December 31, 2016 and 2015, the “unapproved” cumulative interest relating to the surplus notes is approximately \$9,424 and \$7,774, respectively.

17. Subsequent Events

Management of the Company has evaluated all other events occurring after December 31, 2016 through March 30, 2017, the date the financial statements were available to be issued, to determine whether any event required either recognition or disclosure in the financial statements. It was determined there were no other events that require recognition or disclosure in the financial statements through the report date.

Board of Directors
Simply Healthcare Plans, Inc.

We have audited the accompanying statutory basis financial statements of Simply Healthcare Plans, Inc., which comprise the balance sheet as of December 31, 2015, and the related statements of income, changes in capital and surplus, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Florida, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of Simply Healthcare Plans, Inc. at December 31, 2015, or the results of its operations or its cash flows for the year then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of Simply Healthcare Plans, Inc. at December 31, 2015, and the results of its operations and its cash flows for the year then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

Report of Other Auditors on Prior Year Financial Statements

The statutory basis financial statements of Simply Healthcare Plans, Inc. for the year ended December 31, 2014 were audited by other auditors who expressed an adverse opinion with respect to conformity with U.S. generally accepted accounting principles and an unmodified opinion with respect to conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation in their report dated March 31, 2015, except for the restatement section in Note 1 as to which the date is April 4, 2016. Their report dated March 31, 2015, except for the restatement section in Note 1 as to which the date is April 4, 2016, contained emphasis of a matter paragraphs describing the subsequent acquisition of Simply Healthcare Holdings, Inc. (parent company of Simply Healthcare Plans, Inc.) by Anthem, Inc. on February 17, 2015 and the restatement of the 2014 financial statements.

Notes to Financial Statements – Statutory Basis

(Dollars In Thousands)

December 31, 2015

1. Nature of Operations and Significant Accounting Policies

Simply Healthcare Plans, Inc. (the “Company”) is a Florida domiciled stock health maintenance organization (“HMO”) which is licensed in Florida. The Company is a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid and Medicare programs. The Company’s current service areas include all counties of Florida. As of December 31, 2015, the Company served 116,224 members. The Company manages healthcare services for Medicare members as a Medicare Advantage Plan, under a contract with the Centers for Medicare and Medicaid Services (“CMS”). The Company manages healthcare services for Medicaid members under a contract with the Florida Agency for Healthcare Administration (“AHCA”). The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc. (“Simply Holdings”). On December 19, 2014, Simply Holdings entered into an Agreement and Plan of Merger with a subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna. The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna’s stockholders.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. The Company employed no permitted practices in preparing the accompanying statutory basis financial statements.

A reconciliation of the Company’s statutory capital and surplus as of December 31, 2015 and 2014 between practices prescribed by the Florida OIR and NAIC SAP is shown below:

1. Nature of Operations and Significant Accounting Policies (continued)

For the years ended December 31, 2015 and 2014, there are no differences between the Company's net income under NAIC SAP and practices prescribed by the Florida OIR.

NAIC SAP varies from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Investments: Investments in bonds are reported at amortized cost or fair value based on their NAIC rating. For GAAP, such fixed maturity investments are designated at purchase as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of capital and surplus.

For statutory purposes, all single class and multi-class mortgage-backed/asset-backed securities, such as collateralized mortgage obligations ("CMOs"), where it is determined that a decline in fair value is other-than-temporary because the Company intends to sell the security or has assessed that it does not have the intent and ability to retain the investments in the security for a period of time sufficient to recover the amortized cost basis, the amortized cost basis is written down to fair value as a realized loss in the statements of income. If deemed other-than-temporarily impaired as the Company does not expect to recover the amortized cost basis even if it did not intend to sell the security and the Company has the intent and ability to hold the security, the amortized cost basis is written down to the present value of future cash flows as a realized loss in the statements of income. For impaired bonds not backed by other assets, an other-than-temporary impairment ("OTTI") is considered to have occurred if it is probable that the Company will be unable to collect all amounts due according to the instrument's contractual terms in effect at the date of acquisition. A decline in fair value that is other-than-temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. If it is determined that a decline in the fair value of a bond is other-than-temporary, an impairment loss is recognized as a realized loss in the statements of income equal to the entire difference between the bond's carrying value and its fair value.

For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets, such as CMOs, mortgage-backed securities, bonds and asset-backed securities, other than high credit quality securities, whose decline in fair value is determined to be other-than-temporary, the cost basis of the security is written down to the fair value if the Company intends to sell the security or it is more likely than not that the Company will have to sell the security prior to recovery. For impaired fixed maturity securities that the Company does not intend to sell or it is more likely than not that the Company will not have to sell such securities, but the Company expects that it will not fully recover the amortized cost basis, the credit component of the OTTI is recognized in other-than-temporary losses in the income statements, and the non-credit component of the OTTI is recognized in other comprehensive income. Furthermore, unrealized losses entirely caused by non-credit factors related to fixed maturity securities for which the Company expects to fully recover the amortized cost basis continue to be recognized in accumulated other comprehensive income.

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally amounts aged ninety days and older are excluded from the balance sheets by a direct charge to capital and surplus. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management's judgment on the collectability of these accounts.

December 31, 2015

1. Nature of Operations and Significant Accounting Policies (continued)

Nonadmitted assets: Certain assets designated as nonadmitted, including furniture and equipment, receivables from affiliates, leasehold improvements, prepaid expenses, goodwill, intangibles, and certain health care and other receivable balances, are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$25,468 and \$17,261 at December 31, 2015 and 2014, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Surplus notes: Surplus notes are reported as capital and surplus, and surplus note interest expense is not recorded until approved by the Florida OIR. For GAAP, surplus notes are reported as long-term debt, and surplus note interest expense is accrued as incurred.

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital (“RBC”) thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing (“EDP”) equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of income.

Statements of cash flow: Cash, cash equivalents and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities.

Reinsurance: Any reinsurance balance amounts deemed to be uncollectible have been written off through a charge to operations. In addition, a liability for reinsurance balances has been provided for unsecured policy reserves ceded to reinsurers not authorized to assume such business. Changes to the liability are credited or charged directly to unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

The effects of the foregoing variances from GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

1. Nature of Operations and Significant Accounting Policies (continued)

Other significant accounting policies are as follows:

Use of Estimates

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Bonds not backed by loans are stated at amortized cost, with amortization of premium or discount calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions for loan-backed securities and structured securities are obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade bonds are stated at the lower of cost or fair value as determined by the NAIC's Securities Valuation Office ("SVO").

Short-term investments include investments with maturities of less than one year and more than three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.

Electronic Data Processing Equipment and Software

EDP equipment and software are recorded at cost less accumulated depreciation. Depreciation on EDP equipment and operating software is computed principally by the straight-line method over the lesser of the estimated useful lives of the assets or three years. Non-operating software is depreciated using the straight-line method over the lesser of its useful life or five years. Accumulated depreciation at December 31, 2015 and 2014 was \$2,564 and \$1,561, respectively. Depreciation expense in 2015 and 2014 was \$995 and \$847, respectively.

Furniture and Equipment

Furniture and equipment is capitalized and depreciated on a straight-line basis over its useful life. The net book value is charged in full to unassigned surplus as a nonadmitted asset. Depreciation expense in 2015 and 2014 was \$1,023 and \$980, respectively.

Health Care Receivables

Health care receivables represent amounts related to pharmacy rebate receivables and other health care related receivables other than premiums. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of

Simply Healthcare Plans, Inc.

Notes to Financial Statements – Statutory Basis

(Dollars In Thousands)

December 31, 2015

1. Nature of Operations and Significant Accounting Policies (continued)

or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

Medicare Advantage Part D Premiums and Expenses

The Company serves as a plan sponsor, offering Medicare Advantage Part D prescription drug insurance coverage under a contract with the Centers for Medicare & Medicaid Services (“CMS”). The CMS premium, the member premium, and the low-income premium subsidy represent payments for the Company’s insurance risk coverage under the Medicare Advantage Part D program and therefore are recorded as premium revenues in operations. Premium revenues are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. Pharmacy benefit costs and administrative costs under the contract are expensed as incurred.

Subsidies from CMS representing cost reimbursements under the Medicare Part D program are not reflected as premium revenues, but rather are accounted for as deposits, with the related liabilities reported in the balance sheets with other liabilities.

Reinsurance

Reinsurance premiums, claims and claims adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Retrospectively Rated Contracts

The Company’s contracts with CMS and the State Medicaid Agency include a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to

Simply Healthcare Plans, Inc.

December 31, 2015

1. Nature of Operations and Significant Accounting Policies (continued)

change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results. The Company records accrued retrospective premium as an adjustment to earned premium.

The amount of net premiums written by the Company in 2015 and 2014 that was subject to retrospective rating features, including MLR rebates regulations, was \$987,385 and \$449,461, which represented 100% and 53.8%, respectively, of the total net premiums written.

Federal Income Taxes

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income taxes is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

Patient Protection and Affordable Care Act

In 2010, the U.S. Congress passed and the President signed into law ACA. ACA has created significant changes and will continue to create significant changes for health insurance markets. Certain requirements include changes to Medicare Advantage payments and the minimum MLR provision that requires insurers to pay rebates to customers when insurers do not meet or exceed the specified MLR thresholds. Most of the provisions of ACA with more significant effects on the health insurance marketplace, both state and federal, went into effect on January 1, 2014, including a requirement that insurers guarantee the issuance of coverage to all individuals regardless of health status, strict rules on how health insurance is rated, the assessment of new taxes and fees (including annual fees on health insurance companies), the creation of new insurance exchanges for individuals and small groups, the availability of premium subsidies for certain individual products, and substantial expansions in eligibility for Medicaid.

Implementation of ACA brings with it significant oversight responsibilities by health insurers that may result in increased governmental audits, increased assertions of *False Claims Act* violations, and an increased risk of other litigation.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is non-deductible for income tax purposes. The health insurer fee paid in 2015 is included in 2015 operating expenses. The estimated health insurer fee payable in 2016 is segregated in special surplus funds at December 31, 2015. For statutory accounting purposes, the entire fee expected to be paid during the year is recorded as a general and administrative expense on January 1st, as the first policy is underwritten for the calendar year.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

	<u>\$ 64,560</u>	<u>\$ 65,671</u>

Proceeds from sales of bonds during 2015 and 2014 were \$19,780 and \$1,862, respectively, resulting in realized gross gains of \$59 and \$11, respectively, and realized gross losses of \$51 in 2015.

Cash of \$300 and \$300 were on deposit with the Florida OIR at December 31, 2015 and 2014, respectively.

A significant judgment in the valuation of investments is the determination of when an other-than-temporary decline in value has occurred. The Company follows a consistent and systematic process for impairing securities that sustain other-than-temporary declines in value. The Company has established a committee responsible for the impairment review process. The decision to impair a security incorporates both quantitative criteria and qualitative information. The impairment review process considers a number of factors, including but not limited to (a) the length of time and the extent to which a security's fair value has been less than statement value; (b) the financial condition and near term prospects of the issuer; (c) the intent to sell and, for loan-backed and structured securities, the intent and ability of the Company to retain its investment for a period of time to allow for any anticipated recovery in value; (d) whether the debtor is current on interest and principal payments; and (e) general market conditions and industry or sector specific factors. For securities that are deemed to be other-than-temporarily impaired, the security is adjusted to its fair value (or its discounted cash flows for loan-backed and structured securities), and the resulting losses are recognized in net realized gains or losses in the statutory basis statements of income. The new cost basis of the impaired securities is not increased for future recoveries in fair value. The Company recorded no charges OTTI of securities for the years ended December 31, 2015 and 2014.

2. Investments (continued)

A summary of unaffiliated investments with unrealized losses along with the related fair value, aggregated by the length of time that investments have been in a continuous unrealized loss position, is as follows:

	December 31, 2015			December 31, 2014		
	Number of Securities	Fair Value	Gross Unrealized Loss	Number of Securities	Fair Value	Gross Unrealized Loss
Bonds:						
Less than 12 months	11	\$ 8,061	\$ (29)	8	\$ 6,372	\$ (14)
12 months or greater	—	—	—	—	—	—
Total bonds	11	\$ 8,061	(29)	8	\$ 6,372	(14)

The Company's bond portfolio is sensitive to interest rate fluctuations, which impact the fair value of individual securities. Unrealized losses on bonds reported above were primarily caused by the effects of the interest rate environment and the widening of credit spreads on certain securities. Unrealized losses on stocks result from normal market fluctuations and are considered temporary. The Company currently has the ability and intent to hold these securities until their full cost can be recovered. Therefore, the Company does not believe the unrealized losses represent an OTTI as of December 31, 2015 or 2014.

3. Fair Value

Assets and liabilities recorded at fair value in the statutory basis balance sheets would be categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

<u>Level Input</u>	<u>Input Definition</u>
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

At December 31, 2015 and 2014, the Company did not have any assets or liabilities measured at fair value.

3. Fair Value (continued)

The following table summarizes the fair value of financial instruments by type as of December 31, 2015 and 2014, respectively:

December 31, 2015						
Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level I)	(Level II)	(Level III)	Not Practicable (Carrying Value)
Bonds	\$ 65,671	\$ 64,560	\$ –	\$ 65,671	\$ –	\$ –
Short-term investments	427	426	194	233	–	–

December 31, 2014						
Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level I)	(Level II)	(Level III)	Not Practicable (Carrying Value)
Bonds	\$ 15,424	\$ 15,437	\$ 3,500	\$ 11,924		
Short-term investments	48,546	48,552		48,546		

4. Unpaid Claims and Claims Adjustment Expenses

The following table provides a reconciliation of the beginning and ending balances for unpaid claims and claims adjustment expenses:

	2015	2014
Balances at January 1	\$ 109,589	\$ 53,924
Incurred (redundancies) related to:		
Current year	857,116	742,064
Prior years	1,514	4,291
Total incurred	858,630	746,355
Paid related to:		
Current year	755,459	633,193
Prior years	109,427	57,497
Total paid	864,886	690,690
Balances at December 31	\$ 103,333	\$ 109,589

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

4. Unpaid Claims and Claims Adjustment Expenses (continued)

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

5. Reinsurance

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements limit the Company's exposure to losses within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations. Effective January 1, 2014 the reinsurance activity includes the transitional reinsurance program required by ACA and disclosed in Note 8.

The effects of reinsurance on net premium considerations are as follows:

	Year ended December 31	
	2015	2014
Direct premiums	\$ 987,385	\$ 835,894
Ceded premiums - non-affiliates	(1,180)	(1,287)
Net premiums	<u>\$ 986,205</u>	<u>\$ 834,607</u>

The Company's ceded reinsurance arrangements reduced certain other items in the accompanying financial statements as follows:

	Year ended December 31	
	2015	2014
Direct claims and claim adjustment expense	\$ 858,952	\$ 747,016
Ceded claims and claim adjustment expense	(322)	(661)
Net claims and claim adjustment expense	<u>\$ 858,630</u>	<u>\$ 746,355</u>

6. Federal Income Taxes

The Company had a federal income tax payable of \$4,559 and \$5,256 at December 31, 2015 and December 31, 2014, respectively.

The components of net deferred tax assets (liabilities) at December 31 are as follows:

	Ordinary	2015 Capital	Total
Gross deferred tax assets	\$ 7,877	\$ –	\$ 7,877
Gross deferred tax liabilities	(500)	(2)	(502)

6. Federal Income Taxes (continued)

The Company's income tax expense and change in deferred taxes differs from the amount obtained by applying the federal statutory rate of 35% for the year ended December 31 for the following reasons:

	2015	2014
Tax expense computed using federal statutory rate	\$ 14,740	\$ 7,923

Total statutory income taxes	<u>\$ 20,255</u>	<u>\$ 9,641</u>

At December 31, 2015, the Company has no operating loss carryforwards or tax credit carryforwards.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses:

	Ordinary	Capital	Total
2015	\$ 19,395	\$ 20	\$ 19,415
2014	11,931	—	11,931

The Company is a member of the IRS Compliance Assurance Program ("CAP"). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2015, the examination of the 2015 tax year continues to be in process.

7. Health Insurer Fee

The Company has \$908,205 and \$834,608 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015 and 2014, respectively. The Company's estimated portion of the annual health insurance industry fee to be paid by September 30, 2016 is \$20,014 as segregated in special surplus funds on the balance sheet. The Company's portion of the annual health insurance industry fee paid during 2015 was \$18,706 and is included in operating expenses. Total Adjusted Capital ("TAC") and Authorized Control Level ("ACL") were \$46,117 and \$35,244, respectively, as of December 31, 2015. Had the assessment, based upon 2015 premiums written, been accrued on December 31, 2015, TAC would have been reduced to \$26,103, which would continue to exceed all capital and surplus requirements as described in Note 8.

8. Capital and Surplus

The State of Florida requires Company to maintain a minimum statutory capital and surplus as set forth in the State. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. The Florida OIR has not adopted the Risk-Based Capital (RBC) requirement of the NAIC. At December 31, 2015 and 2014, the Company's capital and surplus exceeded all regulatory requirements.

Per the *Florida Statue 641.365*, certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of

any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company's accumulated surplus as of December 31st of the preceding year or 2) the Company's net income from the immediately preceding calendar year.

Within the limitation above, the Company may not pay dividends during 2016 without prior approval.

There was no portion of unassigned surplus representing cumulative unrealized gains as of December 31, 2015 and 2014, respectively.

9. Leases

The Company leases office space and EDP equipment and other miscellaneous items under various non-cancelable operating leases. Related lease expense for 2015 and 2014 was \$6,133 and \$6,060, respectively.

At December 31, 2015, future lease payments for operating leases with initial or remaining noncancelable terms of one year or more consisted of the following: 2016, \$1,818; 2017, \$2,475; 2018, \$2,335; 2019, \$2,406; and thereafter, \$2,478.

10. Commitments and Contingencies

Commitments:

During March 2012, the Company entered into a service agreement with a related party through common ownership, whereby a celebrity will provide certain marketing and communications services with respect to the Company's managed care services. As part of the agreement, the celebrity will be required to make public appearances on behalf of the Company. The agreement is for a term of five years, expiring in March 2017, and requires escalating monthly installments throughout the term. The Company is also required to reimburse the celebrity's reasonable out of pocket expenses including travel and meal expenses. The Company is entitled to terminate the agreement, with a thirty day written notice, under certain conditions defined in the agreement.

At December 31, 2015, future minimum payments under the service agreement consisted of the following: 2016, \$3,500; and 2017, \$802.

Other Contingencies:

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify

solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2015 and 2014, the Company reported admitted assets of \$17,835 and \$24,977 respectively in premium receivables due from policyholders and agents and receivables due from uninsured plans. Based upon Company experience, any uncollectible receivables are not expected to exceed zero that was nonadmitted at December 31, 2015; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

11. Health Care Receivable

Admitted health care receivables consist of pharmacy rebate receivables of \$1,266 and \$1,456, claims overpayments of \$1,312 and \$1,971, and other receivables of \$51 and \$3,031 at December 31, 2015 and 2014, respectively.

Pharmaceutical rebate receivables at December 31, 2015 and 2014 consist of reasonably estimated and billed amounts. Amounts not collected within 90 days of the invoice or confirmation date are nonadmitted. Pharmaceutical rebate receivables of \$1,174 and \$3,955 were nonadmitted as of December 31, 2015 and 2014, respectively.

The following table summarizes information about the Company's pharmaceutical rebate receivables:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received Within 90 Days of Billing	Actual Rebates Received Within 91 to 180 Days of Billing	Actual Rebates Received More Than 180 Days After Billing

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$2,206 and \$1,794 were nonadmitted as of December 31, 2015 and 2014, respectively.

Provider receivables of \$988 and zero and other receivables of \$6 and \$12 at December 31, 2015 and 2014, respectively, were also nonadmitted.

12. Related Party Transactions

The Company entered into a Management Service Agreement with Better Health, Inc. ("Better Health"), a related party through common ownership, in which the Company provides services to administer a significant portion of Better Health's benefits and business support services. In addition, the Company is entitled to receive reimbursements for reasonable expenses incurred in furtherance of operating Better Health in so much as these expenses exceed the amount of the management fee. For the years ended December 31, 2015 and 2014, \$26,160 and \$36,493 was received in relation to this agreement and has been recorded as an offset to general administrative expenses on the Company's accompanying statutory statements of income.

13. Related Party Transactions (continue)

For the years ended December 31, 2015 and 2014, approximately \$167 and \$1,600, respectively, was paid to a related party for management fees and reimbursable expenses. There is no formal agreement between the parties and as a result, the reimbursement amounts are based on expenses paid by the related party, which are approved by the Company's executives.

At December 31, 2015 and 2014, the Company reported \$2,975 and \$64 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

14. Surplus Notes and Letter of Credit

The Company entered into various promissory surplus notes in 2013 with Simply Holdings totaling \$20,560. The surplus notes bear interest at annual rates of 8%. Management determines what portion of principal of each note shall be repaid within ninety days after the end of each calendar year. The repayment of principal and any interest accrued is subordinated to the prior payment in full of all other liabilities of the Company. The repayment must also be approved by the Florida OIR and not cause the Company to fall below the minimum surplus requirements. Management does not anticipate any repayments during 2016.

During 2015 and 2014, the Company did not seek nor did the Florida OIR approve any interest payments. As of December 31, 2015 and 2014, the "unapproved" cumulative interest relating to the surplus notes is approximately \$7,774 and \$6,130, respectively.

At December 31, 2014, the Company had an outstanding letter of credit of \$99,529 that matured December 31, 2015 and was collateralized by certain assets of the Parent.

16. Subsequent Events

The annual health insurer fee under section 9010 of the ACA, discussed in Note 1, has been suspended for 2017 and will resume for 2018 and beyond.

Management of the Company has evaluated all other events occurring after December 31, 2015 through April 07, 2016, the date the financial statements were available to be issued, to determine whether any event required either recognition or disclosure in the financial statements. It was determined there were no other events that require recognition or disclosure in the financial statements through the report date.

Report of Independent Auditors

Board of Directors
Better Health, Inc.

We have audited the accompanying statutory-basis financial statements of Better Health, Inc., which comprise the balance sheets as of December 31, 2016 and 2015, and the related statements of operations, changes in capital and surplus and cash flow for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Florida, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory-basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of Better Health, Inc. at December 31, 2016 and 2015, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of Better Health, Inc. at December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

December 31, 2016

1. Nature of Operations and Significant Accounting Policies

Better Health, Inc. (the “Company”) was originally formed in 2006 as Better Health, LLC. (a Limited Liability Company) and organized as a Provider Services Network (“PSN”) to provide health insurance coverage for Florida’s Medicaid recipients. Effective February 26, 2014, the Company filed a Certificate of Conversion to change its corporate structure from a Limited Liability Company to C Corporation and is currently operating as Better Health, Inc. The company also converted from a PSN and became a licensed HMO in the state of Florida effective February 1, 2015. The Company operates as a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid program. The Company’s current service areas include Broward, Hardee, Highlands, Hillsborough, Manatee and Polk counties of Florida. The Company manages healthcare services for Medicaid members under a contract with the Florida Agency for Healthcare Administration (“AHCA”). The loss of this contract would have a material effect on the Company’s operations. The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc. (“Simply Holdings”). On December 19, 2014, Simply Holdings entered into an Agreement and Plan Merger with a subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court’s ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna’s allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem’s motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. Specifically, all parent and affiliate intercompany receivable balances are considered nonadmitted assets. In addition, pursuant to Section 641.35(3)(a), Florida Statutes, if an HMO, through a health risk contract, transfers to any entity the obligation to pay providers for subscriber claims, the liability for any such payment remains with the HMO until the payment is received by the provider and should be reflected in claim reserves. The Company employed no permitted practices in preparing the accompanying statutory basis financial statements.

A reconciliation of the Company's statutory capital and surplus as of December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of Statement of Statutory Accounting Principles ("SSAP") are shown below:

Statutory capital and surplus, NAIC SAP basis		<u>\$ 31,270</u>	<u>\$ 15,715</u>

A reconciliation of the Company's net income (loss) for the years ended December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of Statement of Statutory Accounting Principles ("SSAP") are shown below:

	<u>SSAP No.</u>	<u>2016</u>	<u>2015</u>
Statutory net income (loss), Florida OIR basis		\$ 13,125	\$ (305)

Statutory net income (loss), NAIC SAP basis		<u>\$ 13,168</u>	<u>\$ 2</u>

Such practices vary from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally amounts aged ninety days and older are non admitted assets, with the exception of government receivables. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management's judgment on the collectability of these accounts.

Nonadmitted assets: Certain assets designated as nonadmitted, including deferred federal income taxes in excess of certain statutory limits, investments in unaudited subsidiaries, furniture and equipment, non-operating software, leasehold improvements, prepaid expenses, intangible assets other than goodwill, certain health care and other receivable balances, and certain premium receivable balances are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$309 and \$706 at December 31, 2016 and 2015, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Surplus notes: Surplus notes are reported as capital and surplus, surplus note interest expense is not recorded until approved by the Florida OIR and related accrued interest is reported as borrowed money. For GAAP, surplus notes are reported as long-term debt, and surplus note interest expense is accrued as incurred.

Better Health, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital (“RBC”) thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing (“EDP”) equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of operations.

Statements of cash flow: Cash, cash equivalents and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash and cash equivalents include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities and short term investments.

Uninsured accident and health plans: The Company provides administrative services to AHCA on an uninsured basis. Under this arrangement, the customer retains the risk of funding payments for health benefits provided, and the Company may be subject to credit risk of the customer from the time the Company’s claim payment until the Company receives the claim reimbursement. In accordance with the Statement of Statutory Accounting Principles (“SSAP”) No. 47, *Uninsured Plans*, these claim payments and subsequent reimbursements are excluded from the Company’s statutory basis statements of income, and administrative fees earned are deducted from operating expenses. For GAAP these administrative fees are reported as revenue in the statements of operations.

Reinsurance: Any reinsurance balance amounts deemed to be uncollectible have been written off through a charge to operations. In addition, a liability for reinsurance balances has been provided for unsecured policy reserves ceded to reinsurers not authorized to assume such business. Changes to the liability are credited or charged directly to unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

The effects of the foregoing variances for GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

Other significant accounting policies are as follows:

Use of Estimates

Preparation of statutory basis financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Better Health, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Health Care Receivables

Health care receivables represent amounts related to claim overpayments and other health care related receivables other than premiums. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

Risk Share and Other Reserves

The Company contracts with physicians or provider groups to provide medical services to the Company's members. The Company pays capitation or negotiated fees for defined services provided by the physicians. Under the terms of these agreements, certain providers are eligible to receive provider incentives based on qualitative and quantitative factors. Estimated risk-sharing settlements are continually reviewed, and necessary adjustments are included in current operations. Claim and claim adjustment expenses include all amounts incurred by the Company under these arrangements.

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

The State of Florida, AHCA, informed the Company on June 7, 2016 of a pricing error related to the State Fiscal Year 2015-2016 contract. AHCA indicated it underpaid the Company due to a mismatch of rates. Related to this, the Company received and recognized cash and premiums of \$3,686 from AHCA during 2016 related to 2015.

Reinsurance

Reinsurance premiums, claims and claims adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Better Health, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Retrospectively Rated Contracts

The Company's contract with AHCA includes a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results.

Federal Income Tax

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income tax is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany tax balances are settled based on the Internal Revenue Service due dates.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is non-deductible for income tax purposes. The health insurer fee is reported in operating expenses in the same year it is paid. The health insurer fee to be paid in the following year is segregated in special surplus funds until the beginning of the year in which it is to be paid. Payment of the health insurer fee has been suspended for 2017 and will resume for 2018 and beyond.

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. Unpaid Claims and Claims Adjustment Expenses

The following table provides a reconciliation of the beginning and ending balances for unpaid claims and claims adjustment expenses:

	<u>2016</u>	<u>2015</u>
Balances at January 1, net of reinsurance	\$ 34,877	\$ 27,325
Incurred (redundancies) related to:		
Current year	282,390	245,853
Prior years	<u>(5,739)</u>	<u>(1,363)</u>
Total incurred	276,651	244,490
Paid related to:		
Current year	246,097	214,305
Prior years	<u>28,195</u>	<u>22,633</u>
Total paid	274,292	236,938
Balances at December 31, gross of reinsurance	<u>\$ 37,236</u>	<u>\$ 34,877</u>

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The

Better Health, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

3. Retrospectively Rated Contracts and Contracts Subject to Redetermination

The amount of net premiums written by the Company in 2016 and 2015 that was subject to retrospective rating features, including MLR rebate regulations, was \$322,105 and \$267,831, which represented 100% and 100%, respectively, of the total net premiums written.

4. Reinsurance

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements limit the Company's exposure to losses within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

The effects of reinsurance on net premium considerations are as follows:

	Year ended December 31	
	2016	2015
Direct premiums	\$ 319,585	\$ 267,831
Ceded premiums	(415)	(711)
Net premiums	<u>\$ 319,170</u>	<u>\$ 267,120</u>

The Company's ceded reinsurance arrangements reduced certain other items in the accompanying financial statements as follows:

	2016	2015
Direct claims and claim adjustment expense	\$ 278,140	\$ 244,593
Ceded claims and claim adjustment expense	(1,489)	(103)
Net claims and claim adjustment expense	<u>\$ 276,651</u>	<u>\$ 244,490</u>

5. Federal Income Taxes

The Company had a federal income tax recoverable of \$558 and \$2,024 as of December 31, 2016 and 2015, respectively.

The components of net deferred tax assets (liabilities) at December 31 are as follows:

	Ordinary	2016 Capital	Total

The Company is included in the consolidated federal income tax return of their parent Anthem, Inc., along with other affiliates, as of December 31, 2016. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

The Company is a member of the IRS Compliance Assurance Program (“CAP”). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2016, the examination of the 2016 tax year continues to be in process.

6. Health Insurer Fee

The Company had \$267,831 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015 and no premiums written subject to assessment under ACA Section 9010 as of December 31, 2016 due to the 2017 suspension of this assessment. Because no health insurer fee is to be paid in 2017, no funds have been segregated in special surplus funds for the health insurer fee at December 31, 2016. The Company’s portion of the annual health industry fee paid during 2016 was \$5,289 and is included in the operating expenses.

7. Capital and Surplus

The Florida OIR requires the Company to maintain a minimum statutory capital and surplus as set forth in the state statutes. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. In addition, a consent order filed with the Florida OIR, requires the Company to maintain surplus at 125% of the minimum statute requirement. The Florida OIR has not adopted the Risk-Based Capital (RBC) requirement of the NAIC. At December 31, 2016 and 2015, the Company’s capital and surplus exceeded all regulatory requirements.

Per the Florida Statute 641.365, certain limitations exist on the Company’s ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company’s accumulated surplus as of December 31st of the preceding year or 2) the Company’s net income from the immediately preceding calendar year. Within these limitations, the Company may pay \$13,125 in dividends during 2016 without prior approval.

There was no portion of unassigned surplus representing cumulative unrealized gains (losses) as of December 31, 2016 and 2015, respectively.

8. Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem’s information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Better Health, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has continued to implement security enhancements since this incident. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. Federal and state agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. The NAIC's multistate targeted market conduct and financial exam was concluded in December 2016. As part of the resolution, the NAIC asked and Anthem has agreed to provide a customized credit protection program functionally equivalent to a credit freeze for minors who were under the age of 18 on January 27, 2015. No fines or penalties were issued. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and on its results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its case management order in September 2015. Anthem filed a motion to dismiss ten of the counts that are before the U.S. District Court. In February 2016, the court issued an order granting in part and denying in part our motion, dismissing three counts with prejudice, four counts without prejudice and allowing three counts to proceed. Plaintiffs filed a second amended complaint in March 2016, and Anthem subsequently filed a second motion to dismiss. In May 2016, the court issued an order granting in part and denying in part our motion, dismissing one count with prejudice, dismissing certain counts asserted by specific named plaintiffs with or without prejudice depending on their individualized facts, and allowing the remaining counts to proceed. In July 2016, plaintiffs filed a third amended complaint, which Anthem answered in August 2016. Fact discovery was completed in December 2016. There remain two state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits and reviews and administrative proceedings include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on The Company's business operations. The Company believes that any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$3,168, and \$4,017, respectively, in premiums receivable and amounts receivable from uninsured plans. The receivables are not deemed to be uncollectible; therefore, no provisions for uncollectable amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

9. Retirement Benefits

During 2015, the Company participated in a defined contribution plan created prior to the February 17, 2015 acquisition of Better Healthcare by Anthem. No Company-matched amounts were contributed to the plan. Beginning on January 1, 2016, that defined contribution plan merged into the Anthem 401(k) Retirement Savings Plan, a defined contribution plan sponsored by ATH Holding Company, LLC (“ATH Holding”) and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. The Company has no legal obligation for benefits under this plan. During 2016, the Company was allocated \$307 for the defined contribution plan.

11. Health Care Receivable

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$209 and \$543 were nonadmitted as of December 31, 2016 and 2015, respectively.

12. Related Party Transactions

Effective January 1, 2016, the Company has entered into an administrative services agreement with Anthem and its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, benefits, communications, advertising, consulting services, rent, utilities, accounting, underwriting, and product development, which support the operations of the Company. These costs are allocated based on various utilization statistics. Net payments to affiliated companies pursuant to the 2016 administrative service agreements were \$33,708, and are included in operating expenses and claims adjustment expenses in the statutory basis statements of income.

Prior to 2016, the Company entered into a Management Service Agreement with Simply Healthcare Plans, Inc. (“Simply”), a related party through common ownership, in which the Company provides services to administer a significant portion of the Company’s benefits and business support services. In addition, the Company is required to pay reimbursements for reasonable expenses incurred in furtherance of operating the Company in so much as these expenses exceed the amount of the management fee. For the year ended December 31, 2015, \$26,160 was paid in relation to this agreement and are included in operating expenses and claims adjustment expenses in the statutory basis statements of operations.

At December 31, 2016 and 2015, the Company reported \$5 and \$132 due from affiliates, which were nonadmitted per Florida OIR prescribed accounting practices. At December 31, 2016 and 2015, the Company reported \$909 and \$56 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

Report of Independent Auditors

Board of Directors
Better Health, Inc.

We have audited the accompanying statutory basis financial statements of Better Health, Inc., which comprise the balance sheet as of December 31, 2015, and the related statements of income, changes in capital and surplus, and cash flow for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Florida, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of Better Health, Inc. at December 31, 2015, or the results of its operations or its cash flows for the year then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of Better Health, Inc. at December 31, 2015, and the results of its operations and its cash flows for the year then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

Report of Other Auditors on 2014 Financial Statements

The statutory basis financial statements of Better Health, Inc. for the year ended December 31, 2014 were audited by other auditors who expressed an adverse opinion with respect to conformity with U.S. generally accepted accounting principles and an unmodified opinion with respect to conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation in their report dated March 31, 2015, except for the restatement section in Note 1 as to which the date is March 31, 2016. Their report dated March 31, 2015, except for the restatement section in Note 1 as to which the date is March 31, 2016, contained emphasis of a matter paragraphs describing the subsequent acquisition of Simply Healthcare Holdings, Inc. (parent company of Better Health, Inc.) by Anthem, Inc. on February 17, 2015, the conversion of its status from an administrative provider to a Health Maintenance Organization in July 2014, and the restatement of the 2014 financial statements.

December 31, 2015

1. Nature of Operations and Significant Accounting Policies

Better Health, Inc. (the “Company”) was originally formed in 2006 as Better Health, LLC. (a Limited Liability Company) and organized as a Provider Services Network (“PSN”) to provide health insurance coverage for Florida’s Medicaid recipients. Effective February 26, 2014, the Company filed a Certificate of Conversion to change its corporate structure from a Limited Liability Company to C Corporation and is currently operating as Better Health, Inc. The company also converted from a PSN and became a licensed HMO in the state of Florida effective February 1, 2015. The Company operates as a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid program. The Company’s current service areas include Broward, Hardee, Highlands, Hillsborough, Manatee and Polk counties of Florida. As of December 31, 2015, the Company served 95,517 members. The Company manages healthcare services for Medicaid members under a contract with the Florida Agency for Healthcare Administration (“AHCA”). The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc. (“Simply Holdings”). On December 19, 2014, Simply Holdings entered into an Agreement and Plan of Merger with a subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015. The shareholders of Anthem approved a proposal to amend its articles of incorporation to change the name to Anthem, Inc. from WellPoint, Inc. The name change was effective December 2, 2014.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna. The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna’s stockholders.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. The Company employed no permitted practices in preparing the accompanying statutory basis financial statements.

1. Nature of Operations and Significant Accounting Policies (continued)

A reconciliation of the Company's statutory capital and surplus as of December 31, 2015 and 2014 between practices prescribed by the Florida OIR and NAIC SAP is shown below:

	<u>2015</u>	<u>2014</u>
Statutory capital and surplus, Florida OIR basis	\$ 15,276	\$ 15,993
State prescribed practices:		
Nonadmittance of amounts due from affiliates pursuant to 641.35 (2)(i) of the FL Revised Statutes	<u>132</u>	<u>64</u>
Statutory capital and surplus, NAIC SAP basis	<u>\$ 15,408</u>	<u>\$ 16,057</u>

For the years ended December 31, 2015 and 2014 there are no differences between the Company's net income under NAIC SAP and practices prescribed by the Florida OIR.

NAIC SAP varies from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally non-government receivable amounts aged ninety days and older are excluded from the balance sheets by a direct charge to capital and surplus. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management's judgment on the collectability of these accounts.

Nonadmitted assets: Certain assets designated as nonadmitted, receivables from affiliates, certain health care and other receivable balances, are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$706 and \$294 at December 31, 2015 and 2014, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital ("RBC") thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing ("EDP") equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in

Better Health, Inc.

future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of income.

Statements of cash flow: Cash and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities.

Reinsurance: Any reinsurance balance amounts deemed to be uncollectible have been written off through a charge to operations. In addition, a liability for reinsurance balances has been provided for unsecured policy reserves ceded to reinsurers not authorized to assume such business. Changes to the liability are credited or charged directly to unassigned surplus. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings. Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

The effects of the foregoing variances from GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

Other significant accounting policies are as follows:

Use of Estimates

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Health Care Receivables

Health care receivables represent amounts related to claim overpayments and other health care related receivables other than premiums. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

The Company records a liability for future policy benefits relating to certain individual product contracts. The liability represents the present value of future benefits to be paid to or on behalf of policy holders and related

Better Health, Inc.

1. Nature of Operations and Significant Accounting Policies (continued)

expenses less the present value of future net premiums. Changes in the liability for future benefits are recognized in the accompanying statutory basis statements in the period in which the change occurs.

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

Under the MediPass contract, approximately twelve months after the end of each contract year, AHCA will compare the aggregated actual Medicaid payments for the Company's covered services to an aggregate comprised of the total sum of all Per Capita Capitation Benchmark's ("PCCB") for all enrollees as calculated by AHCA for the year. If the aggregate adjusted actual costs for the period are less than the aggregated PCCB, a savings pool results ("Savings Pool"). The Savings Pool will be compared to the administrative fee paid to the Company for the year. To the extent that the Savings Pool exceeds the amount remitted to the Company for the period, 100% of the excess will be due to the Company. However, if the Savings Pool is less than the fee paid to the Company for the year, the Company will be required to refund the difference, not to exceed more than 50% of the administrative fee received for the year. Management is provided with cost statistics on an ongoing basis. As a result of the Savings Pool, for the year ended December 31, 2015 and 2014, the Company recorded approximately \$2,379 and \$6,676, respectively, of additional revenues relating to the reconciliation with AHCA and is included in the caption net premiums earned on the accompanying statement of income. As of December 31, 2015 and 2014, approximately \$2,379 and \$12,207, respectively, is due from AHCA in relation to the Savings Pool.

Reinsurance

Reinsurance premiums, claims and claims adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Retrospectively Rated Contracts

The Company's contracts with the State Medicaid Agency include a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability

amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results. The Company records accrued retrospective premium as an adjustment to earned premium.

The amount of net premiums written by the Company in 2015 and 2014 that was subject to retrospective rating features was \$267,831 and \$159,153, which represented 100% of the total net premiums written.

Federal Income Taxes

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income taxes is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

Patient Protection and Affordable Care Act

In 2010, the U.S. Congress passed and the President signed into law ACA. ACA has created significant changes and will continue to create significant changes for health insurance markets. Certain requirements include changes to Medicare Advantage payments and the minimum MLR provision that requires insurers to pay rebates to customers when insurers do not meet or exceed the specified MLR thresholds. Most of the provisions of ACA with more significant effects on the health insurance marketplace, both state and federal, went into effect on January 1, 2014, including a requirement that insurers guarantee the issuance of coverage to all individuals regardless of health status, strict rules on how health insurance is rated, the assessment of new taxes and fees (including annual fees on health insurance companies), the creation of new insurance exchanges for individuals and small groups, the availability of premium subsidies for certain individual products, and substantial expansions in eligibility for Medicaid.

Implementation of ACA brings with it significant oversight responsibilities by health insurers that may result in increased governmental audits, increased assertions of *False Claims Act* violations, and an increased risk of other litigation.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is non-deductible for income tax purposes. The Company was not subject to the health insurer fee in 2014. The estimated health insurer fee payable in 2016 is segregated in special surplus funds at December 31, 2015. For statutory accounting purposes, the entire fee expected to be paid during the year is recorded as a general and administrative expense on January 1st, as the first policy is underwritten for the calendar year.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

2. Unpaid Claims and Claims Adjustment Expenses

The following table provides a reconciliation of the beginning and ending balances for unpaid claims and claims adjustment expenses:

	<u>2015</u>	<u>2014</u>
Balances at January 1	\$ 27,325	\$ 3,978
Incurred (redundancies) related to:		
Current year	245,853	131,194
Prior years	<u>(1,363)</u>	<u>411</u>
Total incurred	244,490	131,605
Paid related to:		
Current year	214,305	107,038
Prior years	<u>22,633</u>	<u>1,220</u>
Total paid	236,938	108,258
Balances at December 31	<u><u>\$ 34,877</u></u>	<u><u>\$ 27,325</u></u>

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

3. Reinsurance

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements limit the Company's exposure to losses within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

The effects of reinsurance on net premium considerations are as follows:

	<u>Year ended December 31</u>	
	<u>2015</u>	<u>2014</u>
Direct premiums	\$ 267,831	\$ 159,153
Ceded premiums - non-affiliates	<u>(711)</u>	<u>(325)</u>

4. Federal Income Taxes

The Company had a federal income tax recoverable of \$2,024 and \$750 at December 31, 2015 December 31, 2014, respectively.

Through February 25, 2014, the Company was a limited liability company and was treated as a partnership for federal income tax purposes. Accordingly, it would not incur income taxes or have any unrecognized tax benefits. Instead, its earnings and losses are included in the tax return of its members and taxed depending on the members' tax situation. As a result, the statutory financial statements do not reflect a provision for income taxes.

Upon conversion to a corporation on February 25, 2014, the Company's results of operations are included in the federal consolidated tax return of Simply Holdings. Income taxes are accounted for under the asset and liability method. Deferred income taxes are recognized, subject to statutory limitations, for temporary differences between the financial reporting basis and the income tax basis of assets and liabilities based on enacted tax laws and statutory tax rates applicable to the periods in which the temporary difference are expected to reverse. Gross deferred tax assets are first reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not that some portion of the gross deferred tax asset will not be realized.

The components of net deferred tax assets (liabilities) at December 31 are as follows:

	Ordinary	2015 Capital	Total
Gross deferred tax assets	\$ 3,202	\$ –	\$ 3,202
Statutory valuation allowance	2,908	–	2,908

4. Federal Income Taxes (continued)

The Company's income tax benefit and change in deferred taxes differs from the amount obtained by applying the federal statutory rate of 35% for the year ended December 31 for the following reasons:

	2015	2014
Tax expense computed using federal statutory rate	\$ (421)	\$ (2,908)
Change in nonadmitted assets	(247)	–
Valuation adjustment	(1,480)	4,389

Change in net deferred income taxes	–	–

At December 31, 2015, the Company had \$5,495 of unused net operating loss or tax credit carryforwards available to offset future taxable income. The losses or credits will begin to expire in 2034.

The Company is a member of the IRS Compliance Assurance Program (“CAP”). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2015, the examination of the 2015 tax year continues to be in process.

5. Health Insurer Fee

The Company has \$267,831 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015. The Company's estimated portion of the annual health insurance industry fee to be paid by September 30, 2016 is \$4,875 as segregated in special surplus funds on the balance sheet. The Company portion of annual health insurer fee paid in 2015 was \$2,562 and is included in operating expenses. Total Adjusted Capital (“TAC”) and Authorized Control Level (“ACL”) were \$15,276 and \$10,624, respectively, as of December 31, 2015. Had the assessment, based upon 2015 premiums written, been accrued on December 31, 2015, TAC would have been reduced to \$10,401, which would continue to exceed all capital and surplus requirements as described in Note 6.

6. Capital and Surplus

The State of Florida requires Company to maintain a minimum statutory capital and surplus as set forth in the State. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. The Florida OIR has not adopted the Risk-Based Capital (RBC) requirement of the NAIC. At December 31, 2015 and 2014, the Company's capital and surplus exceeded all regulatory requirements.

Per the Florida Statue 641.365, certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits

Better Health, Inc.

Notes to Financial Statements – Statutory Basis

(Dollars In Thousands)

6. Capital and Surplus (continued)

on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company's accumulated surplus as of December 31st of the preceding year or 2) the Company's net income from the immediately preceding calendar year. Within these limitations, the Company may not pay any dividends during 2016 without prior approval.

There was no portion of unassigned surplus representing cumulative unrealized gains as of December 31, 2015 and 2014, respectively.

7. Contingencies

Other Contingencies:

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June

7. Contingencies (continued)

2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

At December 31, 2015 and 2014, the Company reported admitted assets of \$4,017 and \$18,182 respectively in premium receivables due from the state Medicaid agency. The receivables are not deemed to be uncollectible, therefore, no provisions for uncollectable amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

8. Health Care Receivable

Admitted health care receivables consist of claims overpayments of \$835 and \$141 at December 31, 2015 and 2014, respectively.

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$424 and \$170 were nonadmitted as of December 31, 2015 and 2014, respectively.

Provider receivables of \$119 and \$49 were nonadmitted at December 31, 2015 and 2014, respectively.

9. Related Party Transactions

The Company has entered into administrative services agreements with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, benefits, communications, advertising, consulting services, rent, utilities, accounting, underwriting, and product development, which support the operations of the Company. These costs are allocated based on various utilization statistics.

Net payments to affiliated companies pursuant to the above administrative service agreements were \$26,160 and \$36,493 in 2015 and 2014, respectively, and are included in operating expenses and claims adjustment expenses in the statutory basis statements of operations.

9. Related Party Transactions (continued)

At December 31, 2015 and 2014, the Company reported \$56 and \$380 due to affiliates, respectively. The payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

The Company paid no dividends and received no capital contributions for the years ended December 31, 2015 and 2014 respectively.

10. Surplus Notes

During December of 2012, the Company entered into two promissory surplus notes with Simply Holdings totaling \$5,000. During February of 2013, the Company entered into an additional promissory surplus note with Simply Holdings totaling \$5,500. The surplus notes bear interest at annual rates of 8%. Management determines what portion of principal of each note shall be repaid within ninety days after the end of each calendar year. The repayment of principal and any interest accrued is subordinated to the prior payment in full of all other liabilities of the Company. The repayment must also be approved by the AHCA and not cause the Company to fall below the minimum surplus requirements. Management does not anticipate any repayments during 2016.

During 2015 and 2014, the Company did not seek nor did the AHCA approve any interest payments. As of December 31, 2015 and 2014, the “unapproved” cumulative interest relating to the surplus notes is approximately \$2,459 and \$1,619, respectively.

11. Restricted Assets

Cash with a statement value of \$300 was on deposit with the Florida OIR at December 31, 2015 and 2014. Cash with a statement value of \$10,243 and \$7,213 was on deposit with Florida AHCA at December 31, 2015 and 2014.

Increase in federal income tax benefit	62	-
Total net loss as reported in the accompanying statutory basis statements of operations	<u>\$ (305)</u>	<u>\$ (8,307)</u>

13. Subsequent Events

The annual health insurer fee under section 9010 of the ACA, discussed in Note 1, has been suspended for 2017 and will resume for 2018 and beyond.

Management of the Company has evaluated all other events occurring after December 31, 2015 through April 5, 2016, the date the financial statements were available to be issued, to determine whether any event required either recognition or disclosure in the financial statements. It was determined there were no other events that require recognition or disclosure in the financial statements through the report date.

Report of Independent Auditors

Board of Directors
AMERIGROUP Florida, Inc.

We have audited the accompanying statutory basis financial statements of AMERIGROUP Florida, Inc., which comprise the balance sheets as of December 31, 2016 and 2015, and the related statements of operations, changes in capital and surplus, and cash flow for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Florida, the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of AMERIGROUP Florida, Inc. at December 31, 2016 and 2015, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of AMERIGROUP Florida, Inc. at December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

Notes to Financial Statements – Statutory Basis

(Dollars In Thousands)

December 31, 2016

1. Nature of Operations and Significant Accounting Policies

AMERIGROUP Florida, Inc. (the “Company”) is a Florida domiciled stock health maintenance organization (“HMO”), which is licensed in Florida. The Company is a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid, Florida Healthy Kids (“FHK”), and Long-term Care Community Diversion (“LTC”) programs. The Company’s current service areas include the counties of Brevard, Broward, Hardee, Highlands, Hillsborough, Lake, Manatee, Miami-Dade, Monroe, Pasco, Palm Beach, Pinellas, Polk, Orange, Osceola, Sarasota, Seminole, and Volusia in Florida. The loss of the Medicaid contract with the Florida Agency for Health Care Administration (“AHCA”) would have a material effect on the company’s operations. Prior to 2016, the Company also managed healthcare services for members as a Medicare Advantage Plan, under a contract with the Centers for Medicare and Medicaid Services (“CMS”). The Company is a wholly owned subsidiary of Physicians Healthcare Plan Holding, Inc. (“PHP Holdings, Inc.”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court’s ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna’s allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem’s motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. Specifically, all parent and affiliate intercompany receivable balances are considered nonadmitted assets. In addition, pursuant to Section 641.35(3)(a), Florida Statutes, if an HMO, through a health risk contract, transfers to any entity the obligation to pay providers for subscriber claims, the liability for any such payment remains with the HMO until the payment is received by the provider and should be reflected in loss reserves.

A reconciliation of the Company's statutory capital and surplus as of December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of Statement of Statutory Accounting Principles ("SSAP") is shown below:

Statutory capital and surplus, NAIC SAP basis		<u>\$ 99,306</u>	<u>\$ 75,873</u>

A reconciliation of the Company's statutory net income (loss) as of December 31, 2016 and 2015 between practices prescribed by the Florida OIR and NAIC SAP along with reference of SSAP is shown below:

	<u>SSAP No.</u>	<u>2016</u>	<u>2015</u>

Such practices vary from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Investments: Investments in bonds and preferred stocks are reported at amortized cost or fair value based on their NAIC rating. For GAAP, such fixed maturity investments are designated at purchase as available-for-sale and are reported at fair value with unrealized holding gains and losses, net of tax, reported as a separate component of capital and surplus.

For statutory purposes, all single class and multi-class mortgage-backed/asset-backed securities, such as collateralized mortgage obligations ("CMOs"), where it is determined that a decline in fair value is other-than-temporary because the Company intends to sell the security or has assessed that it does not have the intent and ability to retain the investments in the security for a period of time sufficient to recover the amortized cost basis, the amortized cost basis is written down to fair value as a realized loss in the statements of operations. If deemed other-than-temporarily impaired as the Company does not expect to recover the amortized cost basis even if it did not intend to sell the security and the Company has the intent and ability to hold the security, the amortized cost basis is written down to the present value of future cash flows as a realized loss in the statements of operations. For impaired bonds not backed by other assets, an other-than temporary impairment ("OTTI") is considered to have occurred if it is probable that the Company will be unable to collect all amounts due according to the instrument's contractual terms in effect at the date of acquisition. A decline in fair value that is other-than-temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. If it is determined that a decline in the fair value of a bond is other-than-temporary, an impairment loss is recognized as a realized loss in the statements of operations equal to the entire difference between the bond's carrying value and its fair value.

AMERIGROUP Florida, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets, such as CMOs, mortgage-backed securities, bonds and asset-backed securities, other than high credit quality securities, whose decline in fair value is determined to be other-than-temporary, the cost basis of the security is written down to the fair value if the Company intends to sell the security or it is more likely than not that the Company will have to sell the security prior to recovery. For impaired fixed maturity securities that the Company does not intend to sell or it is more likely than not that the Company will not have to sell such securities, but the Company expects that it will not fully recover the amortized cost basis, the credit component of the OTTI is recognized in other-than-temporary losses in the income statements, and the non-credit component of the OTTI is recognized in other comprehensive income. Furthermore, unrealized losses entirely caused by non-credit factors related to fixed maturity securities for which the Company expects to fully recover the amortized cost basis continue to be recognized in accumulated other comprehensive income.

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally amounts aged ninety days and older are nonadmitted assets, with the exception of government receivables. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management's judgment on the collectability of these accounts.

Nonadmitted assets: Certain assets designated as nonadmitted, including furniture and equipment, receivables from affiliates, leasehold improvements, prepaid expenses, goodwill, intangibles, and certain health care and other receivable balances, are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$18,311 and \$20,928 at December 31, 2016 and 2015, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital ("RBC") thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing ("EDP") equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of operations.

AMERIGROUP Florida, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

Statements of cash flow: Cash, cash equivalents and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash and cash equivalents include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities and short term investments.

Uninsured accident and health plans: The Company provides administrative services to AHCA on an uninsured basis. Under these arrangements, the customer retains the risk of funding payments for health benefits provided, and the Company may be subject to credit risk of the customer from the time of the Company's claim payment until the Company receives the claim reimbursement. In accordance with SSAP No. 47, Uninsured Plans, these claim payments and subsequent reimbursements are excluded from the Company's statutory basis statements of income, and administrative fees earned are deducted from general insurance expenses. For GAAP, these administrative fees are reported as revenue in the statements of income.

The effects of the foregoing variances from GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

Other significant accounting policies are as follows:

Use of Estimates

Preparation of statutory basis financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Bonds not backed by loans are stated at amortized cost, with amortization of premium or discount calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions for loan-backed securities and structured securities are obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade bonds are stated at the lower of cost or fair value as determined by the NAIC's Securities Valuation Office ("SVO"). Common stocks of unaffiliated companies are stated at fair value as determined by various third-party pricing sources.

The Company participates in a securities lending program whereby marketable securities in its investment portfolio are transferred to independent brokers or dealers based on, among other things, their creditworthiness in exchange for collateral initially equal to at least 102% of the fair value of the securities on loan, and is thereafter maintained at a minimum of 100% of the fair value of the securities loaned. The fair value of the securities on loan to each borrower is monitored daily and the borrower is required to deliver additional collateral if the fair value of the collateral falls below 100% of the fair value of the securities on loan. The Company has no loaned portfolio securities with terms exceeding one year.

Unrealized gains and losses on stocks and non-investment grade bonds are reflected directly in unassigned surplus net of federal income taxes unless there is deemed to be an other-than-temporary decline in value, in which case the loss is charged to income. Realized gains and losses on investments sold are determined using the specific

identification method and are included in net realized capital gains (loss), net of tax. Investment income is not accrued on bonds with interest payments in default.

Short-term investments include investments with maturities of less than one year and more than three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Cash equivalent investments include investments with maturities of less than or equal to three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term and cash equivalent investments are stated at the lower of amortized cost or fair value.

Electronic Data Processing Equipment and Software

EDP equipment and software are recorded at cost less accumulated depreciation. Depreciation on EDP equipment and operating software is computed principally by the straight-line method over the lesser of the estimated useful lives of the assets or three years. Non-operating software is depreciated using the straight-line method over the lesser of its useful life or five years. Accumulated depreciation at December 31, 2016 and 2015 was \$209 and \$1,431, respectively. Depreciation expense in 2016 and 2015 was \$13 and \$28, respectively.

Furniture and Equipment

Furniture and equipment is capitalized and depreciated on a straight-line basis over its useful life. The net book value is charged in full to unassigned surplus as a nonadmitted asset. Depreciation expense in 2016 and 2015 was \$569 and \$434, respectively.

Health Care Receivables

Health care receivables represent amounts related to pharmacy rebate receivables and other health care related receivables other than premiums. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claims adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

The State of Florida, AHCA, informed the Company on June 7, 2016 of a pricing error related to the State Fiscal Year 2015-2016 contract. AHCA indicated it under paid the Company due to a mismatch of rates. Related to this, the Company received and recognized cash and premiums of \$9,113 from AHCA during 2016 related to 2015.

Medicare Advantage Part D Premiums and Expenses

Prior to 2016, the Company served as a plan sponsor, offering Medicare Advantage Part D prescription drug insurance coverage under a contract with CMS. The CMS premium, the member premium, and the low-income premium subsidy represent payments for the Company's insurance risk coverage under the Medicare Advantage Part D program and therefore are recorded as premium revenues in operations. Premium revenues are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. Pharmacy benefit costs and administrative costs under the contract are expensed as incurred.

Subsidies from CMS representing cost reimbursements under the Medicare Part D program are not reflected as premium revenues, but rather are accounted for as deposits in amounts receivable for uninsured plans on the accompanying balance sheets. The related liabilities are reported in the accompanying balance sheets in liability for amounts held under uninsured plans.

Retrospectively Rated Contracts

The Company's contracts with CMS and AHCA include a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results.

Federal Income Taxes

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income taxes is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is nondeductible for income tax purposes. The health insurer fee is reported in operating expenses in the same year it is paid. The health insurer fee to be paid in the following year is segregated in special

Proceeds from sales of bonds during 2016 and 2015 were \$27,076 and \$37,261, respectively, resulting in realized gross gains of \$138 and \$106, respectively, and realized gross losses of (\$2) and (\$741) in 2016 and 2015, respectively.

Cash of \$300 and \$300 were on deposit with the Florida OIR at December 31, 2016 and 2015, respectively.

Investments with a statement value of \$38,782 and \$38,546 were on deposit with AHCA at December 31, 2016 and 2015, respectively.

A summary of the Company's investment in unaffiliated common stocks is as follows:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses Less Than 12 Months	12 Months or Greater	Fair Value
<i>December 31, 2015</i>					
Common stocks	\$ 9,590	\$ 4,248	\$ (12)	\$ –	\$ 13,826

Proceeds from sales of unaffiliated common stocks during 2016 and 2015 were \$14,394 and \$0, respectively. The Company realized gross gains of \$4,804 and \$0 during 2016 and 2015, respectively. All common stock was sold as of December 31, 2016.

A significant judgment in the valuation of investments is the determination of when an other-than temporary decline in value has occurred. The Company follows a consistent and systematic process for impairing securities that sustain other-than-temporary declines in value. The Company has established a committee responsible for the impairment review process. The decision to impair a security incorporates both quantitative criteria and qualitative information. The impairment review process considers a number of factors, including but not limited to (a) the length of time and the extent to which a security's fair value has been less than statement value; (b) the financial condition and near term prospects of the issuer; (c) the intent to sell and, for loan-backed and structured securities, the intent and ability of the Company to retain its investment for a period of time to allow for any anticipated recovery in value; (d) whether the debtor is current on interest and principal payments; and (e) general market conditions and industry or sector specific factors. For securities that are deemed to be other-than-temporarily impaired, the security is adjusted to its fair value (or its discounted cash flows for loan-backed and structured securities), and the resulting losses are recognized in net realized gains or losses in the statutory basis statements of operations. The new cost basis of the impaired securities is not increased for future recoveries in fair value. There were no charges for OTTI of securities for the years ended December 31, 2016 and 2015.

A summary of unaffiliated investments with unrealized losses along with the related fair value, aggregated by the length of time that investments have been in a continuous unrealized loss position, is as follows:

The Company's bond portfolio is sensitive to interest rate fluctuations, which impact the fair value of individual securities. Unrealized losses on bonds reported above were primarily caused by the effects of the interest rate environment and the widening of credit spreads on certain securities. Unrealized losses on stocks result from normal market fluctuations and are considered temporary. The Company currently has the ability and intent to hold these securities until their full cost can be recovered. Therefore, the Company does not believe the unrealized losses represent an OTTI as of December 31, 2016 or 2015.

The Company's investment portfolio included loaned securities with carrying values of \$916 and \$6,722 at December 31, 2016 and 2015, respectively. The fair value of the loaned securities was \$928 and \$6,809 at December 31, 2016 and 2015, respectively.

The Company reinvests the collateral received under the securities lending program. The aggregate amount of cash collateral reinvested at December 31, 2016, categorized by the contractual maturity of the investment, is as follows:

3. Fair Value

Assets and liabilities recorded at fair value in the statutory basis balance sheets would be categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

<u>Level Input</u>	<u>Input Definition</u>
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

The following table summarizes the assets and liabilities measured at fair value and held as of December 31, 2016 and 2015, respectively:

	<u>Level I</u>	<u>Level II</u>	<u>Level III</u>	<u>Total</u>

Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level I or Level II inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level I securities, while Level II securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, the Company performs monthly analyses on the prices received from third parties to determine whether the prices are reasonable estimates of fair value. The Company's analyses include a review of month-to-month price fluctuations and, as needed, a comparison of pricing services' valuations for the identical security.

Fair values of equity securities are generally designated as Level I and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated as Level II.

The Company's policy is to recognize transfers between levels, if any, as of the beginning of the reporting period. There were no transfers between levels during the years ended December 31, 2016 and 2015.

The following table summarizes the fair value of financial instruments by type:

4. Unpaid Claims and Claims Adjustment Expenses

The following table provides a reconciliation of the beginning and ending balances for unpaid claims and claims adjustment expenses:

	<u>2016</u>	<u>2015</u>
Balances at January 1	\$ 103,067	\$ 86,932
Incurred (redundancies) related to:		
Current year	1,350,614	1,238,412
Prior years	8,420	4,291
Total incurred	<u>1,359,034</u>	<u>1,242,703</u>
Paid related to:		
Current year	1,228,870	1,136,058
Prior years	111,005	90,510
Total paid	<u>1,339,875</u>	<u>1,226,568</u>
Balances at December 31	<u><u>\$ 122,226</u></u>	<u><u>\$ 103,067</u></u>

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

5. Retrospectively Rated Contracts and Contracts Subject to Redetermination

The amount of net premiums written by the Company in 2016 and 2015 that was subject to retrospective rating features, including MLR rebate regulations, was \$1,431,823 and \$1,309,626, which represented 100.0%, and 100.0%, respectively, of the total net premiums written.

6. Federal Income Taxes

The Company has a federal income tax payable of \$2,351 and \$369 as of December 31, 2016 and 2015, respectively.

The components of net deferred tax assets (liabilities) at December 31 are as follows:

At December 31, 2016, the Company has no operating loss carryforwards or tax credit carryforwards.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses:

	Ordinary	Capital	Total
2016	\$ 13,815	\$ 1,730	\$ 15,545

The Company is included in the consolidated federal income tax return of their parent Anthem, Inc., along with other affiliates, as of December 31, 2016. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

The Company is a member of the IRS Compliance Assurance Program ("CAP"). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2016, the examination of the 2016 tax year continues to be in process.

7. Health Insurer Fee

The Company had \$1,156,733 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015 and no premiums written subject to assessment under ACA Section 9010 as of December 31, 2016 due to the 2017 suspension of this assessment. Because no health insurer fee is to be paid in 2017, no funds have been segregated in special surplus funds for the health insurer fee at December 31, 2016. The Company's portion of the annual health insurance industry fee paid during 2016 was \$21,127 and is included in operating expenses.

8. Capital and Surplus

The Florida OIR requires the Company to maintain a minimum surplus as set forth in the state statutes. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. Additionally, the Department requires the Company to maintain \$3,000 in excess surplus over the statutory requirement per the Department's *Consent Order* pursuant to the approved merger between the Company and PHP Holdings, Inc. The Florida OIR has not adopted the RBC requirement of the NAIC. At December 31, 2016 and 2015, the Company's capital and surplus exceeded all regulatory requirements.

Per the *Florida Statute 641.365*, certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company's accumulated surplus as of December 31st of the preceding year or 2) the Company's net income from the immediately preceding calendar year.

Within these limitations, the Company may pay \$594 in dividends during 2016 without prior approval.

The portion of unassigned surplus representing cumulative unrealized (losses) gains net of tax was \$(26) and \$2,753 as December 31, 2016 and 2015, respectively.

9. Leases

The Company leases office space and EDP equipment and other miscellaneous items under various non-cancelable operating leases. Related lease expense for 2016 and 2015 was \$3,115 and \$2,564, respectively.

At December 31, 2016, future lease payments for operating leases with initial or remaining non-cancelable terms of one year or more consisted of the following: 2017, \$1,139; 2018, \$1,149 ; 2019, \$486 , and 2020, \$145..

10. Contingencies

In March 2016, Anthem filed a lawsuit against its vendor for pharmacy benefit management ("PBM") services, captioned Anthem, Inc. v. Express Scripts, Inc., in the U.S. District Court for the Southern District of New York. The lawsuit seeks to recover damages for pharmacy pricing that is higher than competitive benchmark pricing, damages related to operational breaches and seeks various declarations under the PBM agreement between the parties. Anthem's suit asserts that Express Scripts, Inc.'s ("Express Scripts") current pricing exceeds the competitive benchmark pricing required by the PBM agreement over the remaining term of the PBM agreement and through the post-termination transition period. Further, Anthem believes that Express Scripts' excessive pricing has caused Anthem to lose existing customers and prevented the Company from gaining new business. In addition to the amounts associated with competitive benchmark pricing, Anthem is seeking damages associated with operational breaches incurred to date, together with a declaratory judgment that Express Scripts: (1) breached its obligation to negotiate in good faith and to agree in writing to new pricing terms; (2) is required to provide competitive benchmark pricing to Anthem through the term of the PBM agreement; (3) has breached the PBM agreement, and that Anthem can terminate the PBM agreement either due to Express Scripts' breaches or because Anthem has determined that Express Scripts' performance with respect to the delegated Medicare Part D functions has been unsatisfactory; and (4) is required under the PBM agreement to provide post-termination services, at competitive benchmark pricing, for one year following any termination. In April 2016, Express Scripts filed an answer to the lawsuit disputing Anthem's contractual claims and alleging various defenses and counterclaims. Express Scripts contends that Anthem breached the PBM agreement by failing to negotiate proposed new pricing terms in good faith and that Anthem breached the implied covenant of good faith and fair dealing by disregarding the terms of the transaction. In addition, Express Scripts is seeking declaratory judgments: (1) regarding the timing of the periodic

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

pricing review under the PBM agreement; (2) that it has no obligation to ensure that Anthem receives any specific level of pricing, that Anthem has no contractual right to any change in pricing under the PBM agreement and that its sole obligation is to negotiate proposed pricing terms in good faith; and (3) that Anthem does not have the right to terminate the PBM agreement. In the alternative, Express Scripts claims that Anthem has been unjustly enriched by its payment of \$4.675 billion at the time of the PBM agreement. Anthem believes that Express Scripts' defenses and counterclaims are without merit. Anthem filed a motion to dismiss Express Scripts' counterclaims, which is pending. Anthem intends to vigorously pursue these claims and defend against any counterclaims; however, the ultimate outcome cannot be presently determined.

Anthem and Express Scripts were also named as defendants in a purported class action lawsuit filed in June 2016 in the Southern District of New York by three members of ERISA plans alleging ERISA violations captioned Karen Burnett, Brendan Farrell, and Robert Shullich, individually and on behalf of all others similarly situated vs. Express Scripts, Inc. and Anthem, Inc. The lawsuit was then consolidated with a similar lawsuit that was previously filed against Express Scripts. A first amended consolidated complaint was filed in the consolidated lawsuit, which is captioned In Re Express Scripts/Anthem ERISA Litigation. The first amended consolidated complaint was filed by six individual plaintiffs against Anthem and Express Scripts on behalf of all persons who are participants in or beneficiaries of any ERISA or non-ERISA health care plan from December 1, 2009 to the present in which Anthem provided prescription drug benefits through a PBM agreement with Express Scripts and who paid a percentage bases on co-insurance payment in the course of using that prescription drug benefit. As to the ERISA members, the plaintiffs allege that Anthem breached its duties under ERISA (i) by failing to adequately monitor Express Scripts' pricing under the PBM agreement and (ii) by trading off the best interests of Anthem insureds for its own pecuniary interest by allegedly agreeing to higher pricing in the PBM agreement in exchange for the \$4.675 billion purchase price for Anthem's NextRX PBM business. As to the non-ERISA members, the plaintiffs assert that Anthem breached the implied covenant of good faith and fair dealing implied in the health plans under which the non-ERISA members are covered by (i) negotiating and entering into the PBM agreement with Express Scripts that was detrimental to the interests of the such non-ERISA members, (ii) failing to adequately monitor the activities of Express Scripts, including failing to timely monitor and correct the prices charged by Express Scripts for prescription medications, and (iii) acting in Anthem's self-interests instead of the interests of the non-ERISA members when it accepted the \$4.675 billion purchase price for NextRx. Plaintiffs seek to hold Anthem and Express Scripts jointly and severally liable and to recover all losses suffered by the proposed class, equitable relief, disgorgement of alleged ill-gotten gains, injunctive relief, attorney's fees and costs and interest. Anthem filed a motion to dismiss all of the claims brought against Anthem, which is pending. Express Scripts filed a motion to transfer the case to a federal court in Missouri and Anthem intends to oppose this transfer. Anthem intends to vigorously defend this suit; however, its ultimate outcome cannot be presently determined.

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has continued to implement security enhancements since this incident. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of

AMERIGROUP Florida, Inc.

Notes to Financial Statements – Statutory Basis (continued)

(Dollars In Thousands)

this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. Federal and state agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. The NAIC's multistate targeted market conduct and financial exam was concluded in December 2016. As part of the resolution, the NAIC asked and Anthem has agreed to provide a customized credit protection program functionally equivalent to a credit freeze for minors who were under the age of 18 on January 27, 2015. No fines or penalties were issued. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and on its results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its case management order in September 2015. Anthem filed a motion to dismiss ten of the counts that are before the U.S. District Court. In February 2016, the court issued an order granting in part and denying in part our motion, dismissing three counts with prejudice, four counts without prejudice and allowing three counts to proceed. Plaintiffs filed a second amended complaint in March 2016, and Anthem subsequently filed a second motion to dismiss. In May 2016, the court issued an order granting in part and denying in part our motion, dismissing one count with prejudice, dismissing certain counts asserted by specific named plaintiffs with or without prejudice depending on their individualized facts, and allowing the remaining counts to proceed. In July 2016, plaintiffs filed a third amended complaint, which Anthem answered in August 2016. Fact discovery was completed in December 2016. There remain two state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits and reviews and administrative proceedings include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on The Company's business operations. The Company believes that any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$20,931 and \$7,253, respectively, in premiums receivable and amounts receivable from uninsured plans. Based upon Company experience, receivables from the government have been fully collected; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

The Company has no other known contingencies.

11. Retirement Benefits

The Company participates in various deferred compensation plans sponsored by Anthem that cover certain employees. The deferred amounts are payable according to the terms and subject to the conditions of said deferred compensation agreements. Anthem allocates a share of the total costs of these plans to the Company based on the number of allocated employees participating in the plans. The Company has no legal obligation for benefits under these plans.

The Company participates in the Anthem 401(k) Retirement Savings Plan, a defined contribution plan, sponsored by ATH Holding and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total costs of the plan to the Company based on the number of allocated employees.

During 2016 and 2015, the Company was allocated the following costs for these retirement benefits:

	2016	2015
Deferred compensation plan	\$ 51	\$ 51
Defined contribution plan	1,747	1,715

12. Uninsured Accident and Health Plans

The net loss from operations and total claim payment volume from administrative services only (“ASO”) plans was:

	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
For the year ended December 31, 2016			
Net reimbursement for administrative expenses (including administrative fees) less than actual expenses	\$ (112)	\$ –	\$ (112)

13. Health Care Receivable

Pharmaceutical rebate receivables of \$0 and \$461 were admitted at December 31, 2016 and 2015, respectively.

Pharmaceutical rebate receivables consist of reasonably estimated and billed amounts. Amounts not collected within 90 days of the invoice or confirmation date are nonadmitted. Pharmaceutical rebate receivables of \$56 and \$1,824 were nonadmitted at December 31, 2016 and 2015, respectively.

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$3,483 and \$4,407 were nonadmitted as of December 31, 2016 and 2015, respectively.

Provider advances of \$298 and \$298 were nonadmitted at December 31, 2016 and 2015, respectively. Capitation agreement receivables of \$1,332 and \$2,684 were nonadmitted as of December 31, 2016 and 2015, respectively, as amounts did not meet the setoff conditions.

14. Related Party Transactions

The Company has entered into administrative services agreements with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, benefits, communications, advertising, consulting services, rent, utilities, accounting, underwriting, and product development, which support the operations of the Company. These costs are allocated based on various utilization statistics.

Net payments to affiliated companies pursuant to the above administrative service agreements were \$124,803 and \$125,804 in 2016 and 2015, respectively, and are included in operating expenses and claims adjustment expenses in the statutory basis statements of operations.

At December 31, 2016 and 2015, the Company reported \$1,958 and \$189 due from affiliates, which were nonadmitted per Florida OIR prescribed accounting practices. At December 31, 2016 and 2015, the Company reported \$3,235 and \$9,877 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

The Company paid no dividends for the years ended December 31, 2016 and 2015.

The Company received a \$10,000 capital contribution from its parent company on September 30, 2016. The Company received no capital contributions from its parent for the year ended December 31, 2015.

Report of Independent Auditors

Board of Directors
AMERIGROUP Florida, Inc.

We have audited the accompanying statutory basis financial statements of AMERIGROUP Florida, Inc., which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of operations, changes in capital and surplus, and cash flow for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, to meet the requirements of Florida the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 1. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of AMERIGROUP Florida, Inc. at December 31, 2015 and 2014, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory Basis of Accounting

However, in our opinion, the statutory basis financial statements referred to above present fairly, in all material respects, the financial position of AMERIGROUP Florida, Inc. at December 31, 2015 and 2014, and the results of its operations and its cash flows for the years then ended in conformity with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation.

1. Nature of Operations and Significant Accounting Policies

AMERIGROUP Florida, Inc. (the “Company”) is a Florida domiciled stock health maintenance organization (“HMO”), which is licensed in Florida. The Company is a prepaid capitated plan created primarily for an enrolled population comprised of beneficiaries of the Medicaid, Florida Healthy Kids (“FHK”), and Long-term Care Community Diversion (“LTC”) programs. The Company’s current service areas include the counties of Brevard, Broward, Hardee, Highlands, Hillsborough, Lake, Manatee, Miami-Dade, Monroe, Pasco, Palm Beach, Pinellas, Polk, Orange, Osceola, Sarasota, Seminole, and Volusia in Florida. As of December 31, 2015, the Company served 392,725 members. The Company also manages healthcare services for members as a Medicare Advantage Plan, under a contract with the Centers for Medicare and Medicaid Services (“CMS”). The Company is a wholly owned subsidiary of Physicians Healthcare Plan Holding, Inc. (“PHP Holdings, Inc.”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company. The shareholders of Anthem approved a proposal to amend its articles of incorporation to change the name to Anthem, Inc. from WellPoint, Inc. The name change was effective December 2, 2014.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna. The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna’s stockholders.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting practices prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”). The Florida OIR has adopted the accounting policies found in the National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) as a component of prescribed accounting practices. Additionally, the Florida OIR has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, which impact the Company. The Company employed no permitted practices in preparing the accompanying statutory basis financial statements.

1. Nature of Operations and Significant Accounting Policies (continued)

A reconciliation of the Company's statutory capital and surplus as of December 31, 2015 and 2014 between practices prescribed by the Florida OIR and NAIC SAP is shown below:

	<u>2015</u>	<u>2014</u>
Statutory capital and surplus, Florida OIR basis	\$ 75,684	\$ 83,606
State prescribed practices:		
Nonadmittance of amounts due from affiliates pursuant to 641.35 (2)(i) of the FL Revised Statutes effective June 30, 2015	<u>189</u>	<u>—</u>
Statutory capital and surplus, NAIC SAP basis	<u>\$ 75,873</u>	<u>\$ 83,606</u>

For the years ended December 31, 2015 and 2014 there are no differences between the Company's net income under NAIC SAP and practices prescribed by the Florida OIR.

NAIC SAP varies from U.S. generally accepted accounting principles ("GAAP"). The more significant variances from GAAP, applicable to the Company, are as follows:

Investments: Investments in bonds and unaffiliated common stocks are reported at amortized cost or fair value based on their NAIC rating. For GAAP, such fixed maturity investments are designated at purchase as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of capital and surplus.

For statutory purposes, all single class and multi-class mortgage-backed/asset-backed securities, such as collateralized mortgage obligations ("CMOs"), where it is determined that a decline in fair value is other-than-temporary because the Company intends to sell the security or has assessed that it does not have the intent and ability to retain the investments in the security for a period of time sufficient to recover the amortized cost basis, the amortized cost basis is written down to fair value as a realized loss in the statements of operations. If deemed other-than-temporarily impaired as the Company does not expect to recover the amortized cost basis even if it did not intend to sell the security and the Company has the intent and ability to hold the security, the amortized cost basis is written down to the present value of future cash flows as a realized loss in the statements of operations. For impaired bonds not backed by other assets, an other-than-temporary impairment is considered to have occurred if it is probable that the Company will be unable to collect all amounts due according to the instrument's contractual terms in effect at the date of acquisition. A decline in fair value that is other-than-temporary includes situations where the Company has made a decision to sell a security prior to its maturity at an amount below its carrying value. If it is determined that a decline in the fair value of a bond is other-than-temporary, an impairment loss is recognized as a realized loss in the statements of operations equal to the entire difference between the bond's carrying value and its fair value.

For GAAP purposes, all securities, purchased or retained, that represent beneficial interests in securitized assets, such as CMOs, mortgage-backed securities, bonds and asset-backed securities, other than high credit quality securities, whose decline in fair value is determined to be other-than-temporary, the cost basis of the security is written down to the fair value if the Company intends to sell the security or it is more likely than not that the Company will have to sell the security prior to recovery. For impaired fixed maturity securities that the Company does not intend to sell or it is more likely than not that the Company will not have to sell such securities, but the Company expects that it will not fully recover the amortized cost basis, the credit component of the other-than-

temporary impairment is recognized in other-than-temporary losses in the income statements, and the non-credit component of the other-than-temporary impairment is recognized in other comprehensive income. Furthermore, unrealized losses entirely caused by non-credit factors related to fixed maturity securities for which the Company expects to fully recover the amortized cost basis continue to be recognized in accumulated other comprehensive income.

Premiums receivable: Premiums receivable are recorded at the billed amount and reduced by any amounts not deemed collectible. Generally non-government receivable amounts aged ninety days and older are excluded from the balance sheets by a direct charge to capital and surplus. For GAAP, these amounts are recorded at the billed amount and are reported net of a valuation allowance based upon historical collection trends and management's judgment on the collectability of these accounts.

Nonadmitted assets: Certain assets designated as nonadmitted, including furniture and equipment, receivables from affiliates, leasehold improvements, prepaid expenses, goodwill, intangibles, and certain health care and other receivable balances, are excluded from the balance sheets by a direct charge to capital and surplus. These nonadmitted assets totaled \$20,928 and \$14,685 at December 31, 2015 and 2014, respectively. For GAAP, these amounts are carried as assets, net of a valuation allowance, if necessary.

Deferred income taxes: Deferred tax assets are reduced by a statutory valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the gross deferred tax assets will not be realized. Adjusted gross deferred tax assets are separated by character (ordinary and capital) and admitted in an amount equal to the sum of 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the applicable carryback period, plus 2) based on Risk Based Capital ("RBC") thresholds the lesser of the remaining adjusted gross deferred tax assets expected to be realized within the applicable period of the balance sheet date or an amount no greater than the applicable percentage of capital and surplus excluding any net deferred tax assets, electronic data processing ("EDP") equipment and operating software and any net positive goodwill, plus 3) the amount of remaining adjusted gross deferred tax assets that can be offset against existing gross deferred tax liabilities after consideration of the reversal patterns of temporary differences. The remaining deferred tax asset is nonadmitted.

Deferred taxes do not include amounts for state taxes. Changes in deferred income taxes are recorded as adjustments to capital and surplus. For GAAP, state income taxes are considered in the computation of deferred taxes, a deferred tax asset is recorded for the amount of gross deferred tax assets expected to be realized in future years, and a valuation allowance is established for deferred tax assets estimated to be unrealizable. Excluding the tax impact of unrealized investment gains and losses and certain other items, the change in deferred income taxes is recorded in the statements of operations.

Statements of cash flow: Cash and short-term investments in the statements of cash flow represent cash balances, and investments with initial maturities of one year or less. If in the aggregate the Company has a negative cash balance, it is reported as a negative asset and not as a liability. For GAAP, the corresponding captions of cash include cash balances and investments with initial maturities of three months or less and negative cash balances are reported separately as liabilities.

The effects of the foregoing variances from GAAP on the accompanying statutory basis financial statements have not been determined but are presumed to be material.

1. Nature of Operations and Significant Accounting Policies (continued)

Other significant accounting policies are as follows:

Use of Estimates

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Bonds not backed by loans are stated at amortized cost, with amortization of premium or discount calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions for loan-backed securities and structured securities are obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade bonds are stated at the lower of cost or fair value as determined by the NAIC's Securities Valuation Office ("SVO"). Common stocks of unaffiliated companies are stated at fair value as determined by various third-party pricing sources.

The Company participates in a securities lending program whereby marketable securities in its investment portfolio are transferred to independent brokers or dealers based on, among other things, their creditworthiness in exchange for collateral initially equal to at least 102% of the fair value of the securities on loan, and is thereafter maintained at a minimum of 100% of the fair value of the securities loaned. The fair value of the securities on loan to each borrower is monitored daily and the borrower is required to deliver additional collateral if the fair value of the collateral falls below 100% of the fair value of the securities on loan. The Company has no loaned portfolio securities with terms exceeding one year.

Unrealized gains and losses on stocks and non-investment grade bonds are reflected directly in unassigned surplus net of federal income taxes unless there is deemed to be an other-than-temporary decline in value, in which case the loss is charged to income. Realized gains and losses on investments sold are determined using the specific identification method and are included in net realized gains, net of tax. Investment income is not accrued on bonds with interest payments in default.

Short-term investments include investments with maturities of less than one year and more than three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.

Electronic Data Processing Equipment and Software

EDP equipment and software are recorded at cost less accumulated depreciation. Depreciation on EDP equipment and operating software is computed principally by the straight-line method over the lesser of the estimated useful lives of the assets or three years. Non-operating software is depreciated using the straight-line method over the lesser of its useful life or five years. Accumulated depreciation at December 31, 2015 and 2014 was \$1,431 and \$1,403, respectively. Depreciation expense in 2015 and 2014 was \$28 and \$28, respectively.

Furniture and Equipment

Furniture and equipment is capitalized and depreciated on a straight-line basis over its useful life. The net book value is charged in full to unassigned surplus as a nonadmitted asset. Depreciation expense in 2015 and 2014 was \$434 and \$222, respectively.

Health Care Receivables

Health care receivables represent amounts related to pharmacy rebate receivables and other health care related receivables other than premiums. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. These health care receivables are subject to various admittance tests based on the nature of the receivable balance.

Unpaid Claims and Claims Adjustment Expenses

Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Reserves for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current operating results.

The Company records a liability for future policy benefits relating to certain individual product contracts. The liability represents the present value of future benefits to be paid to or on behalf of policy holders and related expenses less the present value of future net premiums. Changes in the liability for future benefits are recognized in the accompanying statutory basis statements in the period in which the change occurs.

Premium Deficiency Reserves

Premium deficiency reserves are established for the amount of the anticipated claims and claims adjustment expenses that have not been previously expensed in excess of the recorded unearned premium reserve and future premiums on existing policies. The Company does not use anticipated investment income as a factor in the premium deficiency reserve calculation. The Company recorded premium deficiency reserves of \$1,536 as of December 31, 2014. The Company did not have any premium deficiency reserves as of December 31, 2015.

1. Nature of Operations and Significant Accounting Policies (continued)

Premiums

Premiums are recognized as revenue during the period in which the Company is obligated to provide service to members. Premium payments from contracted government agencies are based on eligibility lists produced by the government agencies. Adjustments to eligibility lists produced by the government agencies result from retroactive application of enrollment or disenrollment of members or classification changes between rate categories. The Company estimates the amount of retroactive premium owed to or from the government agencies each period and adjusts premium revenue accordingly. Expenses incurred in connection with acquiring insurance business are charged to operations as incurred.

Delays in approval of annual premium rate changes require that the Company defer the recognition of any increases to the period in which the premium rates become final. The value of the impact can be significant in the period in which it is recognized dependent on the magnitude of the premium rate increase, the membership to which it applies and the length of the delay between the effective date of the rate increase and the final contract date. Premium rate decreases are recognized in the period the change in premium rate becomes effective and the change in the rate is known, which may be prior to the period when the contract amendment affecting the rate is finalized.

Medicare Advantage Part D Premiums and Expenses

The Company serves as a plan sponsor, offering Medicare Advantage Part D prescription drug insurance coverage under a contract with the CMS. The CMS premium, the member premium, and the low-income premium subsidy represent payments for the Company's insurance risk coverage under the Medicare Advantage Part D program and therefore are recorded as premium revenues in operations. Premium revenues are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. Pharmacy benefit costs and administrative costs under the contract are expensed as incurred.

Subsidies from CMS representing cost reimbursements under the Medicare Part D program are not reflected as premium revenues, but rather are accounted for as deposits, with the related liabilities reported in the balance sheets with other liabilities.

Retrospectively Rated Contracts

The Company's contracts with CMS and the State Medicaid Agency include a provision for which premiums vary based on loss experience. The Company estimates accrued retrospective premium adjustments through the review of each retrospectively rated contract, comparing the claim development with that anticipated in the contract. Any adjustment made to the estimated liability as a result of a final settlement is included in current operations. The Company uses estimates to report in the statutory basis financial statements the incurred and unpaid liability amounts for retrospectively rated contracts based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date and regulations and guidance available that is subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory basis financial statements and related footnote disclosures may differ from actual results. The Company records accrued retrospective premium as an adjustment to earned premium.

Federal Income Taxes

The Company participates in a tax sharing agreement with Anthem and its subsidiaries. Allocation of federal income taxes is based upon separate return calculations with credit for net losses that can be used on a consolidated basis. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

Patient Protection and Affordable Care Act

In 2010, the U.S. Congress passed and the President signed into law the Patient Protection and Affordable Care Act (“ACA”). ACA has created significant changes and will continue to create significant changes for health insurance markets. Certain requirements include changes to Medicare Advantage payments and the minimum medical loss ratio (“MLR”) provision that requires insurers to pay rebates to customers when insurers do not meet or exceed the specified MLR thresholds. Most of the provisions of ACA with more significant effects on the health insurance marketplace, both state and federal, went into effect on January 1, 2014, including a requirement that insurers guarantee the issuance of coverage to all individuals regardless of health status, strict rules on how health insurance is rated, the assessment of new taxes and fees (including annual fees on health insurance companies), the creation of new insurance exchanges for individuals and small groups, the availability of premium subsidies for certain individual products, and substantial expansions in eligibility for Medicaid.

Implementation of ACA brings with it significant oversight responsibilities by health insurers that may result in increased governmental audits, increased assertions of *False Claims Act* violations, and an increased risk of other litigation.

Health Insurer Fee

ACA Section 9010 imposed a mandatory annual fee on health insurers that write certain types of health insurance on U.S. risks for each calendar year beginning on or after January 1, 2014. The annual fee is allocated to health insurers based on the ratio of the amount of an insurer's premium written during the preceding calendar year to the amount of health insurance for all U.S. health risk for those certain lines of business that is written during the preceding calendar year. This fee is non-deductible for income tax purposes. The health insurer fee paid in 2015 is included in 2015 operating expenses. The estimated health insurer fee payable in 2016 is segregated in special surplus funds at December 31, 2015. For statutory accounting purposes, the entire fee expected to be paid during the year is recorded as a general and administrative expense on January 1st, as the first policy is underwritten for the calendar year.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

A summary of the Company's investment in unaffiliated common stocks is as follows:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses Less Than 12 Months	12 Months or Greater	Fair Value
December 31, 2015					
Common stocks	<u>\$ 9,590</u>	<u>\$ 4,248</u>	<u>\$ (12)</u>	<u>\$ –</u>	<u>\$ 13,826</u>

A significant judgment in the valuation of investments is the determination of when an other-than-temporary decline in value has occurred. The Company follows a consistent and systematic process for impairing securities that sustain other-than-temporary declines in value. The Company has established a committee responsible for the impairment review process. The decision to impair a security incorporates both quantitative criteria and qualitative information. The impairment review process considers a number of factors, including but not limited to (a) the length of time and the extent to which a security's fair value has been less than statement value; (b) the financial condition and near term prospects of the issuer; (c) the intent to sell and, for loan-backed and structured securities, the intent and ability of the Company to retain its investment for a period of time to allow for any anticipated recovery in value; (d) whether the debtor is current on interest and principal payments; and (e) general market conditions and industry or sector specific factors. For securities that are deemed to be other-than-temporarily impaired, the security is adjusted to its fair value (or its discounted cash flows for loan-backed and structured securities), and the resulting losses are recognized in net realized gains or losses in the statutory basis statements of operations. The new cost basis of the impaired securities is not increased for future recoveries in fair value. There were no charges recorded for other-than-temporary impairment ("OTTI") of securities for the years ended December 31, 2015 and 2014.

A summary of unaffiliated investments with unrealized losses along with the related fair value, aggregated by the length of time that investments have been in a continuous unrealized loss position, is as follows:

	December 31, 2015			December 31, 2014		
	Number of Securities	Fair Value	Gross Unrealized Loss	Number of Securities	Fair Value	Gross Unrealized Loss

The Company's bond portfolio is sensitive to interest rate fluctuations, which impact the fair value of individual securities. Unrealized losses on bonds reported above were primarily caused by the effects of the interest rate environment and the widening of credit spreads on certain securities. Unrealized losses on stocks result from normal market fluctuations and are considered temporary. The Company currently has the ability and intent to hold these

securities until their full cost can be recovered. Therefore, the Company does not believe the unrealized losses represent an OTTI as of December 31, 2015 or 2014.

The Company's investment portfolio included loaned securities with carrying values of \$6,722 and \$5,340 at December 31, 2015 and 2014, respectively. The fair value of the invested collateral was \$6,809 and \$5,498 at December 31, 2015 and 2014, respectively.

The Company reinvests the collateral received under the securities lending program. The aggregate amount of cash collateral reinvested at December 31, 2015, categorized by the contractual maturity of the investment, is as follows:

	Amortized Cost	Fair Value
30 days or less	\$ 4,400	\$ 4,400

3. Fair Value

Assets and liabilities recorded at fair value in the statutory basis balance sheets would be categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

<u>Level Input</u>	<u>Input Definition</u>
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level I or Level II inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level I securities, while Level II securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, the Company performs monthly analyses on the prices received from third parties to determine whether the prices are reasonable estimates of fair value. The Company's analyses include a review of month-to-month price fluctuations and, as needed, a comparison of pricing services' valuations for the identical security.

Fair values of equity securities are generally designated as Level I and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated as Level II.

The Company's policy is to recognize transfers between levels, if any, as of the beginning of the reporting period. There were no transfers between levels during the years ended December 31, 2015 and 2014.

Amounts incurred related to prior years vary from previously estimated liabilities as the claims are ultimately settled. Liabilities at any year end are continually reviewed and re-estimated as information regarding actual claim payments becomes known. This information is compared to the originally established year end liability. The negative amounts reported for incurred related to prior years' results from claims being settled for amounts less than originally estimated. Positive amounts reported for incurred related to prior years result from claims being settled for

amounts greater than originally estimated. This experience is primarily attributable to actual medical cost experience that differs from that assumed at the time the liability was established.

The Company took into account estimated anticipated subrogation and other recoveries in its determination of the liability for unpaid claims based on historical recovery patterns.

5. Retrospectively Rated Contracts and Contracts Subject to Redetermination

The amount of net premiums written by the Company in 2015 and 2014 that was subject to retrospective rating features, including MLR rebates regulations, was \$1,309,626 and \$105,214, which represented 100.0% and 11.2%, respectively, of the total net premiums written.

6. Federal Income Taxes

The Company had a federal income tax payable of \$369 at December 31, 2015 and a federal income tax recoverable of \$7,334 at December 31, 2014.

At December 31, 2015, the Company has no operating loss carryforwards or tax credit carryforwards.

The following are income taxes incurred in the current and prior years that will be available for recoupment in the event of future net losses:

	Ordinary	Capital	Total
2015	\$ 6,887	\$ –	\$ 6,887
2014	–	–	–
2013	N/A	3,079	3,079

The Company is a member of the IRS Compliance Assurance Program (“CAP”). The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of tax returns prior to filing, thereby reducing or eliminating the need for post filing examinations. As of December 31, 2015, the examination of the 2015 tax year continues to be in process.

7. Health Insurer Fee

The Company has \$1,156,733 and \$805,328 of premiums written subject to assessment under ACA Section 9010 as of December 31, 2015 and 2014, respectively. The Company's estimated portion of the annual health insurance industry fee to be paid by September 30, 2016 is \$20,965 as segregated in special surplus funds on the balance sheet. The Company's portion of the annual health insurance industry fee paid during 2015 was \$21,259 and is included in operating expenses. Total Adjusted Capital (“TAC”) and Authorized Control Level (“ACL”) were \$75,684 and \$39,030, respectively, as of December 31, 2015. Had the assessment, based upon 2015 premiums written, been accrued on December 31, 2015, TAC would have been reduced to \$54,719, which would continue to exceed all capital and surplus requirements as described in Note 8.

8. Capital and Surplus

The Florida OIR requires the Company to maintain a minimum statutory capital and surplus as set forth in the state statutes. Under those requirements, capital and surplus is calculated as the greater of \$1,500, or 10% of total liabilities, or 2% of total annualized premiums. Additionally, the Department requires the Company to maintain \$3,000 in excess surplus over the statutory requirement per the Department's *Consent Order* pursuant to the approved merger between the Company and PHP Holdings, Inc. The Florida OIR has not adopted the RBC requirement of the NAIC. At December 31, 2015 and 2014, the Company's capital and surplus exceeded all regulatory requirements.

Per the *Florida Statute 641.365*, certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida OIR is required for payment of any dividend that would result in these accumulated surplus funds being less than zero. Florida OIR approval is not required if the dividend paid is less than the greater of 1) ten percent of the Company's accumulated surplus as of December 31st of the preceding year or 2) the Company's net income from the immediately preceding calendar year. Within these limitations, the Company may pay no dividends during 2016 without prior approval.

The portion of unassigned deficit representing cumulative unrealized gains was \$4,236 and \$4,653 as December 31, 2015 and 2014, respectively.

9. Leases

The Company leases office space and EDP equipment and other miscellaneous items under various non-cancelable operating leases. Related lease expense for 2015 and 2014 was \$2,564 and \$426, respectively.

At December 31, 2015, future lease payments for operating leases with initial or remaining non-cancelable terms of one year or more consisted of the following: 2016, \$2,719; 2017, \$2,856; 2018, \$2,906; 2019, \$2,286; 2020, \$1,367 and thereafter, \$521.

10. Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or

AMERIGROUP Florida, Inc.

10. Contingencies (continued)

others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2015 and 2014, the Company reported admitted assets of \$7,253 and \$8,830, respectively, in premium receivables due from policyholders and agents and receivables due from uninsured plans. The receivables are not deemed to be uncollectible, therefore, no provisions for uncollectible amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

The Company has no other known contingencies.

11. Retirement Benefits

The Company participates in various deferred compensation plans sponsored by Anthem that cover certain employees. The deferred amounts are payable according to the terms and subject to the conditions of said deferred compensation agreements. Anthem allocates a share of the total costs of these plans to the Company based on the number of allocated employees participating in the plans. During 2015 and 2014, these costs totaled \$51 and \$15. The Company has no legal obligation for benefits under this plan.

The Company participates in the Anthem 401(k) Retirement Savings Plan, sponsored by ATH Holding and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. During 2015 and 2014, these costs totaled \$1,715 and \$1,466, respectively. The Company has no legal obligation for benefits under these plans.

Claim overpayment receivables consist of amounts that have been invoiced and meet the setoff conditions. Amounts that have not been invoiced and do not meet the setoff conditions are nonadmitted. Claim overpayment receivables and other health care receivables of \$4,407 and \$1,876 were nonadmitted as of December 31, 2015 and 2014, respectively.

Provider advances of \$298 and \$999 were nonadmitted as of December 31, 2015 and 2014, respectively. Capitation agreement receivables of \$2,684 were nonadmitted as of December 31, 2015, as amounts did not meet the setoff conditions. The Company did not have capitation agreement receivables as of December 31, 2014.

13. Related Party Transactions

The Company has entered into administrative services agreements with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, benefits, communications, advertising, consulting services, rent, utilities,

13. Related Party Transactions (continued)

accounting, underwriting, and product development, which support the operations of the Company. These costs are allocated based on various utilization statistics.

Net payments to affiliated companies pursuant to the above administrative service agreements were \$125,804 and \$96,344 in 2015 and 2014, respectively, and are included in operating expenses and claims adjustment expenses in the statutory basis statements of operations.

At December 31, 2015 and 2014, the Company reported zero and \$22 due from affiliates and \$9,877 and \$4,708 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that are settled within the terms of the management and services agreement.

The Company paid no dividends for the years ended December 31, 2015 and 2014.

The Company received \$35,000 of capital contributions on December 31, 2014 from its parent company, PHP Holding, Inc. The Company received no capital contributions from its parent for the year ended December 31, 2015.

15. Subsequent Events

The Company will no longer serve Medicare members effective January 1, 2016. That line of business, which comprises 37,131 members as of December 31, 2015, was transferred to our affiliate, Simply Healthcare Plans, Inc.

The annual health insurer fee under section 9010 of the ACA, discussed in Note 1, has been suspended for 2017 and will resume for 2018 and beyond.

Management of the Company has evaluated all other events occurring after December 31, 2015 through March 28, 2016, the date the financial statements were available to be issued, to determine whether any event required either recognition or disclosure in the financial statements. It was determined there were no other events that require recognition or disclosure in the financial statements through the report date.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Simply Healthcare Plans, Inc. (the “Company”) have been prepared in conformity with the National Association of Insurance Commissioners’ (“NAIC”) *Annual Statement Instructions* and in accordance with accounting practices prescribed by the NAIC *Accounting Practice and Procedures Manual* (“NAIC SAP”), subject to any deviations prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”).

The Florida OIR state prescribed practice does not allow parent and affiliate receivables to be admitted assets. A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Florida OIR is shown below:

	SSAP #	F/S Page	F/S Line #	2016	2015

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policies

Health premium revenues, based on membership records and premiums rates for each membership category within each county, are recognized as revenue during the period in which the Company is obligated to provide service to members. Premiums are reported net of excess loss reinsurance ceded and experience rating refunds. Premiums paid before the effective service month are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by Florida OIR and the Centers for Medicare and Medicaid Services (“CMS”). Costs, such as premium taxes and other underwriting expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1)

Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value
- (2)

Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
- (3)

The Company has no investments in common stocks of unaffiliated companies.
- (4)

The Company has no preferred stocks.
- (5)

The Company has no mortgage loans – real estate.
- (6)

Loan-backed securities are stated at amortized cost. Prepayment assumptions for loan-backed securities and structured securities were obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade loan-backed securities are stated at the lower of amortized cost or fair value.
- (7)

The Company has no investment in subsidiaries, controlled and affiliated companies.
- (8)

The Company has no investment in joint ventures, partnerships and limited liability companies.
- (9)

The Company has no derivative instruments.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

- (10) The Company does not anticipate investment income as a factor in premium deficiency calculations.
- (11) Unpaid claims and claims adjustment expenses include management’s best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms.

10. Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

A. Nature of the Relationship

The Company is a Florida domiciled stock insurance company and is a wholly-owned subsidiary of Simply Healthcare Holdings, Inc. (“Simply Holdings”), which is owned by ATH Holding Company, LLC (“ATH Holding”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company owning 100% of the outstanding shares of the Simply Holdings.

On December 19, 2014, Simply Healthcare Holdings, the parent company of Simply, entered into an Agreement and Plan of Merger (“Purchase Agreement”) with a subsidiary of Anthem, Inc. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17th, 2015.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

On July 24, 2015, the Company's ultimate parent company, Anthem, and Cigna Corporation ("Cigna") entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court's ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna's allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem's motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

B. Significant Transactions for Each Period

The following significant transactions took place between the Company and its affiliates:

There were no significant transactions that took place between the Company and its affiliates during the years ended December 31, 2016 or 2015.

C. Intercompany Management and Service Arrangements

There were no changes to the intercompany management and service arrangements, and there were no additional arrangements entered into during 2015. Effective January 1, 2016, the Company entered into the Anthem, Inc. Master Services agreement. The amounts of transactions under such agreements are presented in Schedule Y, Part 2.

D. Amounts Due to or from Related Parties

At December 31, 2016 and 2015, the Company reported \$713,672 and \$0 due from affiliates which were nonadmitted per Florida OIR. The Company reported \$3,218,895 and \$2,974,679 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that will be settled in accordance with the settlement terms of the intercompany agreement.

E. Guarantees or Contingencies for Related Parties

The Company did not enter into guarantees or undertakings for the benefit of an affiliate which would result in a material contingent exposure of the Company's or any affiliated insurer's assets or liabilities.

F. Management and Service Contracts and Cost Sharing Arrangements

The Company has entered into administrative services agreements with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The costs and expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, employee benefits, communications, advertising, consulting services, rent, utilities, billing, accounting, underwriting, and product development, which support the Company's operations. These costs are allocated based on various utilization statistics.

The Company is party to a cash concentration agreement with its affiliated companies. Under this agreement, any of the Company's affiliates may be designated as a cash manager to handle the collection and/or payment of funds on behalf of the Company. Conversely, the Company may be designated as a cash manager to handle the collection and/or payment of funds on behalf of its affiliates. Cash services covered under this agreement include the collection of premiums and other revenue, the collection of benefit and administrative expense reimbursements, the payment of policy benefits, payroll expense, general and administrative expense, and accounts payable disbursements.

13. Capital and Surplus, Shareholder's Dividend Restrictions and Quasi-Reorganizations

(1) Outstanding Shares

As of December 31, 2016, the Company has 1,000 shares authorized of \$1 par value common stock authorized, issued and outstanding. The number of shares issued and outstanding is 57.

(2) Preferred Stock

The Company has no preferred stock outstanding.

(3) Dividend Restrictions

Per the *Florida Statute 641.365*, there are certain limitations exist on the Company’s ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida DFS is required for payment of any dividend which would result in these accumulated surplus funds being less than zero. Florida DFS approval is not required if the dividend to be paid is less than the greater of 1) ten percent of the Company’s accumulated surplus or 2) the Company’s entire net operating profit, including realized capital gains, for the immediately preceding calendar year.

(4) Dividends Paid

See Footnote 10B.

(5) Maximum Ordinary Dividends During 2017

Within the limitations of (3) above, the Company may pay \$55,584,861 in dividends during 2017 without prior approval.

(6) Unassigned Surplus Restrictions

Unassigned surplus funds are not restricted at December 31, 2016.

(7) Mutual Surplus Advances

Not applicable.

(8) Company Stock Held for Special Purpose

There are no shares of stock held for special purposes at December 31, 2016.

(9) Changes in Special Surplus Funds

The changes in balances of special surplus funds from the prior year are due to changes in the amounts segregated for the estimated Affordable Care Act (“ACA”) health insurer fee. The annual fee under section 9010 of the ACA has been suspended for 2017, therefore no surplus has been segregated as of December 31, 2016.

(10) Changes in Unassigned Funds

The portion of unassigned funds represented by cumulative unrealized gains and losses was (\$229,302) at December 31, 2016.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

(11) Surplus Notes

The Company has surplus note principal outstanding at December 31, 2016 and 2015 in the amount of \$20,559,808 and \$20,559,808, respectively. A summary is as follows:

<u>Date Issued</u>	<u>Interest Rate</u>	<u>Par Value</u>	<u>Carrying Value of Note</u>	<u>Interest Paid Current Year</u>	<u>Total Interest Paid</u>	<u>Unapproved Interest Expense</u>	<u>Accrued Interest</u>	<u>Date of Maturity</u>

12/31/2013	8.0%	\$ 1,000,000	\$ 1,000,000			\$ 240,438		
Total		20,559,808				9,423,688		

As of December 31, 2016, the Company entered into promissory surplus notes to related parties totaling \$20,559,808. The notes bear interest at the rate of 8% per annum, however, in accordance with statutory accounting principles set forth in SSAP No. 41 interest shall not be recorded as a liability or an expense until such interest has been approved by the Florida OIR for payment.

Any payment of interest and repayment of surplus note principal may be paid only out of the Company’s earnings, subject to approval by the Florida OIR. Interest expense on surplus notes not yet approved by the Florida OIR and thus not recorded was \$9,423,688 and \$7,774,398 at both December 31, 2016 and 2015..

(12) Restatement due to Prior Quasi-reorganization

The Company has no restatements due to prior quasi-reorganizations.

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

The Company has no contingent commitments at December 31, 2016.

B. Assessments

1. The Company is subject to guaranty fund and other assessments by the state in which it writes business. Guaranty fund assessments are accrued at the time of insolvencies. Other assessments are accrued either at the time of the assessment or at the time the losses are incurred.

The State of Florida has not issued a guaranty fund assessment, and the Company has not recorded a liability for an assessment as of December 31, 2016 or 2015.

2. Not applicable.

C. Gain Contingencies

The Company has no gain contingencies at December 31, 2016.

D. Claims-Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

Not applicable.

E. Joint and Several Liabilities

Not applicable.

F. All Other Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem’s information technology systems and

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has continued to implement security enhancements since this incident. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. Federal and state agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. The NAIC's multistate targeted market conduct and financial exam was concluded in December 2016. As part of the resolution, the NAIC asked and Anthem has agreed to provide a customized credit protection program functionally equivalent to a credit freeze for minors who were under the age of 18 on January 27, 2015. No fines or penalties were issued. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and on its results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its case management order in September 2015. Anthem filed a motion to dismiss ten of the counts that are before the U.S. District Court. In February 2016, the court issued an order granting in part and denying in part our motion, dismissing three counts with prejudice, four counts without prejudice and allowing three counts to proceed. Plaintiffs filed a second amended complaint in March 2016, and Anthem subsequently filed a second motion to dismiss. In May 2016, the court issued an order granting in part and denying in part our motion, dismissing one count with prejudice, dismissing certain counts asserted by specific named plaintiffs with or without prejudice depending on their individualized facts, and allowing the remaining counts to proceed. In July 2016, plaintiffs filed a third amended complaint, which Anthem answered in August 2016. Fact discovery was completed in December 2016. There remain two state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits and reviews and administrative proceedings include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on The Company's business operations. The Company believes that any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$19,748,387 and \$17,834,690, respectively, in premium receivables due from policyholders and agents and receivables due from uninsured plans. Based upon Company experience, any uncollectible receivables are not expected to exceed \$0 that was nonadmitted at December 31, 2016; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

15. Leases

A. Lessee Operating Lease

- (1) The Company leases office space, office equipment, EDP equipment, software under various noncancelable operating leases. Related lease expense for 2016 and 2015 was \$805,581 and \$2,123,271 respectively.

(3) The Company has not entered into any material sale-leaseback transactions.

B. Lessor Leases

- (1) The Company has not entered into any operating leases.
- (2) The Company has not entered into any leveraged leases.

16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of investment securities. All investment securities are managed by professional investment managers within policies authorized by the board of directors. Such policies limit the amounts that may be invested in any one issuer and prescribe certain investee company criteria. As of December 31, 2016, there were no significant concentrations.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable at December 31, 2016 and 2015.

B. Transfer and Servicing of Financial Assets

Not applicable at December 31, 2016 and 2015.

C. Wash Sales

1. In the course of the Company’s asset management, securities may be sold and reacquired within 30 days of the sale date to enhance the yield on the investments.
2. At December 31, 2016 and 2015, there were no wash sales involving securities with an NAIC designation of 3 or below or unrated.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and Uninsured Portion of Partially Insured Plans

A. Administrative Services Only (“ASO”) Plans

The gain from operations from ASO uninsured plans and the uninsured portion of partially insured plans during 2016 was:

	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
a. Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	\$ (109,906)	\$ -	\$ (109,906)

c. Net gain or (loss) from operations	\$ (109,906)		\$ (109,906)
d. Total claim payment volume	\$ 3,381,714		\$ 3,381,714

B. Administrative Services Contract (“ASC”) Plans

Not applicable in December 31, 2016 and 2015.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

C. Medicare or Other Similarly Structured Cost-Based Reimbursement Contract

- (1) The Company does not record revenue explicitly attributable to the cost share and reinsurance components of administered Medicare products.
- (2) As of December 31, 2016 and 2015, the Company recorded a receivable from CMS of \$502,605 and \$432,708, respectively, related to the cost share and reinsurance components of administered Medicare products.
- (3) As no revenue is recorded in connection with the cost share and reinsurance components of the Company’s reinsurance contracts, the Company has recorded no allowances and reserves for the adjustment of recorded revenues and receivables.
- (4) The Company has made no adjustment to revenue resulting from audit of receivables related to revenues recorded in the prior period.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2016 and 2015.

20. Fair Value

A. Fair Value Measurements

- (1) Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Total
a. Assets at fair value				
Bonds				
Industrial and Misc	\$ -	\$ 250,812	\$ -	250,812
Total bonds	\$ -	\$ 250,812	\$ -	\$ 250,812
Total assets at fair value	\$ -	\$ 250,812	\$ -	\$ 250,812

- (2) There are no investments in Level 3 as of December 31, 2016 and 2015.
- (3) The Company’s policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.
- (4) Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For Securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2. The Company has certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and the future cash flow projections. Such securities are designated Level 3. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted-average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or revenue multiples that are not observable in the markets.

Certain financial assets are measured at fair value using Level 3 inputs, such as certain non-investment grade bonds and loan-backed securities or investments that are impaired during the year and recorded at fair value.

There have been no significant changes in the valuation techniques during the current period.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Simply Healthcare Plans, Inc.

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2016 and 2015.

C. Financial Instruments

Type of Financial Instrument	Aggregated Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Not Practicable (Carrying Value)

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- A. The Company's contract with CMS includes provisions for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts.
- B. The Company records accrued retrospective premium as an adjustment to earned premium.
- C. 100% of the Company's net premiums written is subject to retrospective rating features at December 31, 2016 and 2015.
- D. In accordance with the NAIC Accounting Practices and Procedures Manual, medical loss ratio rebates in accordance with the Federal 2010 Patient Protection and Affordable Care Act and Public Health Service Act, are to be reported in accordance with SSAP No. 66 - *Retrospectively Rated Contracts* ("SSAP No. 66"). A retrospectively rated contract is one that has the final policy premium calculated based on the loss experience of the insured during the term of the policy (including loss development after the term of the policy) and the stipulated formula set forth in the policy, or in the case of medical loss ratio rebates, a formula required by law. The Company based the incurred and unpaid liability amounts reported below based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date; as well as regulations and guidance available that is not final and subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory based financial statements and related footnote disclosures may differ from actual results. Hence, the amounts reported herein are for financial reporting purposes solely and not intended to be used for settlement purposes.

25. Change in Incurred Claims and Claim Adjustment Expenses

The estimated cost of claims and claim adjustment expense attributable to insured events of prior years decreased by \$10,359,050 during 2016. This is approximately 10.0% of unpaid claims and claim adjustment expenses of \$103,332,573 as of December 31, 2015. The redundancy reflects the decreases in estimated claims and claims adjustment expenses as a result of claims payment during the year, and as additional information is received regarding claims incurred prior to 2016. Recent claim development trends are also taken into account in evaluating the overall adequacy of unpaid claims and unpaid claim adjustment expense.

26. Intercompany Pooling Arrangements

Not applicable at December 31, 2016 and 2015.

27. Structured Settlements

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policy

Health premium revenues, based on membership records and premiums rates for each membership category within each county, are recognized as revenue during the period in which the Company is obligated to provide service to members. Premiums are reported net of excess loss reinsurance ceded and experience rating refunds. Premiums paid before the effective service month are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by Centers for Medicare, Medicaid Services (“CMS”) and the Florida Agency for Healthcare Administration (“AHCA”). Costs, such as premium taxes and other underwriting expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1.

Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.
2.

Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
3.

Common stocks of unaffiliated companies are stated at fair value based upon security ratings prescribed by various third-party pricing sources.
4.

The Company has no investments in preferred stocks.
5.

The Company has no mortgage loans - real estate.
6.

The Company has no investments in Loan-backed securities.
7.

10.

The Company does not anticipate investment income as a factor in the premium deficiency calculations.
11.

Unpaid claims and claims adjustment expenses include management’s best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established

NOTES TO FINANCIAL STATEMENTS

- liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.
12. The Company has not modified its capitalization policy from the prior period.
13. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of the Relationship

Annual Statement for the year 2015 of the **Simply Healthcare Plans, Inc.**

NOTES TO FINANCIAL STATEMENTS

The Company is a Florida domiciled stock insurance company and is a wholly-own subsidiary of ATH Holding Company, LLC (“ATH Holding”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded.

Simply Healthcare Plans, Inc. (“the Company”) is a for-profit health maintenance organization incorporated in the State of Florida and licensed under Chapter 641 of the Florida Statutes. The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc., (“the Parent”), a Florida corporation.

In April 2010, the Company entered into an Asset Purchase Agreement, as amended, with Total Health Choice, Inc. (“Total”), whereby certain assets and liabilities of Total were acquired by the Company and the Company assumed the Medicaid and State Child Health Improvement Program contracts of Total in the State of Florida.

In August 2011, the Company entered into a contract with Centers for Medicaid and Medicare as a Medicare Advantage provider. The Company began enrolling Medicare member effective January 1, 2012.

In February 2012, the Company under its d/b/a Clear Health Alliance (“Clear”) entered into a contract with the State of Florida to provide Medicaid benefits to members with certain chronic conditions. The first members were effective with the Company on April 1, 2012.

On April 11, 2013, the Company entered into an agreement with their affiliate, Better Health, LLC (“Better Health”), whereby both companies agreed to purchase and sell Medicaid members in different regions in the state of Florida. The purchase agreement of the Medicaid members were transferred at their respective and fair values which resulted in a payable balance of approximately \$70,000 due to Better Health.

During 2012, the Agency for Health Care Administration, the chief health policy and planning entity for the state of Florida, released information for Health Maintenance Organizations and Provider Service Networks to competitively bid for the Statewide Medicaid Managed Care (SMMC) Managed Medical Assistance (MMA) program. In 2013, the Company was awarded a five year contract in ten regions for Clear and in one region for the Company commencing May and July 2014, respectively.

On December 19, 2014, Simply Healthcare Holdings, the parent company of Simply, entered into an Agreement and Plan of Merger (“Purchase Agreement”) with a subsidiary of Anthem, Inc. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17th, 2015.

On July 24, 2015, the Company’s ultimate parent company, Anthem Inc. (“Anthem”), and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna.

The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna’s stockholders.

A. Contingent Commitments

The Company has no contingent commitments at December 31, 2015.

B. Assessments

- 1. The Company is subject to guaranty fund and other assessments by the state(s) in which it writes business. Guaranty fund assessments are accrued at the time of insolvencies. Other assessments are accrued either at the time of the assessment or at the time the losses are incurred.

The State of Florida has not issued a guaranty fund assessment, and the Company has not recorded a liability for an assessment as of December 31, 2015.

- 2. .Not applicable.

C. Gain Contingencies

The Company has no gain contingencies at December 31, 2015.

D. Claims-Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

Not applicable.

E. Joint and Several Liabilities

Not applicable.

F. All Other Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem’s information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the

Annual Statement for the year 2015 of the **Simply Healthcare Plans, Inc**

NOTES TO FINANCIAL STATEMENTS

cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2015 and 2014, the Company reported admitted assets of \$17,834,690 and \$24,977,198 respectively in premium receivables due from policyholders and agents, and receivables due from uninsured plans. The receivables are not deemed to be uncollectible, therefore, no provision for uncollectible amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

15. Leases

A. Lessee Operating Lease

1.
 - a. The Company leases office space in Tampa, Orlando, Sunrise and offices in South Florida. These leases expire at various dates through 2017. Rent expenses for the year ended December 31, 2015 and year ended December 31, 2014, totaled approximately \$2,248,000 and \$1,847,000, respectively. The Company entered into a software licensing agreement for a claims processing system, which expires in 2016. For the year ended December 31, 2015 and year ended December 31, 2014, software licensing expense totaled approximately \$3,884,000 and \$4,213,000.
 - b. The leases contain base rent escalations and, as a result, the Company records the rental expense on a straight-line basis over the life of the lease.

Annual Statement for the year 2015 of the Simply Healthcare Plans, Inc

NOTES TO FINANCIAL STATEMENTS

- c.

As of December 31, 2015 and December 31, 2014, item (c) resulted in a liability for deferred rent obligation of approximately \$211,000 and \$212,000, respectively.
2.

2020 (as seen in Notes text)	\$ 2,478,000
Total	\$ 11,470,000

3.

The Company is not involved in any material sales-leaseback transactions

B. Lessor Leases

1.

The Company has not entered into any operating leases.
2.

The Company has not entered into any leverage leases

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of investment securities. All investment securities are managed by professional investment managers within policies authorized by the board of directors. Such policies limit the amounts that may be invested in any one issuer and prescribe certain investee company criteria. As of December 31, 2015, there were no significant concentrations.

17. Sales, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable at December 31, 2015 and 2014.

B. Transfer and Servicing of Financial Assets

1– 7. Not applicable.

C. Wash Sales

1.

In the course of the Company’s asset management, securities may be sold and reacquired within 30 days of the sale date to enhance the yield on the investments.
2.

At December 31, 2015 and 2014, there were no wash sales involving securities with an NAIC designation of 3 or below or unrated.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

A. Administrative Services Only (“ASO”) Plans

Not applicable in December 31, 2015 and 2014.

Annual Statement for the year 2015 of the **Simply Healthcare Plans, Inc**

NOTES TO FINANCIAL STATEMENTS

B. Administrative Services Contract (“ASC”) Plans

Not applicable in December 31, 2015 and 2014.

C. Medicare or Other Similarly Structured Cost-Based Reimbursement Contract

Not applicable at December 31, 2015 and 2014.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2015 and 2014.

20. Fair Value Measurement

A. Fair Value Measure

1. Fair Value Measurements at Reporting Date

(1)		(2)	(3)	(4)	(5)
Description		(Level 1)	(Level 2)	(Level 3)	Total
a.	Assets at fair Value				
	None	0	0	0	0
		0	0	0	0
	Total assets at fair value	0	0	0	0
b.	Liabilities at fair value				
	None	0	0	0	0
		0	0	0	0
	Total liabilities at fair value	0	0	0	0

2. The Company does not have assets or liabilities within Level 3 fair value hierarchy.
3. The Company's policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.
4. Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States Government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For Securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2. The Company has certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and future cash flow projections. Such securities are designated Level 3. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted-average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or revenue multiples that are not observable in the markets.

There have been no significant changes in the valuation techniques during the current period.

Annual Statement for the year 2015 of the **Simply Healthcare Plans, Inc.**

NOTES TO FINANCIAL STATEMENTS

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2015 and 2014.

C. Financial Instruments

21. Other Items

A. Unusual or Infrequent Items

Not applicable at December 31, 2015 and 2014.

B. Troubled Debt Restructuring: Debtors

Not applicable at December 31, 2015 and 2014.

C. Other Disclosures

Not applicable at December 31, 2015 and 2014.

D. Business Interruption Insurance Recoveries

The Company has reported no recoveries for business interruption for the years ended December 31, 2015 and 2014.

E. State Transferable and Non-Transferable Tax Credits

The Company did not have state transferable tax credits at December 31, 2015 and 2014.

F. Subprime Mortgage-Related Risk Exposure

1. The Company’s investment strategy of providing safety and preservation of capital, sufficient liquidity to meet cash flow requirements and the attainment of a competitive after-tax investment return is supported by a well diversified portfolio consisting of many different types of investments. The portion of the Company’s investment portfolio with subprime mortgage-related risk exposure is relatively small in comparison to the overall investment portfolio, and consists of investment grade securities with no exposure to collateralized debt obligations. All mortgage related investments are monitored closely as part of the quarterly investment review performed by the Anthem Investment Impairment Review Committee.
2. The Company did not carry investments in subprime mortgage loans in its portfolio at December 31, 2015 or 2014.
3. The Company did not have subprime mortgage-related risk exposure at December 31, 2015 or 2014.

G. Retained Assets

The Company did not have any retained assets at December 31, 2015 and 2014.

22. Events Subsequent

The Company is subject to an annual fee under section 9010 of the Affordable Care Act (“ACA”). A health insurance company’s portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The Company has written health insurance subject to the ACA assessment and expects to conduct health insurance business in 2016. The Company reflected its estimated portion of the fee payable on September 30, 2016 in special surplus. The annual fee under section 9010 of the ACA has been suspended for 2017 and will resume for 2018 and beyond.

23. Reinsurance

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

1.

Are any of the reinsurers that are listed in Schedule S as non-affiliated owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

Yes () No (X)
2.

Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled, directly or indirectly, by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

Yes () No (X)

Section 2 – Ceded Reinsurance Report – Part A

1.

Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Annual Statement for the year 2015 of the **Simply Healthcare Plans, Inc**

NOTES TO FINANCIAL STATEMENTS

Yes () No (X)

3. Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued though the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same insurer, exceed the total direct premium collected under reinsured policies?

Yes () No (X)

Section 3 – Ceded Reinsurance Report – Part B

1. What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2) above of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

Not Applicable.

2. Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement include policies or contract that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

B. Uncollectible Reinsurance

The Company has no uncollectible reinsurance at December 31, 2015 and 2014.

C. Commutation of Ceded Reinsurance

The Company has not commuted ceded reinsurance during 2015 and 2014.

D. Certified Reinsurer Rating Downgraded or Status Subject Revocation

The Company has no downgraded certified reinsurer ratings or status subject revocations during 2015 and 2014.

24. Retrospectively Rated Contracts & Contracts Subject to Redetermination

- A. The Company’s contracts with CMS and AHCA include provisions for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts.
- B. The Company records accrued retrospective premium as an adjustment to earned premium.
- C. The amount of net premiums written by the Company at December 31, 2015 and 2014 that were subject to retrospective rating features was \$986,471,542 and \$835,607,654 respectively, which represents 100% and 100% of the total net premiums written. NOTES TO FINANCIAL STATEMENTS

Organization

Simply Healthcare Plans, Inc. (“the Company”) is a for-profit health maintenance organization incorporated in the State of Florida and licensed under Chapter 641 of the Florida Statutes. The Company is a wholly owned subsidiary of Simply Healthcare Holdings, Inc., (“the Parent”), a Florida corporation.

In April 2010, the Company entered into an Asset Purchase Agreement, as amended, with Total Health Choice, Inc. (“Total”), whereby certain assets and liabilities of Total were acquired by the Company and the Company assumed the Medicaid and State Child Health Improvement Program contracts of Total in the State of Florida.

In August 2011, the Company entered into a contract with Centers for Medicaid and Medicare as a Medicare Advantage provider. The Company began enrolling Medicare member effective January 1, 2012.

In February 2012, the Company under its d/b/a Clear Health Alliance (“Clear”) entered into a contract with the State of Florida to provide Medicaid benefits to members with certain chronic conditions. The first members were effective with the Company on April 1, 2012.

On April 11, 2013, the Company entered into an agreement with their affiliate, Better Health, LLC (“Better Health”), whereby both companies agreed to purchase and sell Medicaid members in different regions in the state of Florida. The purchase agreement of the Medicaid members were transferred at their respective and fair values which resulted in a payable balance of approximately \$70,000 due to Better Health.

During 2012, the Agency for Health Care Administration, the chief health policy and planning entity for the state of Florida, released information for Health Maintenance Organizations and Provider Service Networks to competitively bid for the Statewide Medicaid Managed Care (SMMC) Managed Medical Assistance (MMA) program. In 2013, the Company was awarded a five year contract in ten regions for Clear and in one region for the Company commencing May and July 2014, respectively.

On December 19, 2014, Simply Healthcare Holdings, the parent company of Simply, entered into an Agreement and Plan of Merger (“Purchase Agreement”) with a subsidiary of Anthem, Inc. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

1. Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements have been prepared in conformity with statutory accounting practices prescribed or permitted by the Florida Office of Insurance Regulation. The Florida Office of Insurance Regulation has adopted the National Association of Insurance Commissioners statutory accounting practices (NAIC SAP) as the basis of its statutory accounting practice. NAIC SAP is a comprehensive basis of accounting and differs from accounting principles generally accepted in the United States of America ("GAAP"). Prescribed statutory accounting practices include a variety of publication of the NAIC, as well as state laws, regulations and general administrative rules.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Florida is shown below:

		<u>2014</u>	<u>2013</u>

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory-basis financial statements requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities and disclosure of admitted assets and contingent liabilities at the date of the statutory-basis financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

The following is a summary of the significant accounting policies followed by the Company.

Under statutory accounting, certain assets designated as "non-admitted assets" (principally premiums over 90 days past due (excludes governmental premiums receivables), prepaid expenses, software in development, and office furniture and equipment) are charged directly to surplus. Under GAAP, the Company would be required to maintain a reserve for doubtful accounts based upon estimated collectability while office furniture and equipment would be carried on the balance sheet at cost and depreciated over its estimated useful life.

Under statutory accounting, the statement of cash flow does not provide for a reconciliation of indirect cash flows.

Under statutory accounting, a statement of comprehensive income is not provided.

Under statutory accounting, goodwill is being amortized over a 10 year period.

Under statutory accounting, unpaid claims and claims adjustment expenses are presented net of reinsurance on the statements of admitted assets, liabilities, and capital and surplus. Ceded reserves for losses and loss adjustment expenses have been reported as reductions of the related reserves rather than as assets on the balance sheets as required by GAAP.

Under statutory accounting, deferred income taxes are only recorded for federal income taxes. Such changes in the net deferred tax asset or net deferred tax liability are charged to capital and surplus. The net deferred tax asset is subject to specified limitations. Under GAAP, changes in deferred income taxes are accounted for as a component of net income.

Concentration of Credit Risk

A portion of the Company’s revenue is earned under the Company’s Medicaid contract with the Florida Agency for Healthcare Administration (“AHCA”) (representing approximately 46% and 40% of year to date revenues for the year ending December 31, 2014 and year ending December 31, 2013, respectively.) Additionally, in August 2011, the Company entered into a contract with the Centers for Medicaid and Medicare (“CMS”) as a Medicare Advantage provider. The Company began enrolling Medicare members effective January 1, 2012. The Company’s Medicare contract represents approximately 54% and 60% of revenues for the year ended December 31, 2014 and year ended December 31, 2013, respectively. The Medicaid and Medicare contracts expire on December 31, 2018 and December 31, 2014, respectively, but can be terminated at any time by AHCA or CMS with thirty days written notice. Changes in Medicare and Medicaid funding could adversely impact the Company.

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash deposits in excess of the FDIC insured limit of \$250,000. The Company generally limits exposure by placing deposits with several quality financial institutions. However, at times, such cash balances may be in excess of insured amounts.

Cash and Short-term Investments

Cash and short-term investments consist of liquid investments including certificates of deposit with maturity dates of three months or less at the date of acquisition. Cash and short-term investments are carried at cost, which approximates fair value.

Annual Statement for the year 2014 of the **Simply Healthcare Plans, Inc.**

NOTES TO FINANCIAL STATEMENTS

Letter of Credit

At December 31, 2014, the Company has an outstanding letter of credit of \$100,000 maturing December 31, 2015 and is collateralized by certain assets of the Parent.

Investment Income Due and Accrued

Investment income due and accrued includes interest due on long-term investments.

Premises and Equipment

EDP equipment and software are stated at the lower of cost less accumulated depreciation or the amount allowable as admitted assets which is limited to 3% of the Company’s capital and surplus as shown on the statutory statements of admitted assets, liabilities, capital and surplus of the Company’s most recent filed statements with the Florida Department of Financial Services. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which is generally three to five years. Gain or loss on disposition of assets, if any, is recognized currently.

Risk Adjustment Premium Receivable

Risk adjustment premium receivable is an estimate of additional revenues from CMS for retroactive changes to the member’s Medicare risk score. The additional risk payments are based on member diagnosis codes from the proceeding calendar year and are typically paid in August follow the contract year. As of December 31, 2014 and December 31, 2013, the actuary estimates the Company will receive approximately \$2,832,000 and \$2,854,000, respectively, in retroactive premiums.

Claims Adjustment Expenses

Claims adjustment expense is an estimate of costs expected to be incurred in connection with adjustment and recording of incurred but unpaid claims.

Unpaid Claims

Reserves for unpaid claims include incurred but not reported claims which are estimated using the Company's accumulated statistical data, adjusted for current experience. These estimates are continually reviewed and updated. Any resulting adjustments are reflected in current operating results.

Management believes the amounts accrued are adequate to cover claims incurred and unpaid as of December 31, 2014 and December 31, 2013, respectively.

However, as the liability for claims payable is based on estimates, the ultimate amounts paid to settle the liability may vary from recorded amounts.

Deferred Revenue

Deferred revenue represents premiums received in advance.

Premium Revenue Recognition and Premium Receivables

The Company earns premium income from contracts for regular premiums for which the Company bears the underwriting risk. Premiums are generally paid at the beginning of the coverage month and recognized as revenue at the commencement of the coverage month.

All non-government receivables outstanding are less than 90 days past due. Items greater than 90 days past due are considered non-admitted assets.

Net Investment Income Earned

Annual Statement for the year 2014 of the Simply Healthcare Plans, Inc.

NOTES TO FINANCIAL STATEMENTS

Net investment income earned is comprised of net interest income.

Income Taxes

The Company's results of operations are included in the federal consolidated tax return of Simply Healthcare Holdings, Inc. Income taxes are accounted for under the asset and liability method. Deferred income taxes are recognized, subject to statutory limitations, for temporary differences between the financial reporting basis and the income tax basis of assets and liabilities based on enacted tax laws and statutory tax rates applicable to the periods in which the temporary difference are expected to reverse. Gross deferred tax assets are first reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not that some portion of the gross deferred tax asset will not be realized.

Generally, adjusted deferred tax assets are limited to (1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse by the end of the subsequent calendar year, plus (2) the lesser of the remaining gross deferred tax assets expected to be realized within one year of the balance sheet date or 10% of capital and surplus excluding any net deferred tax assets, EDP equipment and operating software, and any net positive goodwill, plus (3) the amount of remaining gross deferred tax asset that can be offset against existing gross deferred tax liabilities. The remaining deferred tax assets are non-admitted.

As the Company is not subject to risk-based capital requirements, the determination of the applicable percentage and number of years to apply with respect to the admissibility of deferred tax assets can vary depending on the ratio of adjusted gross deferred tax assets to the adjusted capital and surplus.

On January 1, 2012, the Company adopted the provisions of a new income tax accounting standard which outlines the treatment of uncertain tax positions as well as the admissibility of deferred tax assets. The adoption of this standard did not have any effect of the Company’s financial statements on the adoption date.

2. Accounting Changes and Corrections of Errors

None

3. Business Combinations and Goodwill

As mentioned above, in April 2010, the Company agreed to acquire certain assets and assume certain liabilities of Total. The purchase price was \$6,446,000, which was calculated using the excess of the liabilities assumed over the assets acquired since the Company did not pay any cash consideration in the transaction. Release of funds contractually held for a specific period of time occurred during 2013, reducing the sales price to \$5,866,000

At December 31, 2014 and December 31, 2013, the Company had goodwill of \$3,129,000 and \$3,821,000, respectively, net of accumulated amortization of \$2,738,000 and \$2,045,000. For the year ended December 31, 2014 and year ended December 31, 2013, the Company recorded amortization expense related to goodwill of \$692,000 and \$326,000, respectively, as a change in net unrealized capital losses directly to surplus.

A letter dated August 3, 2012 from the Florida Office of Insurance Regulation asked the Company to stop admitting goodwill from future financial statement filings beginning with the June 30, 2012 quarterly financial statement. The Company has complied with this request.

(13)None

14. Contingencies

The Company is involved in various legal proceedings in the normal course of business none of which are anticipated to have a material adverse impact of the Company’s future financial results or current financial position.

Service Agreement

During March 2012, the Company entered into a service agreement with a related party through common ownership, whereby a celebrity will provide certain marketing and communications services with respect to the Company’s managed care services. As part of the agreement, the celebrity will be required to make public appearances on behalf of the Company. The agreement is for a term of five years, expiring in March 2017, and requires escalating monthly installments throughout the term. The Company is also required to reimburse the celebrity’s reasonable out of pocket expenses including travel and meal expenses. The Company is entitled to terminate the agreement, with a thirty day written notice, under certain conditions defined in the agreement.

As of December 31, 2014, future minimum payments under the service agreement for the years ending after December 31, 2014 are approximately as follows:

Type II – Nonrecognized Subsequent Events:

On January 1, 2014, the Company became subject to an annual fee under section 9010 of the Affordable Care Act (ACA). This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of the health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual becomes payable once the entity provides health insurance for an U.S. health risk for each calendar year beginning on or after January 1, 2014.

The Company adopted new accounting guidance relating to the recognition and income statement reporting of the mandated fee to be paid to the federal government by health insurers. This guidance applies to the new health insurer fee ("HIF") included in Health Care Reform. For the year ended December 31, 2014, the Company recorded approximately \$5.8 million dollars for the Company's portion of the entire estimated 2014 annual HIF. This amount is reflected under other liabilities in the statutory statements of admitted assets, liabilities and capital and surplus. Although the Company filed the appropriate documents with the IRS in April 2014, no assessment was issued. After following up with the IRS, it was determined the document was never received. The Company has confirmed no penalty is due for the late filing, but believes the IRS will impose a fee in 2015.

As of December 31, 2014, the Company has written insurance subject to the ACA assessment, expects to conduct health insurance business in 2015, and estimates their portion of the annual health insurance industry fee to be payable on September 30, 2015 to be \$9,169,000 on its portion of the Medicare business. This amount is reflected in special surplus. Reporting the ACA assessment as of December 31, 2014, would not have triggered an RBC action level. For the Medicaid business, the amount payable, \$7,872,000, is being funded as a pass through from Florida's Agency for Health Care Administration. Because the Company is not subject to Risk Based Capital under Florida Statues, it has not assessed the impact from ACA insurer fee.

Annual Statement for the year 2014 of the **Simply Healthcare Plans, Inc.**

NOTES TO FINANCIAL STATEMENTS

23. Reinsurance

The Company purchases excess liability insurance for provider claims which exceed certain deductible amounts. Under the stop loss policy, the Company is responsible for the first \$350,000 of claims for each member and has a 10% coinsurance thereafter. For the year ended December, 31, 2014, the Company had approximately \$661,000 in reinsurance recoveries. For the year ended December, 31, 2014, reinsurance experience refunds of approximately \$122,000 were received in relation to minimum loss ratio requirements. These refunds were included in premium for 2013 as a reduction of the cost of the ceded reinsurance.

The Company estimated \$17,000 and \$27,000 recoverable from reinsurers respectively for the years ended December 31, 2014 and December 31, 2013 of which \$17,000 and \$27,000 have been admitted.

Reinsurance premium reduces net premiums earned in the statutory statement of income. Recoveries for reinsurance are reported as a reduction of medical expenses for any paid losses in the period that such payment is made. During the year ended December 31, 2014 and year ended December 31, 2013, reinsurance premiums of approximately \$1,287,000 and \$927,000, respectively, are included as a reduction in net premiums earned in the accompanying statutory statements of income.

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

- (1) Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company?

Yes () No (x)

- (2) Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business?

Yes () No (x)

Section 2 – Ceded Reinsurance Report – Part A

- (1) Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayments of premium or other similar credit?

Yes () No (x)

- a. If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the reporting entity to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the reporting entity may consider the current to anticipated experience of the business reinsured in making this estimate \$ NA.

- b. What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability for these agreements in this statement? \$ NA.

- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Annual Statement for the year 2014 of the Simply Healthcare Plans, Inc

NOTES TO FINANCIAL STATEMENTS

The foregoing reconciliation reflects an inadequacy of \$3,899,106 in the December 31, 2013 unpaid claim reserves and a redundancy of \$2,450,655 in the December 31, 2012 unpaid claims reserves. The inadequacy in 2013 is primarily attributable to unfavorable claims development driven by higher than expected utilization levels while the redundancy in 2012 is primarily attributable to favorable claims development primarily driven by lower than expected utilization levels. For the year ended December 31, 2014, the total amounts incurred per reconciliation above excludes \$688,555 of a risk provider component and \$9,175,769 of other healthcare receivables, that have been recorded within accounts receivable on the Company’s accompanying statutory statements of admitted assets, liabilities, and capital and surplus. These components reduce the expenses incurred.

7 State Permitted Practices (Surplus):		-	-
8 Statutory Surplus, NAIC SAP		<u>15,213,932</u>	<u>15,817,890</u>

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policy

Health premium revenues, based on membership records and premiums rates for each membership category within each county, are recognized as revenue during the period in which the Company is obligated to provide service to members. Premiums are reported net of excess loss reinsurance ceded and experience rating refunds. Premiums paid before the effective service month are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by the Florida Agency for Healthcare Administration ("AHCA"). Costs, such as premium taxes and other underwriting expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.
- Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
- Common stocks of unaffiliated companies are stated at fair value based upon security ratings prescribed by various third-party pricing sources.
- The Company has no investments in preferred stocks.
- The Company has no mortgage loans - real estate.
- The Company has no investments in Loan-backed securities.
- The Company has no investments in subsidiaries, controlled and affiliated companies.
- The Company has no investments in joint ventures, partnerships or limited liability companies.
- The Company has no derivative instruments.
- The Company does not anticipate investment income as a factor in the premium deficiency calculations.
- Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for

NOTES TO FINANCIAL STATEMENTS

establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.

12. The Company has not modified its capitalization policy from the prior period.
13. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. All pharmaceutical rebates receivables are considered non-admitted due to their collectability beyond 90 days.

D. Going Concern

Not Applicable.

Concentration of Credit Risk

A portion of the Company's revenue is earned under the Company's Medicaid contract with the Florida Agency for Healthcare Administration ("AHCA") (representing approximately 60% and 46% of year to date revenues for the quarter ending December 31, 2015 and year ending December 31, 2014, respectively.) The Medicaid contract expires on December 31, 2018, but can be terminated at any time by AHCA with thirty days written notice. Changes in Medicaid funding could adversely impact the Company.

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash deposits in excess of the FDIC insured limit of \$250,000. The Company generally limits exposure by placing deposits with several quality financial institutions. However, at times, such cash balances may be in excess of insured amounts.

NOTES TO FINANCIAL STATEMENTS

- F. The following companies will be included in the consolidated federal income tax return with their parent Anthem, Inc. as of December 31, 2015, and either are current members of the consolidated tax sharing agreement or are in the process of being added to the consolidated tax sharing agreement. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of the Relationship

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

The Company is a Florida domiciled stock insurance company and is a wholly-owned subsidiary of ATH Holding Company, LLC ("ATH Holding"), which is an indirect wholly-owned subsidiary of Anthem, Inc. ("Anthem"), a publicly traded company.

Better Health, Inc. (the "Company") was originally formed in 2006 as Better Health, LLC. (a Limited Liability Company) and provides health insurance coverage for Florida's Medicaid recipients. Effective February 26, 2014, the Company filed a Certificate of Conversion to change its corporate structure from a Limited Liability Company to C Corporation and is currently operating as Better Health, Inc. The company became a licensed HMO in the state of Florida effective February 1, 2015.

In 2012, the Florida Agency for Health Care Administration ("AHCA") selected the Company to serve as the PSN Managing Entity (d/b/a/ "Simply Better Health") for Florida's MediPass program. As of December 31, 2013, the Company was servicing 31 rural counties with 134,000 recipients and 5,000 providers. Simply Better Health provided three administrative services: case management, utilization review and quality management. This contract sunset on July 31, 2014 with the implementation of final regions in the Florida Statewide Medicaid Managed Care - Managed Medical Assistance Program (the "MMA Program").

On April 11, 2013, the Company entered into an agreement with their affiliate, Simply Healthcare Plans, Inc. ("Simply"), whereby both companies agreed to purchase and sell Medicaid members in different regions in the state of Florida. The purchase agreement of the Medicaid members was transferred at their respective and fair values which resulted in a receivable balance of approximately \$70,000 due to the Company which is considered a non-admitted asset for purposes of these financial statements.

In January 2014, the Company entered into two contracts with AHCA to provide managed care services to Medicaid beneficiaries under the MMA Program. In connection with these contracts, the Company began providing services to beneficiaries in Regions 6 and 10 on June 1, 2014 and July 1, 2014, respectively. The Company earns premium income from these contracts and bears the underwriting risk. Premiums are generally paid at the beginning of the coverage month and recognized as revenue at the commencement of the coverage month.

Prior to the implementation of the MMA Program, the Company provided services to Medicaid beneficiaries under its PSN contract. Under the PSN contract, AHCA paid the Company 18.73% of what a Health Maintenance Organization ("HMO") would be paid for the same membership (the "Per Capita Capitation Benchmark" or "PCCB"). This per member per month fee was generally paid at the beginning of the coverage month and recognized as revenue at the commencement of the coverage month. AHCA kept the remaining 81.27% of implied premiums to pay the claims that the Company submitted on a regular, at least once a week, basis. The Company in return received a weekly Electronic Remittance Voucher (ERV) file from AHCA detailing what was paid or denied. The Company used this data to complete a monthly internal estimate of the amount of implied premium consumed by actual claims payments and estimated incurred but not reported claims. With this data, a reconciliation was completed from August through September each year that took what the Company would have received as an HMO versus what AHCA paid.

Simply Healthcare Holdings, Inc. (parent company of Better Health, Inc.) (the "Parent") entered into a merger agreement with Anthem, Inc. As a result of this merger, Anthem, Inc. acquired 100% of the stock of the Parent. During 2015 and prior to the merger, Parent acquired the 51% interest of Barbara R. Cowley, MD in Better Health, Inc. and as a result Parent wholly-owned Better Health, Inc. prior to the merger with Anthem, Inc. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

On July 24, 2015, the Company's ultimate parent company, Anthem Inc. ("Anthem"), and Cigna Corporation ("Cigna") entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna.

The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna's stockholders.

B. Significant Transactions for Each Period

The following significant transactions took place between the Company and its affiliates:

The Company received no capital contributions from its parent for the year ended December 31, 2015 and December 31, 2014.

The Company paid no dividends for the years ended December 31, 2015 and 2014.

C. Intercompany Management and Service Arrangements

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

The Company entered into a Management Services Agreement with Simply, a related party through common ownership, in which Simply provides services to administer a significant portion of Better Health's benefits and business support services. In addition, the Company is entitled to pay reimbursements for reasonable expenses incurred in furtherance of operating the Company in so much as the expenses exceed the amount of the management fee. Expenses incurred under this agreement for the periods ending September 30, 2015 and December 31, 2014 totaled approximately \$26,160,000 and \$36,493,000, respectively, are included in the caption general and administrative expenses in the accompanying statements of operations.

D. Amounts Due to or from Related Parties

At December 31, 2015 and 2014, the Company reported \$55,827 and \$380,042 due to affiliates, respectively. The payable balances represent intercompany transactions that will be settled in accordance with the settlement terms of the intercompany agreement.

E. Guarantees or Contingencies for Related Parties

The Company did not enter into guarantees or undertakings for the benefit of an affiliate which would result in a material contingent exposure of the Company's or any affiliated insurer's assets or liabilities.

F. Management and Service Contracts and Cost Sharing Arrangements

Effective January 1, 2016 the Company entered into an administrative services agreement with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The costs and expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, employee benefits, communications, advertising, consulting services, billing, accounting, underwriting, and product development, which support the Company's operations. These costs are allocated based on various utilization statistics.

G. Nature of Control Relationships that Could Affect Operations or Financial Position

The Company's ultimate parent is Anthem, Inc.

H. Amount deducted for Investment in Upstream Company

The Company does not own shares of upstream intermediate entities or Anthem.

I. Detail of Investments in Affiliates Greater than 10% of Admitted Assets

The Company does not have investment in affiliates greater than 10% of admitted assets.

J. Write-down for Impairments of Investments in Subsidiaries, Controlled or Affiliated Companies

The Company did not write-down any investments in subsidiaries, controlled or affiliated companies as of December 31, 2015 and 2014.

K. Investment in a Foreign Insurance Subsidiary

B. Not applicable – See Note 12G.

C. Not applicable – See Note 12G.

D. Not applicable – See Note 12G.

E. Defined Contribution Plan

Not applicable – See Note 12G.

F. Multiemployer Plan

The Company does not participate in a multiemployer plan.

G. Consolidated/Holding Company Plans

The Company participates in a deferred compensation plan sponsored by Anthem which covers certain employees. The deferred amounts are payable according to the terms and subject to the conditions of said deferred compensation agreements. Anthem allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees subject to the deferred compensation agreements. During 2015 and 2014, these costs totaled \$0 and \$0. The Company has no legal obligation for benefits under this plan.

The Company participates in the Anthem 401(k) Retirement Savings Plan, sponsored by ATH Holding and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. During 2015 and 2014, these costs totaled \$0 and \$0, respectively. The Company has no legal obligation for benefits under these plans.

H. Post Employment Benefits and Compensated Absences

Liabilities for earned not yet taken vacation and severance benefits have been accrued as of December 31, 2015 and 2014.

I. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

Not applicable.

13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

1. Outstanding Shares

As of December 31, 2015 the Company has 1,000 shares authorized, 1,000 issued and outstanding. All shares are Class A shares.

2. Preferred Stock

The Company has no preferred stock outstanding.

3. Dividend Restrictions

Per the Florida Statute 641.365, there are certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida DFS is required for payment of any dividend which would result in these accumulated surplus funds being less than zero. Florida DFS approval is not required if the dividend to be paid is less than the greater of 1) ten percent

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

of the Company's accumulated surplus or 2) the Company's entire net operating profit, including realized capital gains, for the immediately preceding calendar year.

4. Dividends Paid

No ordinary dividends were paid by the Company as of December 31, 2015.

5. Maximum Ordinary Dividends During 2016

Within the limitations of (3) above, the Company may pay no dividends during 2015 without prior approval.

6. Unassigned Surplus Restrictions

Unassigned surplus funds are not restricted at December 31, 2015.

7. Mutual Surplus Advances

Not applicable.

8. Company Stock Held for Special Purpose

There are no shares of stock held for special purposes at December 31, 2015.

9. Changes in Special Surplus Funds

The changes in balances of special surplus funds from the prior year are due to amounts segregated for the estimated 2016 Affordable Care Act ("ACA") health insurer fee.

10. Changes in Unassigned Funds

The portion of unassigned funds represented by cumulative unrealized gains and losses was \$0 at December 31, 2015.

11. Surplus Notes

The Company received the following surplus debentures or similar obligations:

Date Issued	Interest Rate	Par Value (Face Amount of Notes)	Carrying Value of Note	Interest And/Or Principal Paid Current Year	Total Interest And/Or Principal Paid	Unapproved Interest And/Or Principal	Date of Maturity
12/20/2012	8%	2,500,000	2,500,000	-	-	606,028	12/31/2015
12/31/2012	8%	2,500,000	2,500,000	-	-	600,000	12/31/2015
02/25/2013	8%	5,000,000	5,000,000	-	-	1,252,493	12/31/2015
	Total	10,000,000	10,000,000			2,458,521	

As of December 3, 2015, the Company had entered into promissory surplus notes to related parties totaling \$10,500,000. The notes bear interest at the rate of 8% per annum, however, in accordance with statutory accounting principles set forth in SSAP No. 41 interest shall not be recorded as a liability or an expense until such interest has been approved by the Office of Insurance Regulation for payment.

As of December 31, 2015 and December 31, 2014, the Company did not seek nor did the Office of Insurance Regulation approve any interest payments. As of December 31, 2015 and December 31, 2014, the "unapproved" cumulative interest relating to the surplus notes is approximately \$2,249,000 and \$1,619,000, respectively.

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

Payment of principal and interest on the surplus notes are subordinated to claims of all policyholders, creditors, and other liabilities of the Company.

12. Restatement due to Prior Quasi-reorganization

The Company has no restatements due to prior quasi-reorganizations.

13. Quasi-reorganization over Prior 10 years

The Company has not been involved in a quasi-reorganization during the past 10 years.

14. Contingencies

A. Contingent Commitments

The Company has no contingent commitments at December 31, 2015.

B. Assessments

1. The Company is subject to guaranty fund and other assessments by the state(s) in which it writes business. Guaranty fund assessments are accrued at the time of insolvencies. Other assessments are accrued either at the time of the assessment or at the time the losses are incurred.

The State of Florida has not issued a guaranty fund assessment, and the Company has not recorded a liability for an assessment as of December 31, 2015.

2. .Not applicable.

C. Gain Contingencies

The Company has no gain contingencies at December 31, 2015.

D. Claims-Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

Not applicable.

E. Joint and Several Liabilities

Not applicable.

F. All Other Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2015 and 2014, the Company reported admitted assets of \$4,949,421 and \$17,354,572 respectively in premium receivables due from policyholders and agents, other receivables and receivables due from uninsured plans. The receivables are not deemed to be uncollectible, therefore, no provision for uncollectible amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

15. Leases

A. Lessee Operating Lease

1. The Company did not have any operating leases at December 31, 2015.
2. Not applicable at December 31, 2015.
3. The Company is not involved in any material sales-leaseback transactions at December 31, 2015.

B. Lessor Leases

1. The Company has not entered into any operating leases.
2. The Company has not entered into any leverage leases

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of investment securities. All investment securities are managed by professional investment managers within policies authorized by the board of directors. Such policies limit the amounts that may be invested in any one issuer and prescribe certain investee company criteria. As of December 31, 2015, there were no significant concentrations.

17. Sales, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

Not applicable at December 31, 2015 and 2014.

B. Transfer and Servicing of Financial Assets

1– 7. Not applicable.

C. Wash Sales

1. In the course of the Company's asset management, securities may be sold and reacquired within 30 days of the sale date to enhance the yield on the investments.
2. At December 31, 2015 and 2014, there were no wash sales involving securities with an NAIC designation of 3 or below or unrated.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

A. Administrative Services Only ("ASO") Plans

Not applicable in December 31, 2015 and 2014.

B. Administrative Services Contract ("ASC") Plans

Not applicable in December 31, 2015 and 2014.

C. Medicare or Other Similarly Structured Cost-Based Reimbursement Contract

Not applicable at December 31, 2015 and 2014.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2015 and 2014.

20. Fair Value Measurement

A. Fair Value Measure

1. Fair Value Measurements at Reporting Date

(1)		(2)	(3)	(4)	(5)
Description		(Level 1)	(Level 2)	(Level 3)	Total
a. Assets at fair Value					
None		0	0	0	0
		\$ 0	0	0	0
Total assets at fair value		\$ 0	0	0	0
b. Liabilities at fair value					
None		0	0	0	0
		0	0	0	0
Total liabilities at fair value		\$ 0	0	0	0

2. The Company does not have assets or liabilities within Level 3 fair value hierarchy.
3. The Company's policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.
4. Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States Government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For Securities

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2. The Company has certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and future cash flow projections. Such securities are designated Level 3. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted-average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or revenue multiples that are not observable in the markets.

There have been no significant changes in the valuation techniques during the current period.

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2015 and 2014.

C. Financial Instruments

Not applicable at December 31, 2015

D. Not Practicable to Estimate Fair Value

The Company does not have assets or liabilities that are not practicable to estimate fair value.

21. Other Items

A. Unusual or Infrequent Items

Not applicable at December 31, 2015 and 2014.

B. Troubled Debt Restructuring: Debtors

Not applicable at December 31, 2015 and 2014.

C. Other Disclosures

Not applicable at December 31, 2015 and 2014.

D. Business Interruption Insurance Recoveries

The Company has reported no recoveries for business interruption for the years ended December 31, 2015 and 2014.

E. State Transferable and Non-Transferable Tax Credits

The Company did not have state transferable tax credits at December 31, 2015 and 2014.

F. Subprime Mortgage-Related Risk Exposure

1. The Company's investment strategy of providing safety and preservation of capital, sufficient liquidity to meet cash flow requirements and the attainment of a competitive after-tax investment return is supported by a well diversified portfolio consisting of many different types of investments. The portion of the Company's investment portfolio with subprime mortgage-related risk exposure is relatively small in comparison to the overall investment portfolio, and consists of investment grade securities with no exposure to collateralized debt obligations. All mortgage related investments are monitored closely as part of the quarterly investment review performed by the Anthem Investment Impairment Review Committee.

Annual Statement for the year 2015 of the Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

2. The Company did not carry investments in subprime mortgage loans in its portfolio at December 31, 2015 or 2014.
3. The Company did not have subprime mortgage-related risk exposure at December 31, 2015 or 2014.
4. The Company did not underwrite Mortgage Guaranty or Financial Guaranty insurance coverage at December 31, 2015.

G. Retained Assets

The Company did not have any retained assets at December 31, 2015 and 2014.

22. Events Subsequent

The Company is subject to an annual fee under section 9010 of the Affordable Care Act ("ACA"). A health insurance company's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The Company has written health insurance subject to the ACA assessment and expects to conduct health insurance business in 2016. The Company reflected its estimated portion of the fee payable on September 30, 2016 in special surplus. The annual fee under section 9010 of the ACA has been suspended for 2017 and will resume for 2018 and beyond.

3. Roll-forward of prior year ACA risk-sharing provisions for the following asset (gross of any nonadmission) and liability balances, along with the reasons for adjustments to prior year balance.

Not applicable.

25. Change in Incurred Claims and Claims Adjustment Expenses

The estimated cost of claims and claim adjustment expense attributable to insured events of prior years decreased by \$429,860 during 2015. This is approximately 1.6% of unpaid claims and claim adjustment expense of \$26,510,146 as of December 31, 2014. The surplus reflects the decreases in estimated claims expenses as a result of claim payments during the year, and as additional information is received regarding claims incurred prior to 2015. Recent claim development trends are also taken into account in evaluating the overall adequacy of unpaid claims and claim adjustment expense.

26. Intercompany Pooling Arrangements

Not applicable at December 31, 2015 and 2014.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Better Health, Inc. (the “Company”) have been prepared in conformity with the National Association of Insurance Commissioners’ (“NAIC”) *Annual Statement Instructions* and in accordance with accounting practices prescribed by the NAIC *Accounting Practices and Procedures Manual* (“NAIC SAP”), subject to any deviations prescribed or permitted by the Florida Office of Insurance Regulation (“Florida OIR”).

The Florida OIR state prescribed practice does not allow parent and affiliate receivables to be admitted assets. A reconciliation of the Company’s net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the Florida OIR is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policies

Health premiums are recognized as income over the premium paying period of the related policies. Deposits on deposit-type contracts are recorded directly as a liability when received. Health premiums are earned over the term of the related insurance policies and reinsurance contracts. Premiums written are reported net of excess loss reinsurance ceded and experience rating refunds. Unearned premium reserves are established to cover the

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.

NOTES TO FINANCIAL STATEMENTS

unexpired portion of premiums written, and are computed by pro rata methods for direct business and based on reports received from ceding companies for reinsurance. Premiums paid by subscribers prior to the effective date are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates for certain lines of business are subject to approval by the Florida OIR. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. All other costs, such as premium taxes and other underwriting expenses, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.
- (2) Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
- (3) The Company has no investments in common stocks of unaffiliated companies.
- (4) The Company has no investments in preferred stocks.
- (5) The Company has no mortgage loans - real estate.
- (6) The Company has no loan-backed securities.
- (7) The Company has no investments in subsidiaries, controlled and affiliated companies.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company has no derivative instruments.
- (10) The Company does not anticipate investment income as a factor in premium deficiency calculations.
- (11) Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms.

NOTES TO FINANCIAL STATEMENTS

- F. The following companies will be included in the consolidated federal income tax return with their parent Anthem, Inc. as of December 31, 2016 and either are current members of the consolidated tax sharing agreement or are in the process of being added to the consolidated tax sharing agreement. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of the Relationship

The Company is a Florida domiciled stock insurance company and is a wholly-owned subsidiary of Simply Healthcare Holdings, Inc., which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company.

During 2015, Simply Healthcare Holdings, Inc. (parent company of Better Health, Inc.) (the “Parent”) entered into a merger agreement with Anthem, Inc. As a result of this merger, Anthem, Inc. acquired 100% of the stock of the Parent. During 2015 and prior to the merger, Parent acquired the 51% interest of Barbara R. Cowley, MD in Better Health, Inc. and as a result Parent wholly-owned Better Health, Inc. prior to the merger with Anthem, Inc. Based on receipt of all federal and state regulatory approvals, the acquisition was finalized and closed on February 17, 2015.

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court’s ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna’s allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem’s motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

B. Significant Transactions for Each Period

The Company received no capital contributions from its parent for the year ended December 31, 2016 and December 31, 2015. The Company paid no dividends to its Parent in 2016 and 2015.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

C. Intercompany Management and Service Arrangements

There were no changes to the intercompany management and service arrangements, and there were no additional arrangements entered into during 2015. Effective January 1, 2016, the Company entered into the Anthem, Inc. Master Services agreement. The amounts of transactions under such agreements are presented in Schedule Y, Part 2.

D. Amounts Due to or from Related Parties

At December 31, 2016 and 2015, the Company reported \$909,401 and \$55,827 due to affiliates, and \$5,364 and \$131,531 due from affiliates, respectively. The payable and receivable balances represent intercompany transactions that will be settled in accordance with the settlement terms of the intercompany agreement.

E. Guarantees or Contingencies for Related Parties

The Company did not enter into guarantees or undertakings for the benefit of an affiliate which would result in a material contingent exposure of the Company's or any affiliated insurer's assets or liabilities.

F. Management and Service Contracts and Cost Sharing Arrangements

The Company has entered into administrative services agreements with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The costs and expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, employee benefits, communications, advertising, consulting services, rent, utilities, billing, accounting, underwriting, and product development, which support the Company's operations. These costs are allocated based on various utilization statistics.

The Company is party to a cash concentration agreement with its affiliated companies. Under this agreement, any of the Company's affiliates may be designated as a cash manager to handle the collection and/or payment of funds on behalf of the Company. Conversely, the Company may be designated as a cash manager to handle the collection and/or payment of funds on behalf of its affiliates. Cash services covered under this agreement include the collection of premiums and other revenue, the collection of benefit and administrative expense reimbursements, the payment of policy benefits, payroll expense, general and administrative expense, and accounts payable disbursements.

G. Nature of Control Relationships that Could Affect Operations or Financial Position

F. Multiemployer Plans

The Company does not participate in a multiemployer plan.

G. Consolidated/Holding Company Plans

The Company participates in the Anthem 401(k) Retirement Savings Plan, a defined contribution plan, sponsored by ATH Holding and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. The Company has no legal obligation for benefits under this plan.

During 2016 and 2015, the Company was allocated the following costs or (credits) for these retirement benefits:

	2016	2015
Defined contribution plan	\$ 372,937	\$ -

During 2015, the Company participated in a defined contribution plan created prior to the February 17, 2015 acquisition of Better Healthcare by Anthem. No Company-matched amounts were contributed to the plan. Beginning on January 1, 2016, that defined contribution plan merged into the Anthem 401(k) Retirement Savings Plan, a defined contribution plan sponsored by ATH Holding Company, LLC ("ATH Holding") and covering substantially all employees. Voluntary employee contributions are matched by ATH Holding subject to certain limitations. ATH Holding allocates a share of the total accumulated costs of this plan to the Company based on the number of allocated employees. The Company has no legal obligation for benefits under this plan.

(2) Preferred Stock

The Company has no preferred stock outstanding.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

(3) Dividend Restrictions

Per the Florida Statute 641.365, there are certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida DFS is required for payment of any dividend which would result in these accumulated surplus funds being less than zero. Florida DFS approval is not required if the dividend to be paid is less than the greater of 1) ten percent of the Company's accumulated surplus or 2) the Company's entire net operating profit, including realized capital gains, for the immediately preceding calendar year.

(4) Dividends Paid

No ordinary dividends were paid by the Company as of December 31, 2016.

(5) Maximum Ordinary Dividend During 2017

(7) Mutual Surplus Advances

Not applicable.

(8) Company Stock Held for Special Purpose

There are no shares of stock held for special purposes at December 31, 2016.

(9) Changes in Special Surplus Funds

The change in balances of special surplus funds from the prior year is due to changes in the amounts segregated for the estimated Affordable Care Act ("ACA") health insurer fee. The annual fee under section 9010 of the ACA has been suspended for 2017; therefore no surplus has been segregated as of December 31, 2016.

(10) Changes in Unassigned Funds

There was no portion of unassigned funds represented by cumulative unrealized gains and losses at December 31, 2016.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

11) Surplus Notes

The Company has surplus note principal outstanding at December 31, 2016 and 2015 in the amount of \$10,500,000 and \$10,500,000, respectively. A summary is as follows:

Date Issued	Interest Rate	Par Value	Carrying Value of Note	Interest Paid Current Year	Total Interest Paid	Unapproved Interest Expense	Accrued Interest	Date of Maturity
12/20/2012	8%	\$ 2,500,000	\$ 2,500,000	\$ -	\$ -	\$ 806,575	\$ -	-
12/31/2012	8%	2,500,000	2,500,000	-	-	800,548	-	-
12/25/2013	8%	5,500,000	5,500,000	-	-	1,693,699	-	-
Total		\$10,500,000	\$10,500,000	\$ -	\$ -	\$3,300,822	\$ -	

As of December 3, 2016, the Company had entered into promissory surplus notes to related parties totaling \$10,500,000. The notes bear interest at the rate of 8% per annum, however, in accordance with statutory accounting principles set forth in SSAP No. 41 interest shall not be recorded as a liability or an expense until such interest has been approved by the Florida OIR.

Any payment of interest and repayment of surplus note principal may be paid only out of the Company's earnings, subject to approval by the Florida OIR. Interest expense on surplus notes not yet approved by the Florida OIR and thus not recorded was \$3,300,822 and \$2,248,520 at both December 31, 2016 and 2015. Surplus note interest expense is reported within net investment income in the Company's statements of income.

(12) Restatement due to Prior Quasi-reorganizations

The Company had no restatements due to prior quasi-reorganizations.

(13) Quasi-reorganizations over Prior 10 Years

The Company has not been involved in a quasi-reorganization during the past 10 years.

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

The Company had no contingent commitments at December 31, 2016.

B. Assessments

(1) The Company is subject to guaranty fund and other assessments by the state(s) in which it writes business. Guaranty fund assessments are accrued at the time of insolvencies. Other assessments are accrued either at the time of the assessment or at the time the losses are incurred.

The State of Florida has not issued a guaranty fund assessment, and the Company has not recorded a liability for an assessment as of December 31, 2016 or 2015.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

(2) Not applicable.

C. Gain Contingencies

The Company has no gain contingencies at December 31, 2016.

D. Claims-Related Extra Contractual Obligation and the Bad Faith Losses Stemming From Lawsuits

Not applicable.

E. Joint and Several Liabilities

Not applicable.

F. All Other Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the

Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$3,167,576 and \$4,017,140, respectively, in premium receivables due from policyholders and agents and receivables due from uninsured plans. Based upon Company experience, any uncollectible receivables are not expected to exceed \$0 that was nonadmitted at December 31, 2016; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

15. Leases

A. Lessee Operating Lease

The Company has no lessee leasing arrangements.

B. Lessor Leases

(1) The Company has not entered into any operating leases.

(2) The Company has not entered into any leveraged leases.

16. Information About Financial Instruments With Off-Balance Sheet Risk and Financial Instruments With Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of investment securities. All investment securities are managed by

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2016 and 2015.

20. Fair Value Measurements

A.

(1) Fair Value Measurements at Reporting Date

There are no assets or liabilities measures at fair value as of December 31, 2016 and 2015.

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

There are no investments in Level 3 as of December 31, 2016 and 2015.

(3) The Company's policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.

(4) Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For Securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2. The Company has certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and the future cash flow projections. Such securities are designated Level 3. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted-average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or revenue multiples that are not observable in the markets.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

Certain financial assets are measured at fair value using Level 3 inputs, such as certain non-investment grade bonds and loan-backed securities or investments that are impaired during the year and recorded at fair value.

There have been no significant changes in the valuation techniques during the current period.

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2016 and 2015.

C. Financial Instruments

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Not Practicable (Carrying Value)

D. Not Practicable to Estimate Fair Value

There are no financial instruments that were not practicable to estimate fair value.

21. Other Items

A. Unusual or Infrequent Items

The State of Florida, Agency for Health Care Administration (“AHCA”), informed the Company on June 7, 2016 of a pricing error related to the State Fiscal Year 2015-2016 contract. AHCA indicated it underpaid the Company due to a mismatch of rates. Related to this, the Company received and recognized cash and premiums of \$3,685,868 from AHCA during 2016 related to 2015. Not applicable at December 31, 2015.

B. Troubled Debt Restructuring; Debtors

Not applicable at December 31, 2016 and 2015.

C. Other Disclosures

Not applicable at December 31, 2016 and 2015.

D. Business Interruption Insurance Recoveries

The Company has reported no recoveries for business interruption for the years ended December 31, 2016 and 2015.

E. State Transferable and Non-Transferable Tax Credits

The Company did not have state transferable tax credits at December 31, 2016 and 2015.

F. Subprime Mortgage-Related Risk Exposure

(1) The Company's investment strategy of providing safety and preservation of capital, sufficient liquidity to meet cash flow requirements and the attainment of a competitive after-tax investment return is supported by a well diversified portfolio consisting of many different types of investments. The portion of the Company's investment portfolio with subprime mortgage-related risk exposure is relatively small in comparison to the overall investment portfolio, and consists mainly of investment grade securities with no exposure to collateralized debt obligations. All mortgage related investments are monitored closely as part of the quarterly investment review performed by the Anthem Investment Impairment Review Committee.

(2) The Company did not carry investments in subprime mortgage loans in its portfolio at December 31, 2016 or 2015.

(3) The Company did not have subprime mortgage-related risk exposure at December 31, 2016 or 2015.

(4) The Company did not underwrite Mortgage Guaranty or Financial Guaranty insurance coverage at December 31, 2016 or 2015.

G. Retained Assets

The Company does not have retained assets at December 31, 2016 and 2015.

22. Events Subsequent

ACA entities with assessable premium:

The Company is subject to an annual fee under section 9010 of the ACA. A health insurance company's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The annual fee under section 9010 of the ACA has been suspended for 2017 and will resume for 2018 and beyond.

Yes () No (X)

If yes, give full details.

- (2) Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled, directly or indirectly, by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

Yes () No (X)

If yes, give full details.

Section 2 - Ceded Reinsurance Report - Part A

- (1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Yes () No (X)

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

If yes, give full details.

- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Yes () No (X)

If yes, give full details.

Section 3 - Ceded Reinsurance Report - Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

\$0

- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

B. Uncollectible Reinsurance

The Company has no uncollectible reinsurance at December 31, 2016 and 2015.

C. Commutation of Ceded Reinsurance

The Company has not commuted ceded reinsurance during 2016 and 2015.

D. Certified Reinsurer Rating Downgraded or Status Subject Revocation

The Company has no downgraded certified reinsurer ratings or status subject to revocations during 2016 and 2015.

24. Retrospectively Rated Contracts & Contracts Subject to Redetermination

- A. The Company sells accident and health policies for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Better Health, Inc.
NOTES TO FINANCIAL STATEMENTS

- B. The Company records accrued retrospective premium as an adjustment to earned premium.
- C. 100% of the Company's net premiums written are subject to retrospective rating features at December 31, 2016 and 2015.
- D. Not applicable.
- E. Risk-Sharing Provisions of the Affordable Care Act ("ACA")

- Not applicable.
- (4) Roll-forward of Risk Corridors Asset and Liability Balances by Program Benefit Year.
- Not applicable.
- (5) ACA Risk Corridors Receivable as of Reporting Date.
- Not applicable.

25. Change in Incurred Claims and Claim Adjustment Expenses

The estimated cost of claims and claim adjustment expense attributable to insured events of prior years decreased by \$5,738,930 during 2016. This is approximately 16.5% of unpaid claims and claim adjustment expenses of \$34,877,404 as of December 31, 2015. The redundancy reflects the decreases in estimated claims and claims adjustment expenses as a result of claims payment during the year, and as additional information is received regarding claims incurred prior to 2016. Recent claim development trends are also taken into account in evaluating the overall adequacy of unpaid claims and unpaid claim adjustment expense.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of AMERIGROUP Florida, Inc. (the "Company") have been prepared in conformity with the National Association of Insurance Commissioners' ("NAIC") *Annual Statement Instructions* and in accordance with accounting practices prescribed by the NAIC *Accounting Practice and Procedures Manual* ("NAIC SAP"), subject to any deviations prescribed or permitted by the Florida Office of Insurance Regulation ("Florida OIR").

The Florida OIR state prescribed practice does not allow parent and affiliate receivables to be admitted assets. A reconciliation of the Company's net loss and capital and surplus between NAIC SAP and practices prescribed and permitted by the Florida OIR is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policies

Health premium revenues, based on membership records and premiums rates for each membership category within each county, are recognized as revenue during the period in which the Company is obligated to provide service to members. Premiums are reported net of excess loss reinsurance ceded and experience rating refunds. Premiums paid before the effective service month are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by State Medicaid agencies and the Centers for Medicare and Medicaid Services ("CMS"). Costs, such as premium taxes and other underwriting expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.
- (2) Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
- (3) The Company has no investments in common stocks of unaffiliated companies.
- (4) The Company has no investments in preferred stock.
- (5) The Company has no mortgage loans - real estate.
- (6) Loan-backed securities are stated at amortized cost. Pre-payment assumptions for loan-backed securities and structured securities are obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade loan-backed securities are stated at the lower of amortized cost or fair value.
- (7) The Company has no investments in subsidiaries, controlled and affiliated companies.
- (8) The Company has no investments in joint ventures, partnerships and limited liability companies.
- (9) The Company has no derivatives instruments.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

- (10) The Company does not anticipate investment income as a factor in premium deficiency calculation.
- (11) Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms.

10. Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

A. Nature of the Relationship

The Company is a Florida owned domiciled stock insurance company and is a wholly-owned subsidiary of PHP Holding, Inc, which is own by AMERIGROUP Corporation (“AGP”). AGP is a wholly-own subsidiary of ATH Holding Company, LLC (“ATH Holding”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company owning 100% of the outstanding shares of the Physicians Healthcare Plan Holding, Inc. (PHP Holdings, Inc.).

On July 24, 2015, the Company’s ultimate parent company, Anthem, and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna, or the Acquisition. On

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

July 21, 2016, the U.S. Department of Justice, or DOJ, along with certain state attorneys general, filed a civil antitrust lawsuit in the U.S. District Court for the District of Columbia seeking to block the Acquisition. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. On January 18, 2017, Anthem provided notice to Cigna that Anthem had elected to extend the termination date under the Merger Agreement from January 31, 2017 until April 30, 2017. Following the conclusion of the trial, the Court ruled in favor of the DOJ, on February 8, 2017, and Anthem promptly filed notice that Anthem would appeal the Court's ruling. On February 14, 2017, Cigna purported to terminate the Merger Agreement and commenced litigation against Anthem in the Delaware Court of Chancery, or Delaware Court, seeking damages and a declaratory judgment that its purported termination of the Merger Agreement was lawful, among other claims. Anthem believes Cigna's allegations are without merit. Also on February 14, 2017, Anthem initiated its own litigation against Cigna in the Delaware Court seeking a temporary restraining order to enjoin Cigna from terminating the Merger Agreement, specific performance compelling Cigna to comply with the Merger Agreement and damages. On February 15, 2017, the Delaware Court granted Anthem's motion for a temporary restraining order and issued an order enjoining Cigna from terminating the Merger Agreement. The temporary restraining order became effective immediately and will remain in place pending any further order from the Delaware Court. Anthem intends to vigorously defend the Acquisition in both the Circuit Court and the Delaware Court and remains committed to completing the Acquisition as soon as practicable.

13. Capital and Surplus, Shareholder's Dividend Restrictions and Quasi-Reorganizations

(1) Outstanding Shares

As of December 31, 2016, the Company has 1,000 shares of \$1 par value common stock authorized. The number of shares issued and outstanding is 100.

(2) Preferred Stock

The Company has no preferred stock outstanding.

(3) Dividend Restrictions

Per the *Florida Statute 641.365*, there are certain limitations exist on the Company's ability to pay dividends to its parent. The Company may pay funds only from accumulated surplus funds that were derived from realized net operating profits on its business and net realized capital gains. Prior written approval by the Florida DFS is required for payment of any dividend which would result in these accumulated surplus funds being less than zero. Florida DFS approval is not required if the dividend to be paid is less than the greater of 1) ten percent of the Company's accumulated surplus or 2) the Company's entire net operating profit, including realized capital gains, for the immediately preceding calendar year.

(4) Dividends Paid

See Footnote 10B.

(5) Maximum Ordinary Dividends During 2017

Within the limitations of (3) above, the Company may pay \$594,459 in dividends during 2017 without prior approval.

(6) Unassigned Surplus Restrictions

Unassigned surplus funds are not restricted at December 31, 2016.

(7) Mutual Surplus Advances

Not applicable.

(8) Company Stock Held for Special Purpose

There are no shares of stock held for special purposes at December 31, 2016.

(9) Changes in Special Surplus Funds

The changes in balances of special surplus funds from the prior year are due to changes in the amounts segregated for the estimated Affordable Care Act ("ACA") health insurer fee. The annual fee under section 9010 of the ACA has been suspended for 2017, therefore no surplus has been segregated as of December 31, 2016.

(10) Changes in Unassigned Funds

The portion of unassigned funds represented by cumulative unrealized gains and losses was (\$41,424) at December 31, 2016.

(11) Surplus Notes

The Company has not issued any surplus notes or debentures of similar obligations.

(12) Restatement due to Prior Quasi-reorganization

The Company has no restatements due to prior quasi-reorganizations.

(13) Quasi-reorganization over Prior 10 years

The Company has not been involved in a quasi-reorganization during the past 10 years.

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

The Company has no contingent commitments at December 31, 2016.

B. Assessments

1. The Company is subject to guaranty fund and other assessments by the state(s) in which it writes business. Guaranty fund assessments are accrued at the time of insolvencies. Other assessments are accrued either at the time of the assessment or at the time the losses are incurred.

The State of Florida has not issued a guaranty fund assessment, and the Company has not recorded a liability for an assessment as of December 31, 2016 or 2015.

2. Not applicable.

C. Gain Contingencies

The Company has no gain contingencies at December 31, 2016.

D. Claims-Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

Not applicable.

E. Joint and Several Liabilities

Not applicable.

F. All Other Contingencies

In March 2016, Anthem filed a lawsuit against its vendor for pharmacy benefit management ("PBM") services, captioned Anthem, Inc. v. Express Scripts, Inc., in the U.S. District Court for the Southern District of New York. The lawsuit seeks to recover damages for pharmacy pricing that is higher than competitive benchmark pricing, damages related to operational breaches and seeks various declarations under the PBM agreement between the parties. Anthem's suit asserts that Express Scripts, Inc.'s ("Express Scripts") current pricing exceeds the competitive benchmark pricing required by the PBM agreement over the remaining term of the PBM agreement and through the post-termination transition period. Further, Anthem believes that Express Scripts' excessive pricing has caused Anthem to lose existing customers and prevented the Company from gaining new business. In addition to the amounts associated with competitive benchmark pricing, Anthem is seeking damages associated with operational breaches incurred to date, together with a declaratory judgment that Express Scripts: (1) breached its obligation to negotiate in good faith and to agree in writing to new pricing terms; (2) is required to provide competitive benchmark pricing to Anthem through the term of the PBM agreement; (3) has breached the PBM agreement, and that Anthem can terminate the PBM agreement either due to Express Scripts' breaches or because Anthem has determined that Express Scripts' performance with respect to the delegated Medicare Part D functions has been unsatisfactory; and (4) is required under the PBM agreement to provide post-termination services, at competitive benchmark pricing, for one year following any termination. In April 2016, Express Scripts filed an answer to the lawsuit disputing Anthem's contractual claims and alleging various defenses and counterclaims. Express Scripts contends that Anthem breached the PBM agreement by failing to negotiate proposed new pricing terms in good faith and that Anthem breached the implied covenant of good faith and fair dealing by disregarding the terms of the transaction. In addition, Express Scripts is seeking declaratory judgments: (1) regarding the timing of the periodic pricing review under the PBM agreement; (2) that it has no obligation to ensure that Anthem receives any specific level of pricing, that Anthem has no contractual right to any change in pricing under the PBM agreement and that its sole obligation is to negotiate proposed pricing terms in good faith; and (3) that Anthem does not have the right to terminate the PBM agreement. In the alternative, Express Scripts claims that Anthem has been unjustly enriched by its payment of \$4.675 billion at the time of the PBM agreement. Anthem believes that Express Scripts' defenses and counterclaims are without merit. Anthem filed a motion to dismiss Express Script's counterclaims, which is pending. Anthem intends to vigorously pursue these claims and defend against any counterclaims; however, the ultimate outcome cannot be presently determined.

Anthem and Express Scripts were also named as defendants in a purported class action lawsuit filed in June 2016 in the Southern District of New York by three members of ERISA plans alleging ERISA violations captioned Karen Burnett, Brendan Farrell, and Robert Shullich, individually and on behalf of all others similarly situated vs. Express Scripts, Inc. and Anthem, Inc. The lawsuit was then consolidated with a similar lawsuit that was previously filed against Express Scripts. A first amended consolidated complaint was filed in the consolidated lawsuit, which is captioned In Re Express Scripts/Anthem ERISA Litigation. The first amended consolidated complaint was filed by six individual plaintiffs against Anthem and Express Scripts on behalf of all persons who are participants in or beneficiaries of any ERISA or non-ERISA health care plan from December 1, 2009 to the present in which Anthem provided prescription drug benefits through a PBM agreement with Express Scripts and who paid a

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

percentage bases on co-insurance payment in the course of using that prescription drug benefit. As to the ERISA members, the plaintiffs allege that Anthem breached its duties under ERISA (i) by failing to adequately monitor Express Scripts' pricing under the PBM agreement and (ii) by trading off the best interests of Anthem insureds for its own pecuniary interest by allegedly agreeing to higher pricing in the PBM agreement in exchange for the \$4.675 billion purchase price for Anthem's NextRX PBM business. As to the non-ERISA members, the plaintiffs assert that Anthem breached the implied covenant of good faith and fair dealing implied in the health plans under which the non-ERISA members are covered by (i) negotiating and entering into the PBM agreement with Express Scripts that was detrimental to the interests of the such non-ERISA members, (ii) failing to adequately monitor the activities of Express Scripts, including failing to timely monitor and correct the prices charged by Express Scripts for prescription medications, and (iii) acting in Anthem's self-interests instead of the interests of the non-ERISA members when it accepted the \$4.675 billion purchase price for NextRx. Plaintiffs seek to hold Anthem and Express Scripts jointly and severally liable and to recover all losses suffered by the proposed class, equitable relief, disgorgement of alleged ill-gotten gains, injunctive relief, attorney's fees and costs and interest. Anthem filed a motion to dismiss all of the claims brought against Anthem, which is pending. Express Scripts filed a motion to transfer the case to a federal court in Missouri and Anthem intends to oppose this transfer. Anthem intends to vigorously defend this suit; however, its ultimate outcome cannot be presently determined.

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has continued to implement security enhancements since this incident. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. Federal and state agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. The NAIC's multistate targeted market conduct and financial exam was concluded in December 2016. As part of the resolution, the NAIC asked and Anthem has agreed to provide a customized credit protection program functionally equivalent to a credit freeze for minors who were under the age of 18 on January 27, 2015. No fines or penalties were issued. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and on its results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its case management order in September 2015. Anthem filed a motion to dismiss ten of the counts that are before the U.S. District Court. In February 2016, the court issued an order granting in part and denying in part our motion, dismissing three counts with prejudice, four counts without prejudice and allowing three counts to proceed. Plaintiffs filed a second amended complaint in March 2016, and Anthem subsequently filed a second motion to dismiss. In May 2016, the court issued an order granting in part and denying in part our motion, dismissing one count with prejudice, dismissing certain counts asserted by specific named plaintiffs with or without prejudice depending on their individualized facts, and allowing the remaining counts to proceed. In July 2016, plaintiffs filed a third amended complaint, which Anthem answered in August 2016. Fact discovery was completed in December 2016. There remain two state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits and reviews and administrative proceedings include routine and special investigations by state

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on The Company's business operations. The Company believes that any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2016 and 2015, the Company reported admitted assets of \$20,931,842 and \$7,252,804, respectively, in premium receivables due from policyholders and agents and receivables due from uninsured plans. Based upon Company experience, any uncollectible premium receivables and uncollectible receivables are not expected to exceed \$0 that was nonadmitted at December 31, 2016; therefore, no additional provision for uncollectible amounts has been recorded. The potential for any additional loss is not believed to be material to the Company's financial operations.

15. Leases

A. Lessee Operating Lease

- (1) The Company leases office space, office equipment, EDP equipment, software under various noncancelable operating leases. Related lease expense for 2016 and 2015 was \$3,115,343 and \$2,564,331, respectively.
- (2) At January 1, 2017, the minimum aggregate rental commitments are as follows:

Year Ending December 31	Operating Leases
2017	\$ 1,138,909
2018	1,149,022
2019	485,575
2020	145,084
2021	-
Total	<u>\$ 2,918,590</u>

- (3) The Company has not entered into any material sale-leaseback transactions.

B. Lessor Leases

- (1) The Company has not entered into any operating leases.
- (2) The Company has not entered into any leverage leases.

16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of investment securities. All investment securities are managed by professional investment managers within policies authorized by the board of directors. Such policies limit the amounts that may be invested in any one issuer and prescribe certain investee company criteria. As of December 31, 2016, there were no significant concentrations.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable at December 31, 2016 and 2015.

B. Transfer and Servicing of Financial Assets

- (1) The Company participates in a securities lending program whereby marketable securities in its investment portfolio are transferred to independent brokers or dealers. At December 31, 2016, the fair value of securities loaned was \$928,082 and the carrying value of securities loaned was \$915,535.
- (2) – (7). Not applicable.

C. Wash Sales

1. In the course of the Company's asset management, securities may be sold and reacquired within 30 days of the sale date to enhance the yield on the investments.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

2. At December 31, 2016 and 2015, there were no wash sales involving securities with an NAIC designation of 3 or below or unrated.

18. Gain or Loss to the Reporting Entity from Uninsured A&H Plans and the Uninsured Portion of Partially Insured Plans

A. Administrative Services Only (“ASO”) Plans

The gain from operations from ASO uninsured plans and the uninsured portion of partially insured plans during 2016 was:

	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
a. Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	\$ (111,538)	\$ -	\$ (111,538)
b. Total net other income or expenses (including interest paid to or received from plans)	-	-	-
c. Net gain or (loss) from operations	\$ (111,538)	\$ -	\$ (111,538)
d. Total claim payment volume	\$ 3,431,950	\$ -	\$ 3,431,950

B. Administrative Services Contract (“ASC”) Plans

Not applicable in December 31, 2016 and 2015.

C. Medicare or Other Similarly Structured Cost-Based Reimbursement Contract

- The Company does not record revenue explicitly attributable to the cost share and reinsurance components of administered Medicare products.
- As of December 31, 2016 and 2015, the Company recorded a receivable from CMS of \$835,435 and \$329,726, respectively, related to the cost share and reinsurance components of administered Medicare products.
- As no revenue is recorded in connection with the cost share and reinsurance components of the Company’s reinsurance contracts, the Company has recorded no allowances and reserves for the adjustment of recorded revenues and receivables.
- The Company has made no adjustment to revenue resulting from audit of receivables related to revenues recorded in the prior period.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2016 and 2015.

20. Fair Value

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Total
a. Assets at fair value				
Bonds				
Industrial and Misc	\$ -	\$ 915,536	\$ -	\$ 915,536
Total bonds	\$ -	\$ 915,536	\$ -	\$ 915,536
Total assets at fair value	\$ -	\$ 915,536	\$ -	\$ 915,536

There are no investments in Level 3 as of December 31, 2016 and 2015.

- The Company’s policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.
- Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For Securities not actively traded, the third

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2. The Company has certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and the future cash flow projections. Such securities are designated Level 3. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted-average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or revenue multiples that are not observable in the markets.

Certain financial assets are measured at fair value using Level 3 inputs, such as certain non-investment grade bonds and loan-backed securities or investments that are impaired during the year and recorded at fair value.

There have been no significant changes in the valuation techniques during the current period.

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2016 and 2015.

C. Financial Instruments

Type of Financial Instrument	Aggregated Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Not Practicable (Carrying Value)

D. Not Practicable to Estimate Fair Value

There are no financial instruments that were not practicable to estimate fair value.

21. Other Items

A. Unusual or Infrequent Items

Pursuant to Section 641.35(3)(a), Florida Statutes, if an HMO, through a health risk contract, transfers to any entity the obligation to pay providers for subscriber claims, the liability for any such payment remains with the HMO until the payment is received by the provider and should be reflected in loss reserves. Although the Company's pharmacy benefit manager was paid for materially all December 2016 expenses, their contract allows 30 days for these payments to be made to providers. The Company reported \$11,218,436 and \$0 as a liability included on page 3, line 7 at December 31, 2016 and 2015. The additional expense is also included on page 4, line 13 for the year ending December 31, 2016. The Company evaluated the impact of this liability on our December 31, 2015 surplus and determined it would not have impacted our compliance with the OIR's capital requirements.

B. Troubled Debt Restructuring: Debtors

Not applicable at December 31, 2016 and 2015.

C. Other Disclosures

Pursuant to Section 641.35(3)(a), Florida Statutes, if an HMO, through a health risk contract, transfers to any entity the obligation to pay providers for subscriber claims, the liability for any such payment remains with the HMO until the payment is received by the provider and should be reflected in loss reserves. The Company reported \$11,218,436 and \$0 at December 31, 2016 and 2015. The Company evaluated the impact of this liability on our December 31, 2015 surplus and determined it would not have impacted our compliance with the OIR's capital requirements.

D. Business Interruption Insurance Recoveries

The Company has reported no recoveries for business interruption for the years ended December 31, 2016 and 2015.

E. State Transferable and Non-Transferable Tax Credits

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

The Company did not have state transferable tax credits at December 31, 2016 and 2015.

F. Subprime Mortgage-Related Risk Exposure

- (1) The Company's investment strategy of providing safety and preservation of capital, sufficient liquidity to meet cash flow requirements and the attainment of a competitive after-tax investment return is supported by a well diversified portfolio consisting of many different types of investments. The portion of the Company's investment portfolio with subprime mortgage-related risk exposure is relatively small in comparison to the overall investment portfolio, and consists of investment grade securities with no exposure to collateralized debt obligations. All mortgage related investments are monitored closely as part of the quarterly investment review performed by the Anthem Investment Impairment Review Committee.
- (2) The Company did not carry investments in subprime mortgage loans in its portfolio at December 31, 2016 or 2015.
- (3) The Company did not have subprime mortgage-related risk exposure at December 31, 2016 or 2015.
- (4) The Company did not underwrite Mortgage Guaranty or Financial Guaranty insurance coverage at December 31, 2016 or 2015.

G. Retained Assets

The Company did not have any retained assets at December 31, 2016 and 2015.

H. Insurance-Linked Securities Contracts

Not applicable.

22. Events Subsequent

The Company is subject to an annual fee under section 9010 of the ACA. A health insurance company's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The annual fee under section 9010 of the ACA has been suspended for 2017 and will resume for 2018 and beyond.

H. Would reporting the ACA assessment as of December 31, 2016 have triggered an RBC action level (YES/NO)?	NO	

Subsequent events have been considered through March 31, 2017 for the statutory statement issued on March 31, 2017. There were no other events occurring subsequent to December 31, 2016 requiring recognition or disclosure.

23. Reinsurance

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

- (1) Are any of the reinsurers that are listed in Schedule S as non-affiliated owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

Yes () No (X)

If yes, give full details.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

- (2) Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled, directly or indirectly, by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

Yes () No (X)

If yes, give full details.

Section 2 – Ceded Reinsurance Report – Part A

- (1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Yes () No (X)

If yes, give full details.

- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same insurer, exceed the total direct premium collected under reinsured policies?

Yes () No (X)

If yes, give full details.

Section 3 – Ceded Reinsurance Report – Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

Not Applicable.

- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

If yes, give full details.

B. Uncollectible Reinsurance

The Company has no uncollectible reinsurance at December 31, 2016 and 2015.

C. Commutation of Ceded Reinsurance

The Company has not commuted ceded reinsurance during 2016 and 2015.

D. Certified Reinsurer Rating Downgraded or Status Subject Revocation

The Company has no downgraded certified reinsurer ratings or status subject revocations during 2016 and 2015.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- A. The Company's contracts with the State Medicaid agency and CMS includes provisions for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts.
- B. The Company records accrued retrospective premium as an adjustment to earned premium.
- C. 100% of the net premiums written are subject to retrospective rating features.
- D. In accordance with the NAIC Accounting Practices and Procedures Manual, medical loss ratio rebates in accordance with the Federal 2010 Patient Protection and Affordable Care Act and Public Health Service Act, are to be reported in accordance with SSAP No. 66 - *Retrospectively Rated Contracts* ("SSAP No.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE Amerigroup Florida, Inc.

66"). A retrospectively rated contract is one that has the final policy premium calculated based on the loss experience of the insured during the term of the policy (including loss development after the term of the policy) and the stipulated formula set forth in the policy, or in the case of medical loss ratio rebates, a formula required by law. The Company based the incurred and unpaid liability amounts reported below based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the financial statement date; as well as regulations and guidance available that is not final and subject to change prior to settlement. Accordingly, the Company's use of estimates and assumptions in the preparation of the statutory based financial statements and related footnote disclosures may differ from actual results. Hence, the amounts reported herein are for financial reporting purposes solely and not intended to be used for settlement purposes.

Medical loss ratio rebates accrued pursuant to the Public Health Service Act are as follows:

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying financial statements of AMERIGROUP Florida, Inc. (the "Company") have been prepared in conformity with the National Association of Insurance Commissioners' ("NAIC") *Annual Statement Instructions* and in accordance with accounting practices prescribed by the NAIC *Accounting Practice and Procedures Manual* ("NAIC SAP"), subject to any deviations prescribed or permitted by the Florida Department of Financial Services ("Florida DFS").

For the years ended December 31, 2015 and December 31, 2014, there were no differences between the Company's net loss and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Florida.

B. Use of Estimates in the Preparation of the Financial Statements

Preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Accounting Policies

Health premium revenues, based on membership records and premiums rates for each membership category within each county, are recognized as revenue during the period in which the Company is obligated to provide service to members. Premiums are reported net of excess loss reinsurance ceded and experience rating refunds. Premiums paid before the effective service month are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by Centers for Medicare, Medicaid Services, and CMS. Costs, such as premium taxes and other underwriting expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- Short-term investments include investments with maturities of less than one year at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.
- Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.
- Common stocks of unaffiliated companies are stated at fair value based upon security ratings prescribed by various third-party pricing sources.
- The Company has no investments in preferred stocks.
- The Company has no mortgage loans - real estate.
- Loan-backed securities are stated at amortized cost. Pre-payment assumptions for loan-backed securities and structured securities were obtained from broker-dealer survey values or internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade loan-backed securities are stated at the lower of amortized cost or fair value.
- The Company has no investments in subsidiaries, controlled and affiliated companies.
- The Company has no investments in joint ventures, partnerships or limited liability companies.
- The Company has no derivative instruments.
- The Company does not anticipate investment income as a factor in the premium deficiency calculations.

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

11. Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.
12. The Company has not modified its capitalization policy from the prior period.
13. Pharmacy rebate receivables are recorded when earned based upon actual rebate receivables billed and an estimate of receivables based upon current utilization of specific pharmaceuticals and provider contract terms. All pharmaceutical rebates receivables are considered non-admitted due to their collectability beyond 90 days.

- The Company has no protective tax deposits reported as admitted assets under Section 6603 of the Internal Revenue Code as of December 31, 2015 and 2014.

F. The following companies will be included in the consolidated federal income tax return with their parent Anthem, Inc. as of December 31, 2015, and either are current members of the consolidated tax sharing agreement or are in the process of being added to the consolidated tax sharing agreement. Allocation of federal income taxes with affiliates subject to the tax sharing agreement is based upon separate income tax return calculations with credit for net losses that can be used on a consolidated basis. Pursuant to this agreement, the Company has the enforceable right to recoup federal income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal income taxes. Intercompany income tax balances are settled based on the Internal Revenue Service due dates.

10. Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

A. Nature of the Relationship

The Company is a Florida domiciled stock insurance company and is a wholly-owned subsidiary of PHP Holding, Inc, which is own by AMERIGROUP Corporation (“AGP”). AGP is a wholly-own subsidiary of ATH Holding Company, LLC (“ATH Holding”), which is an indirect wholly-owned subsidiary of Anthem, Inc. (“Anthem”), a publicly traded company owning 100% of the outstanding shares of the Physicians Healthcare Plan Holding, Inc. (PHP Holdings, Inc.). The shareholders of Anthem approved a proposal to amend its articles of incorporation to change the name to Anthem, Inc. from WellPoint, Inc. The name change was effective December 2, 2014.

On July 24, 2015, the Company’s ultimate parent company, Anthem Inc. (“Anthem”), and Cigna Corporation (“Cigna”) entered into an Agreement and Plan of Merger dated as of July 23, 2015, by and among Anthem, Cigna and Anthem Merger Sub Corp., a Delaware corporation and a direct wholly-owned subsidiary of Anthem, pursuant to which Anthem will acquire all outstanding shares of Cigna.

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

The acquisition is expected to close in the second half of 2016 and is subject to certain state regulatory approvals, standard closing conditions, customary approvals required under the Hart-Scott-Rodino Antitrust Improvements Act and the approval of both the Anthem, Inc. shareholders and Cigna's stockholders.

B. Significant Transactions for Each Period

The following significant transactions took place between the Company and its affiliates:

The Company received a \$35,000,000 on December 31, 2014 of capital contributions from its parent. The Company received no capital contributions from its parent for the year ended December 31, 2015.

The Company paid no dividends for the years ended December 31, 2015 and 2014.

C. Intercompany Management and Service Arrangements

There were no changes to the intercompany management and service arrangements, and there were no additional arrangements entered into during 2015 or 2014. The amounts of transactions under such agreements are presented in Schedule Y, Part 2.

D. Amounts Due to or from Related Parties

At December 31, 2015 and 2014, the Company reported \$0 and 22,146 due from affiliates and \$9,876,638 and \$4,708,161 due to affiliates, respectively. The receivable and payable balances represent intercompany transactions that will be settled in accordance with the settlement terms of the intercompany agreement.

E. Guarantees or Contingencies for Related Parties

The Company did not enter into guarantees or undertakings for the benefit of an affiliate which would result in a material contingent exposure of the Company's or any affiliated insurer's assets or liabilities.

F. Management and Service Contracts and Cost Sharing Arrangements

Effective January 1, 2014 the Company entered into an administrative services agreement with its affiliated companies. Pursuant to these agreements, various administrative, management and support services are provided to or provided by the Company. The costs and expenses related to these administrative management and support services are allocated to or allocated by the Company in an amount equal to the direct and indirect costs and expenses incurred in providing these services. Costs include expenses such as salaries, employee benefits, communications, advertising, consulting services, billing, accounting, underwriting, and product development, which support the Company's operations. These costs are allocated based on various utilization statistics.

G. Nature of Control Relationships that Could Affect Operations or Financial Position

AGP owns all the outstanding shares of the Company. The Company's ultimate parent is Anthem, Inc.

H. Amount deducted for Investment in Upstream Company

The Company does not own shares of upstream intermediate entities or Anthem.

I. Detail of Investments in Affiliates Greater than 10% of Admitted Assets

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

F. All Other Contingencies

In February 2015, Anthem reported that it was the target of a sophisticated external cyber-attack. The attackers gained unauthorized access to certain of Anthem's information technology systems and obtained personal information related to many individuals and employees, such as names, birthdays, health care identification/social security numbers, street addresses, email addresses, phone numbers and employment information, including income data. To date, there is no evidence that credit card or medical information, such as claims, test results or diagnostic codes, were targeted, accessed or obtained, although no assurance can be given that Anthem will not identify additional information that was accessed or obtained.

Anthem has continued to implement security enhancements since this incident and is supporting federal law enforcement efforts to identify the responsible parties. Upon discovery of the cyber-attack, Anthem took immediate action to remediate the security vulnerability and retained a cybersecurity firm to evaluate its systems and identify solutions based on the evolving landscape. Anthem is providing credit monitoring and identity protection services to those who have been affected by this cyber-attack. Anthem has incurred expenses subsequent to the cyber-attack to investigate and remediate this matter and expects to continue to incur expenses of this nature in the foreseeable future. Anthem will recognize these expenses in the periods in which they are incurred.

Actions have been filed in various federal and state courts, and other claims have been or may be asserted against Anthem on behalf of current or former members, current or former employees, other individuals, shareholders or others seeking damages or other related relief, allegedly arising out of the cyber-attack. State and federal agencies, including state insurance regulators, state attorneys general, the Health and Human Services Office of Civil Rights and the Federal Bureau of Investigation, are investigating events related to the cyber-attack, including how it occurred, its consequences and Anthem's responses. Although Anthem is cooperating in these investigations, Anthem may be subject to fines or other obligations, which may have an adverse effect on how Anthem operates its business and results of operations. With respect to the civil actions, a motion to transfer was filed with the Judicial Panel on Multidistrict Litigation in February 2015 and was subsequently heard by the Panel in May 2015. In June 2015, the Panel entered its order transferring the consolidated matter to the U.S. District Court for the Northern District of California. The U.S. District Court entered its Case Management Order in September 2015. Anthem has filed a Motion to Dismiss several of the counts that are before the U.S. District Court. There remain a few state court cases that are presently proceeding outside of the Multidistrict Litigation.

Anthem has contingency plans and insurance coverage for certain expenses and potential liabilities of this nature. The coverage has been sufficient to cover the majority of claims and liabilities incurred to date. While a loss from these matters is reasonably possible, Anthem cannot reasonably estimate a range of possible losses because the investigation into the matter is ongoing, the proceedings remain in the early stages, alleged damages have not been specified, there is uncertainty as to the likelihood of a class or classes being certified or the ultimate size of any class if certified, and there are significant factual and legal issues to be resolved.

The Company is involved in other pending and threatened litigation of the character incidental to the business transacted, arising out of its operations and is from time to time involved as a party in various governmental and administrative proceedings. These investigations, audits and reviews include routine and special investigations by state insurance departments, state attorneys general, the U.S. Attorney General and Federal Agencies. Such investigations could result in the imposition of civil or criminal fines, penalties and other sanctions. The Company believes that any liability that may result from any one of these actions is unlikely to have a material adverse effect on the Company's financial position or results of operations.

At December 31, 2015 and 2014, the Company reported admitted assets of \$7,252,804 and \$8,829,481 respectively in premium receivables due from policyholders and agents and receivables due from uninsured plans. The receivables are not deemed to be uncollectible, therefore, no provision for uncollectible amounts have been recorded. The potential for any additional loss is not believed to be material to the Company's financial condition.

15. Leases

A. Lessee Operating Lease

1. The Company leases office space, office equipment, EDP equipment, software and terminal lines under various noncancelable operating leases. Related lease expense for 2015 and 2014 was \$2,564,331 and \$426,215, respectively.
2. At January 1, 2016, the minimum aggregate rental commitments are as follows:

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

Year Ending December 31	Operating Leases
2016	\$ 2,719,005
2017	2,855,665
2018	2,906,449
2019	2,285,735
2020	1,366,589
Total	\$ 12,133,443

3. The Company has not entered into any material sale-leaseback transactions.

B. Lessor Leases

1. The Company has not entered into any operating leases.
2. The Company has not entered into any leverage leases.

16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company has no significant financial instruments with off-balance sheet risk.

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of investment securities. All investment securities are managed by professional investment managers within policies authorized by the board of directors. Such policies limit the amounts that may be invested in any one issuer and prescribe certain investee company criteria. As of December 31, 2015, there were no significant concentrations.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable at December 31, 2015 and 2014.

B. Transfer and Servicing of Financial Assets

1. The Company participates in a securities lending program whereby marketable securities in its investment portfolio are transferred to independent brokers or dealers. At December 31, 2015, the fair value of securities loaned was \$6,809,647 and the carrying value of securities loaned was \$6,721,845.
2. – 7. Not applicable.

C. Wash Sales

1. In the course of the Company's asset management, securities may be sold and reacquired within 30 days of the sale date to enhance the yield on the investments.
2. At December 31, 2015 and 2014, there were no wash sales involving securities with an NAIC designation of 3 or below or unrated.

18. Gain or Loss to the Reporting Entity from Uninsured A&H Plans and the Uninsured Portion of Partially Insured Plans

A. Administrative Services Only ("ASO") Plans

Not applicable in December 31, 2015 and 2014.

B. Administrative Services Contract ("ASC") Plans

Not applicable in December 31, 2015 and 2014.

C. Medicare or Other Similarly Structured Cost-Based Reimbursement Contract

Not applicable at December 31, 2015 and 2014.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

No premiums were written by managing general agents or third party administrators during the years ended December 31, 2015 and 2014.

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

20. Fair Value

A. Fair Value Measurements

1. Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Total
a. Assets at fair value				
Bonds				
Industrial and Misc	\$ -	\$ -	\$ -	\$ -
Total bonds	\$ -	\$ -	\$ -	\$ -
Common stock				
Industrial and Misc	\$ 13,826,041	\$ -	\$ -	\$ 13,826,041
Total common stocks	\$ 13,826,041	\$ -	\$ -	\$ 13,826,041
Total assets at fair value	\$ 13,826,041	\$ -	\$ -	\$ 13,826,041

2. There are no investments in Level 3 as of December 31, 2015 and 2014.

3. The Company's policy is to recognize transfers between Levels, if any, as of the beginning of the reporting period.

4. Fair values of fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level 1 or Level 2 inputs, for the determination of fair value to facilitate fair value measurements and disclosures. United States Government securities represent Level 1 securities, while Level 2 securities primarily include corporate securities, securities from states, municipalities and political subdivisions and residential mortgage-backed securities. For securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

Fair values of equity securities are generally designated as Level 1 and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level 2.

There have been no significant changes in the valuation techniques during the current period.

B. Fair Value Measurements Under Other Accounting Pronouncements

Not applicable at December 31, 2015 and 2014.

C. Financial Instruments

Type of Financial Instrument	Aggregated Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Not Practicable (Carrying Value)

D. Not Practicable to Estimate Fair Value

There are no financial instruments that were not practicable to estimate fair value.

21. Other Items

A. Unusual or Infrequent Items

Not applicable at December 31, 2015 and 2014.

B. Troubled Debt Restructuring: Debtors

Not applicable at December 31, 2015 and 2014.

C. Other Disclosures

Not applicable at December 31, 2015 and 2014.

D. Business Interruption Insurance Recoveries

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

The Company has reported no recoveries for business interruption for the years ended December 31, 2015 and 2014.

E. State Transferable and Non-Transferable Tax Credits

The Company did not have state transferable tax credits at December 31, 2015 and 2014.

F. Subprime Mortgage-Related Risk Exposure

1. The Company's investment strategy of providing safety and preservation of capital, sufficient liquidity to meet cash flow requirements and the attainment of a competitive after-tax investment return is supported by a well diversified portfolio consisting of many different types of investments. The portion of the Company's investment portfolio with subprime mortgage-related risk exposure is relatively small in comparison to the overall investment portfolio, and consists of investment grade securities with no exposure to collateralized debt obligations. All mortgage related investments are monitored closely as part of the quarterly investment review performed by the Anthem Investment Impairment Review Committee.
2. The Company did not carry investments in subprime mortgage loans in its portfolio at December 31, 2015 or 2014.
3. The Company did not have subprime mortgage-related risk exposure at December 31, 2015 or 2014.
4. The Company did not underwrite Mortgage Guaranty or Financial Guaranty insurance coverage at December 31, 2015.

G. Retained Assets

The Company did not have any retained assets at December 31, 2015 and 2014.

22. Events Subsequent

The Company is subject to an annual fee under section 9010 of the Affordable Care Act ("ACA"). A health insurance company's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The Company has written health insurance subject to the ACA assessment and expects to conduct health insurance business in 2016. The Company reflected its estimated portion of the fee payable on September 30, 2016 in special surplus. The annual fee under section 9010 of the ACA has been suspended for 2017 and will resume for 2018 and beyond.

ANNUAL STATEMENT FOR THE YEAR 2015 OF THE Amerigroup Florida, Inc.

2. Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled, directly or indirectly, by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

Yes () No (X)

Section 2 – Ceded Reinsurance Report – Part A

1. Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Yes () No (X)

2. Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same insurer, exceed the total direct premium collected under reinsured policies?

Yes () No (X)

Section 3 – Ceded Reinsurance Report – Part B

1. What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2) above of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

Not Applicable.

2. Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement include policies or contract that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes () No (X)

B. Uncollectible Reinsurance

The Company has no uncollectible reinsurance at December 31, 2015 and 2014.

D. Certified Reinsurer Rating Downgraded or Status Subject Revocation

The Company has no downgraded certified reinsurer ratings or status subject revocations during 2015 and 2014.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- A. The Company's contract with CMS includes provisions for which the premiums vary based on loss experience. The Company estimates retrospective premium adjustments through the review of each retrospectively rated account, comparing the claim development with that anticipated in the policy contracts.

- B. The Company records accrued retrospective premium as an adjustment to earned premium.

- C. The amount of net premiums written by the Company at December 31, 2015 and 2014 that were subject to retrospective rating features was \$1,309,626,197 and \$105,214,066 respectively, which represents 100.0% and 11.2% of the total net premiums written. No other net premiums written by the Company are subject to retrospective rating features.

- D. In accordance with the NAIC Accounting Practices and Procedures Manual, medical loss ratio rebates in accordance with the Federal 2010 Patient Protection and Affordable Care Act and Public Health Service Act, are to be reported in accordance with SSAP No. 66 - *Retrospectively Rated Contracts* ("SSAP No. 66"). A retrospectively rated contract is one which has the final policy premium calculated based on the loss experience of the insured during the term of the policy (including loss development after the term of the policy) and the stipulated formula set forth in the policy, or in the case of medical loss ratio rebates, a formula required by law. The Company based the incurred and unpaid liability amounts reported below based on its underwriting experience; actuarial, tax, and accounting estimates and assumptions at the
